Property Information	
Existing Structures	Year Constructed
Dwelling	1974
In Ground Pool	TBC

Applicant has advised that they cannot comply with By-law for the following reason(s): 14 Lewis Drive is an irregular lot. The backyard does not have enough space to accommodate a pool while the side yard does.

**Adjournment Request:** None.

**Building Standards (Zoning Review):**

Stop Work Order(s) and Order(s) to Comply: There are no outstanding Orders on file.

A Building Permit has not been issued. The Ontario Building Code requires a building permit for structures that exceed 10m².

The applicant shall be advised that additional variances may be required upon review of detailed drawing for building permit/site plan approval.

**Building Inspections (Septic):**

No comments or concerns

**Development Planning:**

Vaughan Official Plan 2010 (,VOP 2010‘): “Low-Rise Residential”

The Owner is requesting permission to construct an in-ground swimming pool and pool equipment with the above noted variances.

The Development Planning Department has no objection to the location of the pool, as the technical interpretation of front yard (as defined by Zoning By-law 1-88) for this irregular shaped lot disregards the fact that the swimming pool and pool equipment occupy an area that functions more as an exterior side yard (based on the alignment of the existing dwelling). The setback to the pool is appropriate since there is no potential impact on neighbouring properties, and the setback maintains a distance that provides safe access around the water’s edge.

In support of this application, the Owner submitted an Arborist Report (prepared by Tree Doctors Inc., dated December 21st, 2020) addressing Urban Design’s comments. Development Planning staff is the opinion that the existing preserved vegetation along the periphery of the front yard acts as a natural buffer ensuring the swimming pool and pool equipment are not visible from the street.

The Development Planning Department is of the opinion that the proposal is minor in nature, maintains the general intent and purpose of the Official Plan and Zoning By-law, and is desirable for the appropriate development of the land.

The Development Planning Department recommends approval of the application.

**Cultural Heritage (Urban Design):**

No response

**Development Engineering:**

The Development Engineering (DE) Department does not object to variance application A113/20.

The Owner/applicant shall apply for a pool permit with the Development Engineering (DE) Department. Please visit or contact the Development Engineering Department through email at [DEPermits@vaughan.ca](mailto:DEPermits@vaughan.ca) or visit [https://www.vaughan.ca/services/residential/dev\\_eng/permits/Pages/default.aspx](https://www.vaughan.ca/services/residential/dev_eng/permits/Pages/default.aspx) to learn how to apply for the pool permit.

**Parks Development - Forestry:**

The private property tree removal & protection permit application has been received by Forestry on January 4th, 2021. Forestry is currently reviewing the application and have 30 days to process it.

Recommended condition of approval:

The applicant must install tree protection (hoarding) to the satisfaction of Forestry, prior to permit issuance. Once all tree removal permit requirements are met, Forestry will issue the permit following minor variance approval.
