

CITY OF VAUGHAN
EXTRACT FROM COUNCIL MEETING MINUTES OF MAY 18, 2021

Item 13, Report No. 26, of the Committee of the Whole, which was adopted without amendment by the Council of the City of Vaughan on May 18, 2021.

13. PROCLAMATION REQUESTS – BUILDING SAFETY MONTH AND WORLD SICKLE CELL DAY

The Committee of the Whole recommends approval of the recommendations contained in the report of the Deputy City Manager, Administrative Services and City Solicitor dated May 12, 2021.

Recommendations

1. That the month of May be proclaimed as “Building Safety Month”;
2. That June 19, 2021 be proclaimed as “World Sickle Cell Day”;
3. That City Hall be illuminated in Red and White on June 19, 2021 for World Sickle Cell Day; and
4. That the proclamations be posted on the City’s website and the Corporate and Strategic Communications department be directed to promote the proclamations through the various corporate channels.

Committee of the Whole (2) Report

DATE: Wednesday, May 12, 2021

WARD(S): ALL

**TITLE: PROCLAMATION REQUESTS – BUILDING SAFETY MONTH
AND WORLD SICKLE CELL DAY**

FROM:

Wendy Law, Deputy City Manager, Administrative Services and City Solicitor

ACTION: DECISION

Purpose

To seek approval for proclamation requests for: Building Safety Month and World Sickle Cell Day.

Report Highlights

- Respond to the proclamation request from the Building Standards Department to proclaim the month of May as Building Safety Month.
- Respond to the proclamation request received from Sickle Cell Awareness Group of Ontario regarding a proclamation and illumination for World Sickle Cell Day on June 19, 2021.

Recommendations

1. That the month of May be proclaimed as “Building Safety Month”;
2. That June 19, 2021 be proclaimed as “World Sickle Cell Day”;
3. That City Hall be illuminated in Red and White on June 19, 2021 for World Sickle Cell Day; and
4. That the proclamations be posted on the City’s website and the Corporate and Strategic Communications department be directed to promote the proclamations through the various corporate channels.

Background

Building Safety Month

Correspondence was received from the Building Standards Department on April 28, 2021.

The Ontario Building Officials Association celebrates Building Safety Month every May to bring public awareness to the Ontario Building Code. They promote the importance of obtaining building permits and the contributions of Municipal Building Officials.

World Sickle Cell Day

Correspondence was received from Sickle Cell Awareness Group of Ontario on April 29, 2021.

Sickle Cell Disease (SCD) or Sickle Cell Anemia is a hereditary genetic disease characterized by the presence of abnormal crescent-shaped red blood cells which can affect Canadians of specific cultural backgrounds. The organization is hoping that by recognizing June 19 as World Sickle Cell Day, public awareness of this disease would be increased, as well as the importance of education and genetic testing.

Council has previously granted this request.

May is Building Safety Month! Are you ready?

Every May, the building industry celebrates Building Safety Month to bring public awareness to the Ontario Building Code, the importance in obtaining building permits and the contributions of municipal building officials.

The OBOA celebrates Building Safety Month every year by creating posters, and engaging in a month-long social media campaign.

Click [here](#) to download the posters for English and French.

Engage with us on social media and help build awareness of the importance of building safety and the role of building officials across Ontario!

Building Safety Month is coming up in May and we're inviting you to join our campaign.

Subject: [External] RE: Proclamation Request - June 19 - World Sickle Cell Day
Date: April-29-21 3:49:33 PM
Attachments: [SCAGO-WorldSickleCellDay-Recognition_Vaughan \(1\).pdf](#)

Hi Shari,

I would like to submit a request for building lighting and proclamation from the City of Vaughan for June 19th, 2021. I have attached a letter with more information about the organization, the day of recognition and our objectives for recognizing June 19th.

