Subject: [External] Deputation - Clubhouse Developments Inc.

This is to confirm that I am opposed to the proposal that would subject Wycliffe and Kiloran Avenue to additional traffic from the proposed new development. There are already long delays during rush hour along Kiloran Avenue, existing onto Islington Avenue. More traffic will only lead to greater congestion and make our streets less safe.

Subject: [External] Board of Trade Development Opposition

Hello,

My name is Eliza Hilario and I reside at [redacted], Woodbridge ON.

I would like to advise that I oppose the Board of Trade Development.

This massive infill development is not in the best interest of an already established community, within Vaughan, how devastating it would be to remove this gem of green space and the negative impact it would have to the environment, its wildlife, the wellness of the community, of the neighbourhood, for years to come.

Thanks,

Eliza Hilario

My name is Kar Leung, I reside at [redacted], Woodbridge Ontario

I would like to advise that I oppose the Board of Trade Development.

This massive infill development is not in the best interest of an already established community, within Vaughan, how devastating it would be to remove this gem of green space and the negative impact it would have to the environment, its wildlife, the wellness of the community, of the neighbourhood, for years to come. This…all in the name of business, greed, corruption…to hell with the residents who pay hard earned tax money, to hell with the well-being of communities and neighbourhoods of Vaughan. Today, it is the BOTGC, tomorrow it could be another area of the city…and so it goes

Thank you.
Karlock

COMMUNICATION
Council – July 15, 2020
SP CW Report No. 33, Item 1

From: Clerks@vaughan.ca
To: Bellisario, Adelina
Subject: FW: [External] deputation
Date: July-07-20 7:11:07 PM

From: [redacted] <[redacted]>
Sent: Tuesday, July 7, 2020 7:01 PM
To: Clerks@vaughan.ca
Subject: [External] deputation

To whom it may concern
I am definitely opposed to the development to the proposed changes to the board of trade golf club. It is time to stand up and let the city and Vaughan council know that we need to grant an interim control bylaw. We are aware that if the proposed development goes through it will have a profound effect on the community and our city
Thank you

To: Clerks@vaughan.ca
Subject: [External] Zoning By-law Amendment File Z.20.001 - 9630 Islington Ave.

Hello,

I am emailing you to oppose this application for several reasons:

(a) traffic will intensify at the intersection of Napa Valley and Islington Ave. and congestion will make it difficult for community members to leave the sub-division at this intersection
(b) public transit stops are at this intersection therefore, again increasing traffic congestion
(c) congestion will make it unsafe for people in our community to take walks and ride bikes with their families
(d) noise pollution and air pollution will increase
(e) proposed residential apartment building is across from agricultural land therefore potentially disrupting biodiversity

Please let me know if it is too late to submit a deputation.

Thank you,

Franca Lacivita-Lunn

Hello,

I am emailing you this to strongly oppose this application for a few reasons:

1. increase in traffic; travel time in Vaughan has increased extremely a route that would usually take 5 mins is now taking 25mins if not longer during rush hour

2. Islington Ave and Napa Valley is already a busy intersection, building a 5 storey apartment building will add to this intersection's congestion (not to mention the town homes they are buidling now just south of this intersection

3. noise level will increase

4. pollution will increase

5. safety will be of concern as many families walk and bike ride along Islington

6. sewer systems will need to be re-evaluated in the area with increased population

Kindly advise if it is too late to submit my deputation.

Thank you

Rosanna Battaglia

June 22, 2020

Dear Mayor and Members of Council:

We would like to formally express our concern over the potential that the Ontario government may be approached to issue a Minister's Zoning Order (MZO) with council's approval over the Board of Trade Golf Course Development (20 Lloyd Street, Vaughan).

We, local residents part of the Keep Vaughan Green community group, ask that should such a MZO come forth with regards to the BOT golf course that council support a democratic process and oppose such a MZO. We as community members have invested many hours of our time and money to bring forth our concerns regarding the impacts of this proposed development on our community.

A draft motion has been submitted to our Ward 2 Councillor Tony Carella resolving that Vaughan Council:

1. Will reject any request of support by the applicant(s) for a Minister's Zoning Order or proposed Minister's Zoning Order that may be forthcoming on the former Board of Trade Golf Course.

2. Will support the normal planning process legislated by the Ontario Planning Act and conferred upon Municipal Governments under the Ontario Planning Act.

3. Will not support any planning directive that does not include all stakeholders, specifically the citizens of the City of Vaughan.

4. Will support our residents to retain their right to be part of the planning process and to play a key role in assessing how the proposed Toronto Board of Trade development application will impact their community

Issuing such a MZO would be unjust to the taxpayers of this community.

We further recommend, in addition to the above, that Vaughan Council support the implementation of an Interim Control Bylaw to facilitate the completion of pertinent independent studies so that an informed decision can be made with respect to the proposed OPA, plan of subdivision and zoning amendment for this site.

We have recently been informed that the Minister of Municipal Affairs and Housing, Steve Clark, has advised of the intention to end the temporary suspension of the Planning Act timelines as of June 22, 2020 and NOT when the province lifts the state of Emergency as originally intended. We ask that the city consider continuing this temporary hold on timelines given the extent to which York Region has been impacted by Covid19, and given that our region has not been able to 'open up' as early as other jurisdictions. We further request that the special COW that is recently scheduled for July 8, 2020 be rescheduled to a later date so as to allow maximal participation of residents (as has been granted to other rate payer groups for other development applications).

Sincerely,

Giovanni + Annie
Massara.

Hello

My name is Chona Hilario and I reside at [redacted].
Woodbridge Ontario

I would like to advise that I oppose the Board of Trade Development.

This massive infill development is not in the best interest of an already established community, within Vaughan, how devastating it would be to remove this gem of green space and the negative impact it would have to the environment, its wildlife, the wellness of the community, of the neighbourhood, for years to come. This...all in the name of business, greed, corruption...to hell with the residents who pay hard earned tax money, to hell with the well-being of communities and neighbourhoods of Vaughan. Today, it is the BOTGC, tomorrow it could be another area of the city... and so it goes

Thank you.

Dear Mayor Bevilacqua, Councillors Ferri, Rosati, Jackson, Iafrate, Carella, DeFrancesca, Yeung Racco and Shefman,

On July 7th Vaughan residents held a peaceful protest organized by Keep Vaughan Green and supported by surrounding ratepayer groups (Village of Woodbridge Ratepayers and West Woodbridge Ratepayers association) on Woodbridge Avenue and Clarence to voice our concerns about the proposed development on the former Board of Trade Golf course lands.

Over 200 residents attended to voice their concerns! Please see below a button which will take you to a short photo montage of the event.

Protest Photo Montage July 7th 2020

Although the city has been in back and forth discussions regarding this development for some time with Clubhouse Developments Inc., impacted resident groups have Never been formally invited to engage in discussions by city staff nor the developers.

