Hi Mr. Bevilacqua

I am a resident of Weston Downs and understand that there is a meeting on May 12th regarding the proposed condo development on Velmar and Rutherford. I wanted to let you know that both myself and my wife are really opposed to it. We really don't mind the approved 4 storey development. However the amendment to a 7 story building would mean even further stress on the interior roads ie. Velmar, Santa Barbara etc. that are currently overused by many individuals cutting through the area to get further north or west. The intersection at Velmar and Rutherford would become impassible to traffic, especially at the morning and evening rush hours. I would strongly recommend that you vote against the amending of the official plan to accommodate this 7 storey structure.

Yours truly

Dan Maggiori and Patricia Maggiori
