Hello,

We would like to add our concerns relating to this application we are residents of 11 Janessa Court Maple, we have been residing here since 2008 our backyard is directly facing this shed that mimics the size of a small house, we feel this shed has brought the value of property down as it blocks all views facing the open landscaping, one of the main reasons we bought this property. It overshadows the greenery which now in reality we do not see anything except for this oversized shed.

We hope you will take our concerns into consideration and we look forward to knowing the results of your decision.

Regards,

Harbans Singh Biring