This new application, finalized just prior to shut downs due to COVID-19, proposing over 1200 residents will have great impacts on our community. We are firmly requesting an ICBL IN GOOD FAITH to study impacts in greater detail to get this right!

Please keep the images from this photo montage in your minds when you are listening to our deputations on July 8th and when you come to a decision!

Thank you,
Keep Vaughan Green

Subject: [External] Deputation-Clubhouse Developments Inc

To the attention of the Office of the City Clerk:

My name is Celeste DiCosola. I live at [redacted] and my phone number is [redacted]. This is to confirm that I am opposed to the proposal that would subject Wycliffe and Kiloran Avenue to additional traffic from the proposed new development. There are already long delays during rush hour along Kiloran Avenue, exiting on Islington Avenue.
I have three young children and am very concerned about their safety and ability to play outside and ride their bike on a already bustling subdivision with a continuous flow of traffic stemming from commuters using Wycliffe as a quick alternative to Rutherford and Islington.
More traffic will only lead to greater congestion and make our streets less safe.

Thank you,
Celeste DiCosola

Good Afternoon Clerks Office and Councillor Carella

Please find attached our response to the Staff Report regarding the ICBL. Please ensure this document is included in the package and circulated to Member of Council

Thank you in advance, Maria

Good Afternoon Mayor Bevilacqua, Regional Councillors, Ward Councillors and City Staff

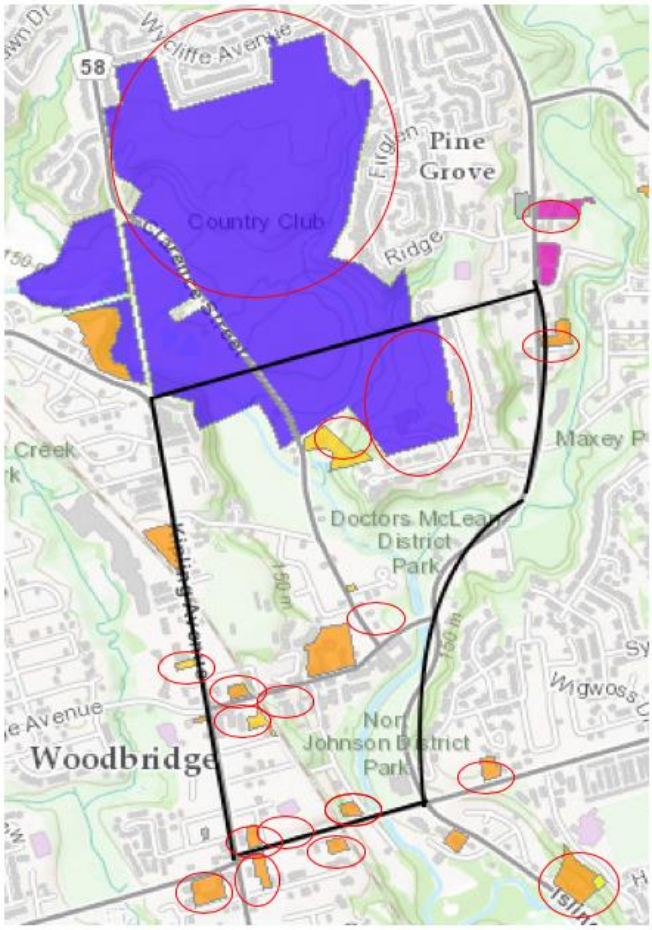
I am a taxpayer, a resident of Ward 1 and I am a member of the Village of Woodbridge Ratepayers Association. I am extremely disappointed in the City of Vaughan Staff's decision to not proceed with proposed Interim Control By-Law (ICBL) on the Clubhouse Application (known as the Board of Trade). The ICBL would have provided the City Vaughan and associates the time to review, study and challenge the said proposal and take the initiative to come into the community and hear the reactions of the residents regarding this proposal. This application will have a profound and direct impact on my community and association's area.

Looking back at several of the development applications that have been approved in the Village of Woodbridge, it is obvious to the residents that Village of Woodbridge Ratepayers Association represents, that decisions have been made with haste and no regard to the long-term impact. The approval of the ICBL would provide the City of Vaughan the opportunity to really analyze the full social, cultural, logistical and environmental impacts that this application will have as well as considering the feedback from those who will be directly impacted by this development.

Proceeding with the current Clubhouse application in its current state is yet another example to the community of another development application that does nothing to protect or improve the Village of Woodbridge. It is actually embarrassing when I refer to the area as the Village of Woodbridge because the 'village' is disappearing because of applications such as this one. The onslaught of development applications in our area has eroded the 'village' in the Village of Woodbridge. These developments discourage the 'pedestrian friendly' environment that our Councillor, Tony Carella, and City planners keep insisting they are trying to bring back to the Village of Woodbridge.

An Interim Control By-law is prudent. It allows the City of Vaughan the time that it needs to properly assess this application. This application is one of 15 applications that are currently open at one stage or another with the City of Vaughan Planning Department. Each one of these 15 applications has a direct impact on the Woodbridge Core area. This particular application is the largest application and therefore, will have the greatest impact.

My support for the ICBL is to provide the City of Vaughan the opportunity to review this application in alignment with the other 15 applications opened for this area. These applications will contribute approximately 3000 new residential units to our area. These 3000 new units will result in 4500 additional vehicles in the area. The major roads in this area are Kipling Ave, Woodbridge Ave, Clarence Ave, Islington Ave and Meeting House. These roads can be characterized as two-lane roadways and, in some areas, hilly, winding and narrow. The Woodbridge core area was not designed to sustain the increase volume that these developments will bring. The developer's proposal to manage the increased traffic is ridiculous. While I am not a traffic engineer I can only assume that the proposal to add left and right turning lanes on a two-lane roadway such as Clarence or the replacement of stop signs with traffic lights, will not effectively mitigate the traffic congestion that the residents will be facing day in day out 7 days a week. The existing natural environment does not support this increase in density.



15 Current Development Applications

8451/8457 Islington Ave – 36 Townhouse – 36 units
8307/8311 Islington Ave & Hayhoe – 37 Stached Towns - 72 units
4902/4908 Hwy 7 - & Storey Condo – 119 units
7553 Hwy 7/150 Bruce Street – 6 Condo Buildings – 490 units
158/166 Wallace Street – 3 Stacked Towns – 33 units
85 Mackenzie Street – 6 Townhouse – 6 units
5217/5225 Hwy & 26/32 Hawmen – 16 Storey Condo – 178 units
4/24 Lansdowne – 12 Storey Condo – 93 units
27 Lansdowne – 10 Storey Condo – 163 units
275 Woodbrige Avenue – 6 Storey Affordable Housing – 160 units
177, 185, 197 Woodbridge Ave – 6 storey – 85 units
248-252 Woodbridge Ave – 8 Storey Condo – 102 units
8010 Kipling Avenue – 3 Storey Rental - 45 units
31/55 Mounsey Street – 9 Storeys - 192 units
Clubhouse Developments North -1099 units in North area
ClubHouse Developments South -116 units in South area

