Subject: [External] Fw: Minor variance application A163/20

Please find this email as **OPPOSED** to the minor Variance as per application # A163/20

Any build on the property should be within the guidelines of the city By-Laws without exception or Variance.

Any build outside of these guidelines, that encroach upon the minimum setbacks, set forth by these by laws, will effectively remove and infringe upon all reasonable expectations of privacy in my and or my neighbor's yards.

Each homeowner is entitled to reasonably expect some privacy in their own yard.

The home owners should have a safety fence around their pool, and Because of the grade differential in the properties the home owners at 21Twilight Terrace should also be prepared to build a privacy fence on their property as part of the construction of this deck.
