# High Priority Communities Strategy

March 29, 2021

# Background

1. On December 21, 2020, province of Ontario announced the implementation of the High Priority Communities Strategy funding.
2. Funding is provided to local community agencies to deliver key interventions for communities impacted greatly by COVID-19.
3. Racially diverse, newcomer and low-income communities have been disproportionately impacted by COVID-19. Due to the social determinants of health factors, they are facing complex barriers to accessing healthcare and social services. And they need specific supports to enact core Covid-19 prevention measures.
4. York Region Public Health has used postal code data and levels of marginalization to identify “hot spots” for Covid-19 transmission. The City of Vaughan has been identified as a high priority community and a “hot spot” with high positivity rate and lower testing rate.
5. The Vaughan Community Health Centre (VCHC) has been selected as the lead agency to implement the Strategy funding in Vaughan.