15 current applications at different stages of development

3000 new units

4500* additional cars on the roads

*Apply StatsCanada vehicle:household ratio of 1.5

2

Our traffic and consequently safety concerns can be best summarized as the following:
1. Given the number of units up from the original 660 low rise units to 1,215 homes, townhomes and condos), the present infrastructure (Clarence, Woodbridge Ave, Islington, Gamble) will not be able to support the increase traffic that this development will bring to the area.
2. Traffic is already a problem presently along these routes and there is no plan to expand any of them to accommodate increase volume of traffic.
3. Commute and travel times for residents in the area will increase causing more frustration which will lead to more traffic accidents and safety concerns for pedestrians, which include primarily children and elderly along these routes.
4. Even major roadways, including Rutherford and Hwy 7, are already at gridlock at rush hour; increased volume will exacerbate the gridlock situation
5.The increase volume of automobiles will does not draw families and elderly back into the Village as safety, congestion and noise are elements of 'city-scape' not a 'village-scape'

And finally, the loss of this green space will further drive families and elderly away from Village and erode the aesthetics of the area, as well as a natural heritage of the area. Moreover, this loss will have a social impact of the residents of the area.

By ignoring our request for an Interim Control By-law the City is complicit in promoting the dangers to the community and the loss of heritage that this development will bring.

I ask the City to consider an Interim Control By-law so that it can properly evaluate this application and its impact on the community in its entirety.

Sincerely

Maria Verna
Resident, Taxpayer and Member of the Village of Woodbridge Ratepayers Association

Regarding Belmont Properties who wishes to rezone the subject land from C3(H) local commercial zone to RT1 residential townhouse zone. (Amendment file Z.20.003).

I wish to dispute this change, as we were advised by Primont homes that this land was to be a green space! We were never advised of a commercial zone or otherwise. Again, we were told this land was to be a communal green space for the residents of this area. I am appalled to learn otherwise. However, a commercial zone is still better than towering the land with more townhomes. This change is not acceptable.

Please advise asap with an update on this Meeting please.

Office of the City Clerk
City Council
Committee Of The Whole

RE: Zoning By-Law Amendment File Z.20.001 for 9630 Islington Avenue, Hearing July 7, 2020

I write to you with great concern about the proposed development at this site, which will have a huge negative impact not only on adjacent residents, but on a much larger number of people who live, work, play and transit through the area.

The most troublesome aspects are:

- the building height, and
- the number of units.

Here is an extract from page 29 of the applicant's Planning Justification Report (File 217149):

Zoning By-Law 1-88

RM2 Zone + Exception 9(988)-Schedule E-1184

By-Law 1-88 (RM2)			
	By-Law Requirement RM2 Zone + Exception 9(988	Proposed	Complies (Yes) or (No)
Lot Frontage (min)	30m	39.1m	Yes
Lot Area (min)	230m^2/unit	3925.45m^2	
Front Yard (min)	4.5m (Note 2)	3.28m	No
Rear Yard (min)	4.5m	14.38m	Yes
Interior Side Yard (min)	1.5m	13.3m	Yes
Exterior Side Yard (min)	4.5m (Note 2)	2.296m	No
Lot Coverage (max)	50%	35.3%	Yes
Maximum Building Height	12m	17.4m	No
Vehicle Parking IBI Standards	104 Spaces	104 Spaces	Yes
(3.13) Landscaped Area (lot line which abuts a street line)	Islington Ave 6m Napa Valley Ave 6m	Islington Ave 5.28m Napa Valley Ave 2.2m	No
(3.14) Permitted Yard Encroachments	1.8	1.8	Yes * (with new proposed setbacks)
(4.1.4.b) Landscape buffer around parking	2.4	0.63m	No
Number of Units (max)	28 units	89 units	No
(4.1.6) Minimum Amenity Area	2760m^2	2456.63m^2	No
	45 Degree	45 Degree	Yes

The current zoning allows for a *maximum* building height of 12m (39.4 feet), which is already considerably taller than the existing single-family dwellings on all sides of the site. The applicant is seeking to build to a height of 17.4m (57.1 feet), which is 17.7 feet more than currently permitted. That's a whopping *45% more than what is allowed*.

The current zoning allows for a *maximum* of only 28 units. Yet, the applicant is seeking to cram *89 units* onto this small piece of land. That's more than three times the number of units allowed.

Why is the City Planner even accepting such ridiculous applications that are so far beyond the realm of what is reasonable under the current zoning?

On page 21 of the Planning Justification Report, the applicant quotes applicable YROP Healthy Communities policies including:

(Section 5.2.8) To employ the highest standard of urban design, which:

a. provides pedestrian scale, safety, comfort, accessibility and connectivity;
b. complements the character of existing areas and fosters each community's unique sense of place;

On Page 22 the applicant then claims: "The proposed development involves a modern low-rise apartment building that respects the scale and design of surrounding structures." I dispute this claim. How does exceeding the allowable maximum height by ***45%*** respect the scale of surrounding structures?

The above picture shows homes on Chalone Crescent which back directly onto the proposed development site. They are typical of homes throughout Sonoma Heights: brick &/or stone veneered, with peaked roofs.

City of Vaughan Fire Station 7-9 (above) located across the street at 9601 Islington Avenue is a prime example of a newer structure “that respects the scale and design of surrounding structures.” And it’s not even residential in function.

Now consider the following extract from the colour elevations on page 15 of the applicant’s Planning Justification Report:

How can anyone claim that this concrete and glass megalith “respects the scale and design of surrounding structures”?

Sonoma Heights is a highly attractive neighbourhood because of its safe, wholesome, small-town atmosphere despite its proximity to the city. It is a strong community where neighbours know each other both by face and by name. Its quiet, nurturing streets (like Chalone Crescent, pictured on page 2 of this document) are where adults jog, seniors stroll, youth play ball and kids ride their bikes. Sonoma Heights spells "quality of life". It truly is a village environment.

The proposed development seeks to impose a drastic change to the nature of the neighbourhood by forcing in an apartment block with ***67%*** of its 89 units being"shoe-box" sized (557 sq.ft.) units. It is common knowledge that these types of units are not occupied by resident homeowners with their families. Rather, they are held by absentee landlords who have no roots or interest in the community. Units of this type get rented out to single occupants, most of them being short-term rentals (e.g., AirBnB). One only has to follow the news in recent years to see proof of the kind of activity that this environment attracts, to which the police can attest:

- loud, wild parties,
- alcohol and drug abuse, broken bottles and needles,
- sex trafficking,
- street gangs and organized crime,
- shootings, stabbings, and similar violent crime.

I ask you to look again at the photograph of Chalone Crescent (on page 2 of this document), and ask yourself if it seems like a fitting environment for the proposed development.

The developer will make their profits and laugh all the way to the bank, while the families of Sonoma Heights will be left to suffer the aftermath for decades to come.

