Subject: Condition Met (Adriana MacPherson)

Condition Title: Minor Variance Condition - Vaughan - Forestry

Condition Status: Condition Met

Condition Text:

1. Applicant must obtain a Private Property Tree Removal & Protection Permit (Construction/Infill) for the removal/injury to trees (over 20cm DBH) on the subject property and trees located within 6 metres of the subject property, as per By-Law 052-2018;

2. Tree Protection Fencing is to be installed to minimize the impact on the trees (over 20cm DBH) to be preserved prior demolition/construction and is to remain until the construction is completed. (applicable to Private and Public trees) as per By-Law 052-2018;

Note: Forestry has received the Private Property Tree Removal & Protection Permit (Construction/Infill) and Arborist Report which is currently under review. Tree removal permit will be issued once the applicant pays the permit fees. Hoarding shall be installed prior to construction/demolition begins. Applicant agreed to installing the hoarding by February 27, 2021 or the end of February 2021.

File No: A133/20

Type: Minor Variance - Residential, Agricultural, Institutional

Address: 11 Marywood Ct