These are the answers to the information requested on your site:

- The date you'd like to have the proclamation: June 19, 2021
- The title and a brief description of the event you'd like to recognize: World Sickle Cell Day
- Your name and contact information: Ika Washington, Phone #: 6479750250
- The name of the community group requesting the clock tower lighting: Sickle Cell Awareness Group of Ontario
- The requesting group's nine-digit charitable organization number and/or a link to where the group's name on the Government of Canada's List of Charities: 83332 0872 RR0001
- If there is a possibility to have the city building illuminated to recognized World Sickle Cell Day, we would like to request the colours RED and WHITE.

Kindest Regards,

Ms. Ika Washington, MSc., BSc.

SCAGO

Sickle Cell Awareness Group of Ontario

April 25, 2021

Office of the City Clerk
Vaughan City Hall, Level 100
2141 Major Mackenzie Dr.
Vaughan, ON L6A 1T1

To Office of the City Clerk:

I would like to take this opportunity to introduce myself as the Communications and Marketing Manager for the Sickle Cell Awareness Group of Ontario (SCAGO).

Sickle Cell Awareness Group of Ontario also known as SCAGO is a member organization under the national umbrella of the Sickle Cell Disease Association of Canada.

It was established in 2005 to:

- Improve treatment and care received by patients living with SCD by providing better education about the disease to the medical and allied health professionals.
- Educate the community on SCD and sickle cell trait with the expected outcome of reducing the number of children born with the disease.
- Support those living with the disease by providing access to peer support group meetings, scholarships, learning for life seminars and advocating on their behalf with the Ontario Ministry of Health.

Sickle Cell Disease (SCD) or Sickle Cell Anaemia is a hereditary genetic disease characterized by the presence of abnormal crescent-shaped red blood cells. It affects Canadians of Asian, African, Mediterranean, Middle Eastern and Caribbean heritage. In 2005, it was estimated that over 2000 Ontarians are living with sickle cell disease and up to one in four from some specific cultural background carries the sickle cell trait. Most recent reports show that the incidence of SCD in Ontario is 1 in 2800 births (2015). Additionally, SCD predominantly affects ethnic minority populations with up to 25% of Canadians with ethnic roots in regions of the world traditionally affected by malaria and may carry the trait.

World Sickle Cell Day is observed on June 19 and has been recognized by the United Nation since 2008. On November 22, 2017, the Canadian government passed Bill S-211, enacting June 19th every year as "National Sickle Cell Awareness Day". World Sickle Cell Day was created to encourage global awareness and action to bring awareness through information,

activities and concern. Globally, SCD has been recognized as a huge public health problem and “one of the world’s foremost genetic diseases” (World Health Organization). According, to WHO there are nearly 100 million people throughout the world affected by SCD and 300 million people who carry the SCD trait.

We are requesting the City of Vaughan to recognize World Sickle Cell Day on June 19, 2021. Our missions below are aligned with the aim of World Sickle Cell Day health promotion campaigns:

- Increase public awareness of sickle cell disease
- The great importance of education on SCD and the importance of genetic testing. This *may* reduce the # of new births.
- Improved awareness will assist in patients realizing there is a community across Ontario
- To give hope, inspiration and empowerment to the individuals living with sickle cell disease.

We were very fortunate, in 2017, 2018 and 2019 to partner with the CN Tower, Exhibition Princess Gates, Niagara Falls, the City of Toronto, the City of Markham, City of Newmarket, City of Brampton, City of Mississauga, City of London, and many others to illuminate their landmarks. We found that there were a lot of people talking on social media platforms about the disease and requesting more information to help. We were also astounded by the amount of SCD patients who reached out to tell us the ways this initiative made them feel empowered and able to share their experiences with friends and co-workers. As we continue to find new ways to raise awareness and to dispel the stereotypes surrounding SCD, we push to recognize SCD patients who continue to live with the disease, as well as those who have lost their lives.

Thank you for taking the time to read this recognition request. If you have any further questions, please don’t hesitate to message me. I look forward to hearing from you.

Best Regards,

Ika Washington, MSc.