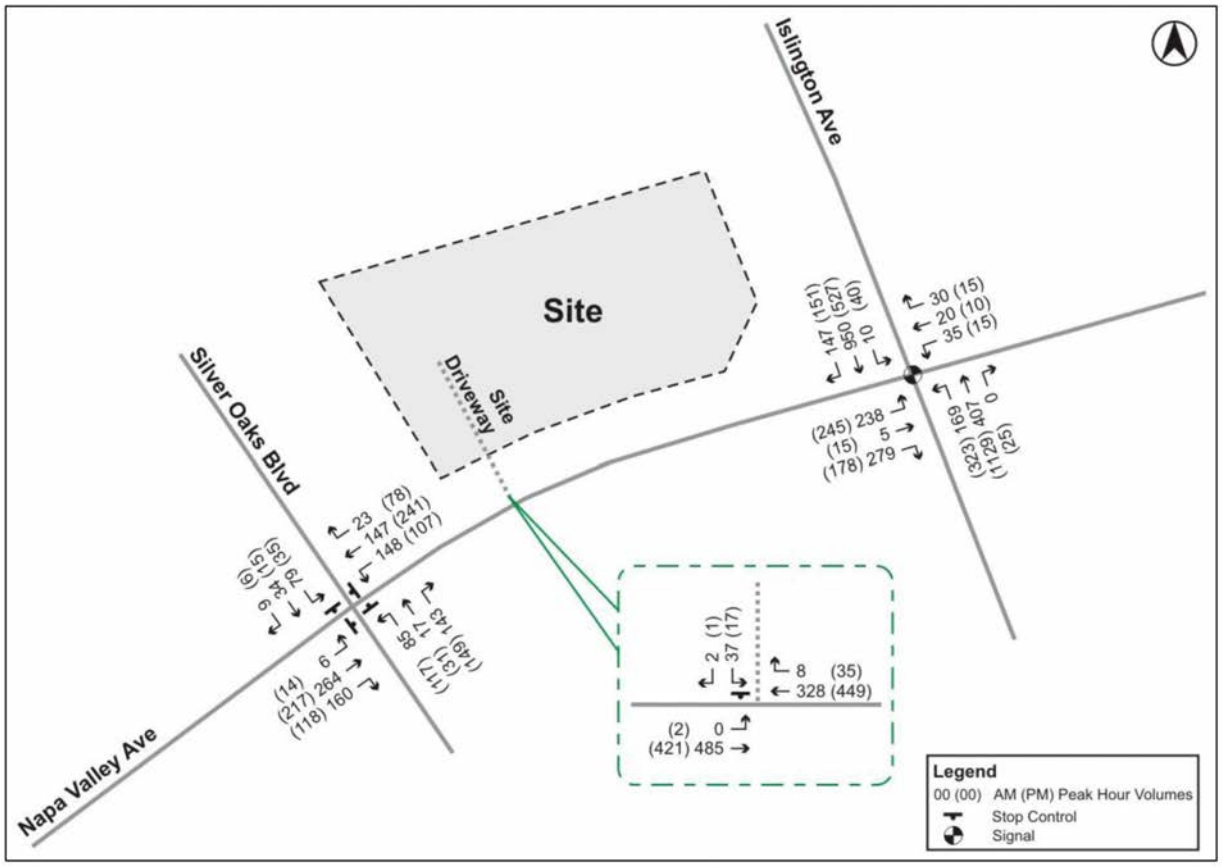
Traffic is a major concern for the City of Vaughan, and Sonoma Heights is no exception. The applicant's Transportation Study And Parking Study document gives specific numerical data in regard to vehicular traffic. What it does *not* give is a perspective on those numbers and what it means to the people who transit through this area.

I can provide some perspective as an area resident for the last 17 years, who drives past the proposed site every day. With the existing structures and density, Islington Avenue just does not have enough capacity, and is gridlocked during the morning rush. It takes as much as 12 minutes just to get from Napa Valley Avenue to Rutherford Road, a distance of only about 1.3 km. In my 17 years here, it has only gotten worse, not better. With the addition of 106 vehicles due to this development, the situation will be untenable.

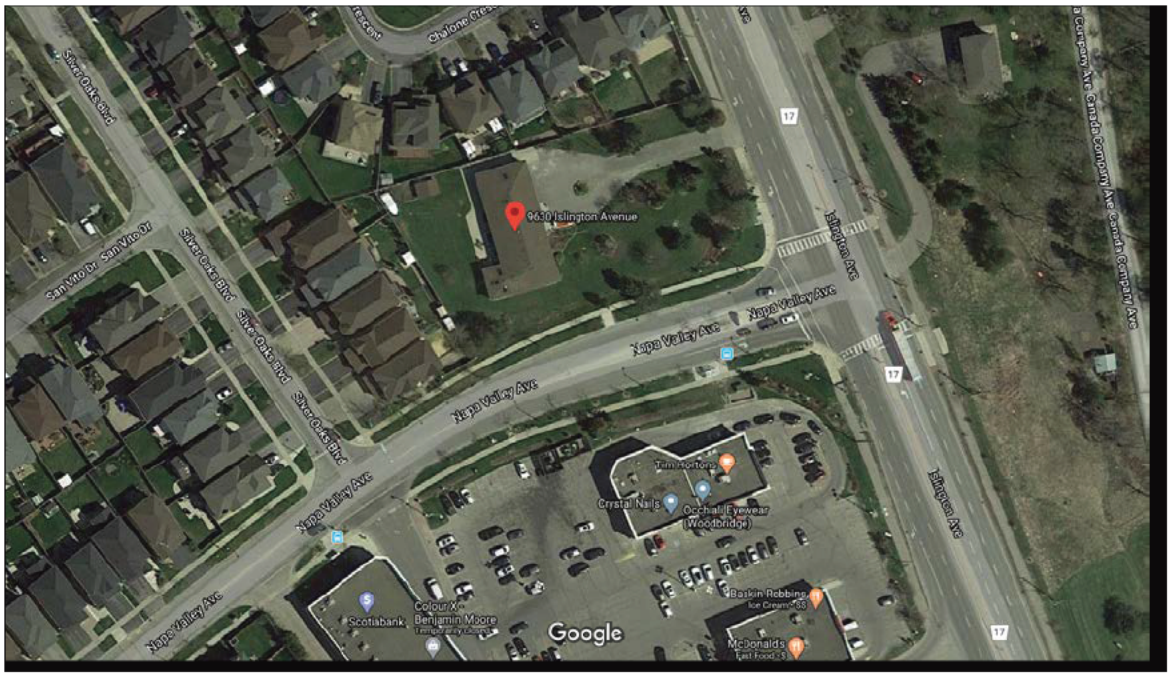
Page 27 of the applicant's Transportation Study And Parking Study document states that "Under all analysis scenarios, the study intersections are operating with acceptable delays and sufficient capacity." I am confident that the people who deemed these delays to be "acceptable" certainly do not live in the area, and are not impacted by them in the least.

The applicant's Transportation Study And Parking Study document shows the following diagram on page 17:

Figure 11 2026 Future Total Traffic Volumes



However, this can be misleading as it does not provide a scale for distance reference, and it shows the proposed driveway traffic markings as a call-out, rather than in their rightful place on Napa Valley Avenue, which is a smaller neighbourhood roadway with only one lane in each direction, as shown in the real-world photograph of the south side of the proposed site (below).



I have taken the traffic markings from the applicant's diagram and overlaid it on the satellite view. (The outline of the proposed site and its driveway is as indicated by the applicant, relative to the road markings on their own diagram. The relative positions have not been changed.

I have also placed the proposed driveway traffic markings in their rightful position (below).

Consider that this is adjacent to the always busy Islington Village shopping plaza, and the level of congestion being proposed now becomes much more evident. Napa Valley Avenue was never designed for this kind of traffic. This much traffic activity within the space of only 140 m. is a recipe for disaster, and will lead to increased risk for motorists, cyclists and pedestrians alike. I urge the City to consult with a traffic specialist from York Regional Police, and conduct not just a traffic *volume* study, but rather a traffic *safety* study.

Inefficient movement of traffic not only diminishes quality of life, but is hazardous to the environment and it risks the safety of the community.

The applicant has commissioned several studies and documents, hired architects, engineers, and several other professional services, all presumably at considerable expense.

- Is this public hearing process simply a formality en route to a guaranteed granting of the exception?
- Why else would they incur such high costs up front, only to apply for such outlandish exceptions, if they didn't expect them to be granted regardless?
- Why is the City Planner even accepting such ridiculous applications that are so far beyond the realm of what is reasonable?
- What is the point of having any zoning by-laws at all if developers presume that they can violate them to this extent? Why not just do away with them completely, and let developers do whatever they please?

- Why the charade of an application process and a public hearing at taxpayers' expense? Why even have a City Planning department when they serve only developers, and not taxpayers? (Perhaps this will spark a movement to defund the City Planner.)

I am not opposed to a land-owner's right to develop their property. However, the development needs to respect the rights of the existing community and be inclusive be design. A good example is the townhouse development currently under construction at 9560 Islington Avenue. If the applicant proposed a similar townhouse development at this site, I would have no objections.

I hope that Council will stand for the rule of law, for the environment and for community rights, and reject this application outright. I hope the applicant, in turn, will develop a more considerate plan for the site.

To the attention of the Office of the City Clerk:

This is confirm that I am OPPOSED to the proposal that would subject Wycliffe and Kiloran Avenue to additional traffic from the proposed new development. There are already long delays during rush hour along Kiloran Avenue, exiting onto Islington Avenue. More traffic will only lead to greater congestion and our streets less safe.

Thank you!

C16
COMMUNICATION
Council – July 15, 2020
SP CW Report No. 33, Item 1

June 22, 2020 - Mailed to Clerk, City of Vaughan, for distribution to the Mayor and all Members of Council

Dear Mayor and Members of Council:

We would like to formally express our concern over the potential that the Ontario government may be approached to issue a Minister's Zoning Order (MZO) with council's approval over the Board of Trade Golf Course Development (20 Lloyd Street, Vaughan).

We, local residents part of the Keep Vaughan Green community group, ask that should such a MZO come forth with regards to the BOT golf course that council support a democratic process and oppose such a MZO. We as community members have invested many hours of our time and money to bring forth our concerns regarding the impacts of this proposed development on our community.

A draft motion has been submitted to our Ward 2 Councillor Tony Carella resolving that Vaughan Council:

1. Will reject any request of support by the applicant(s) for a Minister's Zoning Order or proposed Minister's Zoning Order that may be forthcoming on the former Board of Trade Golf Course.

2. Will support the normal planning process legislated by the Ontario Planning Act and conferred upon Municipal Governments under the Ontario Planning Act.

3. Will not support any planning directive that does not include all stakeholders, specifically the citizens of the City of Vaughan.

4. Will support our residents to retain their right to be part of the planning process and to play a key role in assessing how the proposed Toronto Board of Trade development application will impact their community

Issuing such a MZO would be unjust to the taxpayers of this community.

We further recommend, in addition to the above, that Vaughan Council support the implementation of an Interim Control Bylaw to facilitate the completion of pertinent independent studies so that an informed decision can be made with respect to the proposed OPA, plan of subdivision and zoning amendment for this site.

We have recently been informed that the Minister of Municipal Affairs and Housing, Steve Clark, has advised of the intention to end the temporary suspension of the Planning Act timelines as of June 22, 2020 and NOT when the province lifts the state of Emergency as originally intended. We ask that the city consider continuing this temporary hold on timelines given the extent to which York Region has been impacted by Covid19, and given that our region has not been able to 'open up' as early as other jurisdictions. We further request that the special COW that is recently scheduled for July 8, 2020 be rescheduled to a later date so as to allow maximal participation of residents (as has been granted to other rate payer groups for other development applications).

Sincerely,

Connie Paniccia

Good Evening Mayor Bevilacqua, Regional Councillors and Councillors

Sharing my communication for this evening's Special Committee of the Whole Meeting as I missed the submission deadline of yesterday. With all due respect, I sincerely request that you take the time to appropriately assess the impact this application is going to have on the Community that we live in. Traffic and congestion in normal times in horrendous, this is supposed to be a walkable tranquil community, not a parking lot. This enormous development does nothing to enhance the community other than bring increased traffic, congestion, pollution and erode the magnificent green space that exists there today.

Respectfully, Maria

Good Afternoon Clerks Office and Councillor Carella

Please find attached our response to the Staff Report regarding the ICBL. Please ensure this document is included in the package and circulated to Member of Council

Thank you in advance, Maria

Good Afternoon Mayor Bevilacqua, Regional Councillors, Ward Councillors and City Staff

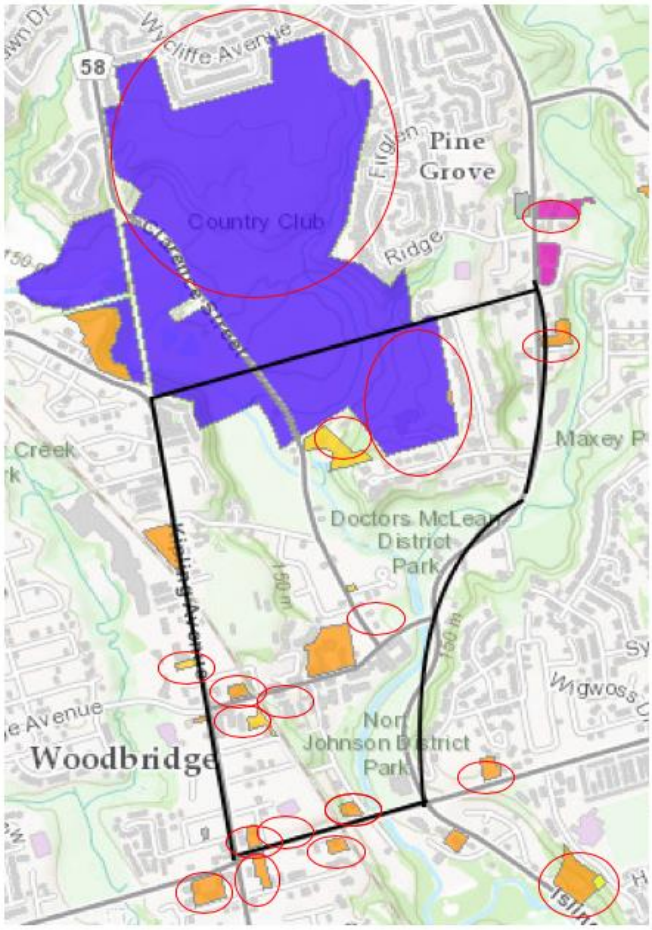
I am a taxpayer, a resident of Ward 1 and I am a member of the Village of Woodbridge Ratepayers Association. I am extremely disappointed in the City of Vaughan Staff's decision to not proceed with proposed Interim Control By-Law (ICBL) on the Clubhouse Application (known as the Board of Trade). The ICBL would have provided the City Vaughan and associates the time to review, study and challenge the said proposal and take the initiative to come into the community and hear the reactions of the residents regarding this proposal. This application will have a profound and direct impact on my community and association's area.

Looking back at several of the development applications that have been approved in the Village of Woodbridge, it is obvious to the residents that Village of Woodbridge Ratepayers Association represents, that decisions have been made with haste and no regard to the long-term impact. The approval of the ICBL would provide the City of Vaughan the opportunity to really analyze the full social, cultural, logistical and environmental impacts that this application will have as well as considering the feedback from those who will be directly impacted by this development.

Proceeding with the current Clubhouse application in its current state is yet another example to the community of another development application that does nothing to protect or improve the Village of Woodbridge. It is actually embarrassing when I refer to the area as the Village of Woodbridge because the 'village' is disappearing because of applications such as this one. The onslaught of development applications in our area has eroded the 'village' in the Village of Woodbridge. These developments discourage the 'pedestrian friendly' environment that our Councillor, Tony Carella, and City planners keep insisting they are trying to bring back to the Village of Woodbridge.

An Interim Control By-law is prudent. It allows the City of Vaughan the time that it needs to properly assess this application. This application is one of 15 applications that are currently open at one stage or another with the City of Vaughan Planning Department. Each one of these 15 applications has a direct impact on the Woodbridge Core area. This particular application is the largest application and therefore, will have the greatest impact.

My support for the ICBL is to provide the City of Vaughan the opportunity to review this application in alignment with the other 15 applications opened for this area. These applications will contribute approximately 3000 new residential units to our area. These 3000 new units will result in 4500 additional vehicles in the area. The major roads in this area are Kipling Ave, Woodbridge Ave, Clarence Ave, Islington Ave and Meeting House. These roads can be characterized as two-lane roadways and, in some areas, hilly, winding and narrow. The Woodbridge core area was not designed to sustain the increase volume that these developments will bring. The developer's proposal to manage the increased traffic is ridiculous. While I am not a traffic engineer I can only assume that the proposal to add left and right turning lanes on a two-lane roadway such as Clarence or the replacement of stop signs with traffic lights, will not effectively mitigate the traffic congestion that the residents will be facing day in day out 7 days a week. The existing natural environment does not support this increase in density.



15 Current Development Applications

8451/8457 Islington Ave – 36 Townhouse – 36 units
8307/8311 Islington Ave & Hayhoe – 37 Stached Towns - 72 units
4902/4908 Hwy 7 - & Storey Condo – 119 units
7553 Hwy 7/150 Bruce Street – 6 Condo Buildings – 490 units
158/166 Wallace Street – 3 Stacked Towns – 33 units
85 Mackenzie Street – 6 Townhouse – 6 units
5217/5225 Hwy & 26/32 Hawmen – 16 Storey Condo – 178 units
4/24 Lansdowne – 12 Storey Condo – 93 units
27 Lansdowne – 10 Storey Condo – 163 units
275 Woodbrige Avenue – 6 Storey Affordable Housing – 160 units
177, 185, 197 Woodbridge Ave – 6 storey – 85 units
248-252 Woodbridge Ave – 8 Storey Condo – 102 units
8010 Kipling Avenue – 3 Storey Rental - 45 units
31/55 Mounsey Street – 9 Storeys - 192 units
Clubhouse Developments North -1099 units in North area
ClubHouse Developments South -116 units in South area

15 current applications at different stages of development

3000 new units

4500* additional cars on the roads

*Apply StatsCanada vehicle:household ratio of 1.5

2

Our traffic and consequently safety concerns can be best summarized as the following:
1. Given the number of units up from the original 660 low rise units to 1,215 homes, townhomes and condos), the present infrastructure (Clarence, Woodbridge Ave, Islington, Gamble) will not be able to support the increase traffic that this development will bring to the area.
2. Traffic is already a problem presently along these routes and there is no plan to expand any of them to accommodate increase volume of traffic.
3. Commute and travel times for residents in the area will increase causing more frustration which will lead to more traffic accidents and safety concerns for pedestrians, which include primarily children and elderly along these routes.
4. Even major roadways, including Rutherford and Hwy 7, are already at gridlock at rush hour; increased volume will exacerbate the gridlock situation
5.The increase volume of automobiles will does not draw families and elderly back into the Village as safety, congestion and noise are elements of 'city-scape' not a 'village-scape'

And finally, the loss of this green space will further drive families and elderly away from Village and erode the aesthetics of the area, as well as a natural heritage of the area. Moreover, this loss will have a social impact of the residents of the area.

By ignoring our request for an Interim Control By-law the City is complicit in promoting the dangers to the community and the loss of heritage that this development will bring.

I ask the City to consider an Interim Control By-law so that it can properly evaluate this application and its impact on the community in its entirety.

Sincerely

Maria Verna
Resident, Taxpayer and Member of the Village of Woodbridge Ratepayers Association

Hello

My name is Anna Bellicoso I reside at [redacted]. Woodbridge Ontario

I would like to advise that I oppose the Board of Trade Development.

This massive infill development is not in the best interest of an already established community, within Vaughan, how devastating it would be to remove this gem of green space and the negative impact it would have to the environment, its wildlife, the wellness of the community, of the neighbourhood, for years to come. This…all in the name of business, greed, corruption…to hell with the residents who pay hard earned tax money, to hell with the well-being of communities and neighbourhoods of Vaughan. Today, it is the BOTGC, tomorrow it could be another area of the city… and so it goes

Thank you.

Dear All;

This is to confirm that I am OPPOSED to the proposal that would be subject Wycliffe and Kiloran Avenue to additional traffic from the proposed new development. There are already long delays during rush hour along Kiloran Avenue, exiting onto Islington Avenue and surrounding main roads. More traffic will only lead to greater congestion and make our streets less safe.

When me and my late husband moved our 3 small kids and our family to this area just over 10 years ago, we did so as it provided a quieter, safer area, which was important for us.

Thank you,

Joanne Romano

July 7, 2020

Dear Mayor and Council,

Re: Board of Trade Golf Course / OP 19.014, Z.19.038 and 19T-19V00Z

Please add the following poem to our deputations sent earlier today. Thank you.

Woodbridge

A lovely little village

Nestled in among the hills;

Where flows the graceful Humber
Which twists and turns and thrills.

To pioneers who founded it
We lift our hats off high;
They trusted in its future
And hoped 'twould never die.

They left to us the heritage
Of every pioneer,
To guard, develop, love it
Throughout each passing year.

Some of us were born here,
Others came from distant lands;
But we can be real brothers,
So let us all join hands.

May we pass on a heritage
To those who follow after,
Of perfect love and brotherhood,
Not shame but shouts of laughter.

To Woodbridge and community,
To each and every one,
May this place be much better
For the good that we have done.

May sin and want and envy,

Ne'er dwell within this place.

But peace and joy and unity,

Endear it to our race.

Composed by Mrs. Robert Goodwill (Edna Whitworth) , Woodbridge News, circa 30 years ago.

> By this letter we are **formally submitting our objection** to the above highlighted complete application, and request that you provide a copy of this letter to the Mayor

and all Vaughan Councillors as well as to the city planners.

We have been living adjacent to the subject lands (Board of Trade Golf Course) since 1975 – **over 45 years** – and have seen the Village of Woodbridge grow from a rural village surrounded by farmland, to a town, to what is now the City of Vaughan. There was no development from north of Gamble Street (Pine Grove) to north of Major McKenzie Drive (Kleinburg). We could buy tomatoes and vegetables from the roadside and smell the fresh air. It was a real community with a local hardware store, the Wallace grocery store, local post office, etc. Everyone knew each other. Over the years we have seen the community grow and change.

We continue to live in Woodbridge (Waymar Heights Blvd) because the area is zoned RIV (Old Village Residential Zone), with large lots, mature trees, wildlife (fox, rabbits, deer, birds), minimal traffic, green spaces, historical sites, among other things.

We strongly oppose the infill development proposal for some of the following reasons:

- The **Community does not support this new proposal of 1215 dwelling units** (it did not support the previous proposal of about 600 dwelling units) and is totally and passionately against any infill development on the Board of Trade lands, which is known as a 'lung' to the Community.

- **Environmental Concerns:** Creating an environment that is detrimental to the health of the existing community members.

    - The proposed infill jeopardizes the natural balance of nature in the area by eliminating the rich natural landscape that is home to a multitude of animals, birds and plants. The inherent biodiversity of the area is a gift that very few communities enjoy.
    - Green Spaces Reduce Stress, Encourage Exercise. Green spaces in primarily urban areas improve health by lowering stress and encouraging exercise. The health benefits of having access to "green space"—from dense forests, fields, and lush parks to simple garden spaces, tree-lined streets, or a humble backyard—are well documented in scientific literature.
    - Green Space Strengthens the Immune System, Boosts peoples' mood, helps people live longer. "Research conducted in the United States, United Kingdom, and China have found that **people who live in the greenest areas have a reduced risk of mortality from all causes**, as well as a reduced risk of mortality due to kidney disease, respiratory disease, cancer, and stroke." (excerpt from an article from Chris Kresser https://chriskresser.com/the-top-health-benefits-of-green-space/)

- **Reducing the natural heritage** of the community.

- **Increase Traffic Congestion**: The proposed infill development will add a minimum of an additional 3000 vehicles, this will further tax the already congested roadways and turn our neighbourhoods into a nightmare. This does not include the numerous already approved developments in Woodbridge and surrounding neighbourhoods.

- **The Infrastructure** is not in place to support this infill development. The area is well established and mature, with road expansion virtually impossible, without destroying already established neighbourhoods.

- **Interim Control By-Law**: We believe that a detailed study supported by a **Cultural Heritage Impact Assessment**, an **Environmental Impact Study** and a comprehensive **Traffic Study** (taking into consideration applications already approved within the parameters of the affected community) and other studies are critical to properly assess the subject lands' proposed intent for development. The detailed studies are only possible with the implementation of an **Interim Control By-law**, this will facilitate the completion of a comprehensive report that will scientifically document conservation priorities and facilitate science based environment review as well as other necessary studies, in addition to which we request the City Council to provide the current landowners a **Notice of Intervention to Designate to preserve the potential Cultural character of the Board of Trade Golf-Course**.

- **Zoning By-Laws were put in place to preserve and protect the area**, and we need to continue to preserve and protect these By-Laws.

We **ask Council to fund all independent assessments** of the impact of this development proposal, including financial and well-being (health) costs to individuals and the community.

We are also asking for **more transparency and openness** on these issues, with no discussions or decisions behind closed doors.

We ask that this matter be a **priority** concern.

We thank you for your attention to this issue and appreciate your cooperation in helping to keep Vaughan green.

Sincerely yours,

The Lutzeier Family

Copy to Mayor and all Councillors and planners

Subject: [External] LETTER: 1) opposing development of the Board of Trade and the process used by this government for development; 2) A REQUEST for the implementation of an Interim Control Bylaw

To whom it may concern,

Please accept this letter as we are concerned about the development of the Board of Trade and the process used to implement the development. I am disappointed, appalled, that a government elected by the people will not hear the concerns from the very people who have elected them.

We hope that the Vaughan Council supports the implementation of an Interim Control Bylaw to facilitate the completion of pertinent independent studies so that an informed decision can be made with respect to the proposed OPA, plan of subdivision and zoning amendment for this site.

It is unjust!

I have lived in Vaughan for over 40 years. I grew up here and then eventually bought the home from my parents when I got married. I have lived through development and understand its need in order to build our economy, yet it has exasperated with the number of condo developments and the lack of infrastructure to support it.

We are extremely unhappy with regards to the potential development of the Board of Trade and its disastrous effects on our environment and effectiveness of our utilities but most importantly on the traffic congestion it will cause. Our neighbourhood has experienced already so much congestion and this potential development will most definitely create a negative impact our neighbourhood along with the surrounding areas.

We chose to live here for the green space and calm streets that surround us and our children. Development is forever changing the safety of our streets and therefore of our children to roam freely.

I would like my children, who are now teenagers, to grow up in a community where justice prevails and that true government processes are upheld. I want them to be proud of where they live and the government that is supposed to protect them. I want them to understand that their voices would be heard and not ignored. Please, I implore you, hear the voices of your citizens. VAUGHAN VOICES MATTER.

Thank you for reading this email and our letter.

Sincerely,
Elisa Moretto-Howard and Anthony Howard
[redacted]
Woodbridge, ON
[redacted]

June 30, 2020

Dear Mayor and Members of Council:

We, Anthony Howard and Elisa Moretto-Howard of 22 [redacted] Woodbridge, ON, would like to formally express our concern over the potential that the Ontario government may be approached to issue a Minister's Zoning Order (MZO) with council's approval over the Board of Trade Golf Course Development (20 Lloyd Street, Vaughan).

We, local residents part of the Keep Vaughan Green community group, ask that should such a MZO come forth with regards to the BOT golf course that council support a democratic process and oppose such a MZO. We as community members have invested many hours of our time and money to bring forth our concerns regarding the impacts of this proposed development on our community.

It is a grave disappointment to find a government elected by the people not actually listen to the people who have brought them forward to govern.

A draft motion has been submitted to our Ward 2 Councillor Tony Carella resolving that Vaughan Council:

1. Will reject any request of support by the applicant(s) for a Minister's Zoning Order or proposed Minister's Zoning Order that may be forthcoming on the former Board of Trade Golf Course.

2. Will support the normal planning process legislated by the Ontario Planning Act and conferred upon Municipal Governments under the Ontario Planning Act.

3. Will not support any planning directive that does not include all stakeholders, specifically the citizens of the City of Vaughan.

4. Will support our residents to retain their right to be part of the planning process and to play a key role in assessing how the proposed Toronto Board of Trade development application will impact their community

Issuing such a MZO would be unjust to the taxpayers of this community.

We further recommend, in addition to the above, that Vaughan Council support the implementation of an Interim Control Bylaw to facilitate the completion of pertinent independent studies so that an informed decision can be made with respect to the proposed OPA, plan of subdivision and zoning amendment for this site.

We have recently been informed that the Minister of Municipal Affairs and Housing, Steve Clark, has advised of the intention to end the temporary suspension of the Planning Act timelines as of June 22, 2020 and NOT when the province lifts the state of Emergency as originally intended. We ask that the city consider continuing this temporary hold on timelines given the extent to which York Region has been impacted by Covid19, and given that our region has not been able to 'open up' as early as other jurisdictions. We further request that the special COW that is recently scheduled for July 8, 2020 be rescheduled to a later date so as to allow maximal participation of residents (as has been granted to other rate payer groups for other development applications).

Sincerely,

Elisa Moretto-Howard and Anthony Howard. [redacted] Woodbridge, ON. [redacted]

To the attention of the Office of the City Clerk:

This is to confirm that I am OPPOSED to the proposal that would subject Wycliffe and Kiloran Avenue to additional traffic from the proposed new development. There are already long delays during rush hour along Kiloran Avenue, exiting onto Islington Avenue. More Traffic will only lead to greater congestion and make our streets less safe. These streets are also used for school bus stops for student pick ups/drop offs and additional traffic will result in longer delays and place our children in greater jeopardy.

Please keep our children SAFE and our traffic flow moving!

Thank you.

To the attention of the Office of the City Clerk

Re. Clubhouse Developments

This is to confirm that I am OPPOSED to the proposal that would subject Wycliffe Ave and Kiloran Avenue to additional traffic from the proposed new development. There are already long delays during rush hour along Kiloran Avenue, exiting onto Islington Avenue. More traffic will only lead to greater congestion and make our streets less safe. In addition, Wycliffe Avenue already has a large volume of cars speeding through and ignoring stops signs, so adding another inlet/outlet for more vehicles will only make an already bad situation even more dangerous.

I find it utterly irresponsible that the city would even consider allowing a home within an existing residential neighborhood to be demolished just to allow access to a new development. The lands being redeveloped already have existing access, and if someone wants to redevelop those lands, they should use the access that already exists, and not bulldoze over existing residents to get their way. If the city feels that the current access is not sufficient for the amount of new homes being proposed, then the amount of new homes should be decreased so it meets the volume that the current access roads can handle.

I also want to advise that in no way do I agree to any other additional or alternative access that may be proposed in the future. As I noted above, any and all additional traffic would only lead to greater congestion, make our roads less safe and compromise our existing residential community.

Sincerely,

Alfredo and Maria Chimenti

This is to confirm that I am opposed to the proposal that would subject Wycliffe Ave and Kiloran Ave to additional traffic from the proposed new development. I have written and called in several times on the traffic problems already in place on Wycliffe Ave. Way too much vehicle traffic and way too many vehicles speeding excessively over the posted limit making it dangers and unsafe for the increased number of children in the area. Why wait for a tragic event to occur before a positive change happens. I've been trying to help this traffic flow for the last number of years without any success. Now there is a proposal to open up Wycliffe to allow thousands of more vehicles in the area. Should the city Planning Team not be directing traffic flow to main roads rather than secondary roads? The City of Toronto has implemented this strategy several years back with great success.

Thank you for taking the time to listen to my concerns. I am a long time resident of the Wycliffe area.

I can be reached at [redacted] my personal cell phone number.

Dear Mr. Clement Messere:

Our names are AnnaMarie & Frank Di Meo. We live at [redacted], Woodbridge On [redacted].
We can be contacted at [redacted].

We have lived in this beautiful community for the last 23 years, raised our family here, and where our children still find their roots here. Their
childhood friends still visit this area where their parents still live. It is one of the small pockets of beauty that one can still appreciate. The numerous walks, bicycle
rides and road drives especially along Clarence in the Board of Trade section, happens to be the most calm, breathtaking areas. To our family, the drive is like a road to heaven.
After all these years, it is still safe and very enjoyable. To bring this new development would certainly cause the eradication of this beauty along with traffic issues of vehicles and people and most importantly a destruction of a beauty of nature that we residents have been able to feel peace in this vast chaos of the world. We oppose to put our small
section of heaven in the hands of a few business men whose main goal is profit and gain. Would they want this to happen in their neighbourhoods? I guarantee that they would be fighting long and hard if
their homes were in jeopardy. Please we plead and beg that our home area be left to the beauty that it is today and we completely OPPOSE this development.

This is to the attention off the Office of the City Clerk:

This is to confirm that we are OPPOSED to the proposal that would subject Wycliffe and Kiloran Avenue to additional traffic from the proposed new
development. There are already long delays during rush hour along Kiloran Avenue, exiting onto Islington Avenue. More traffic will only lead to greater
congestion and make our streets less safe.

Thank you!

To Whom It May Concern:

This email, serves as a formal declaration opposing the proposal that subjects Wycliffe Avenue and Kiloran Avenue to additional traffic from the proposed new development. As it stands, there is an incredible amount of traffic and prolonged traffic delays during rush hour, on Wycliffe Avenue and Kiloran Avenue, exiting onto Islington Avenue. An increase in traffic, in this specific area, would severely compromise and cripple the safety of our streets and will result in road rage.

Re: OP.19.014, Z.19.038, and 19-V007

Dear York Region Council, Vaughan council, and TRCA,

At last evening's special COW regarding the above noted application, I reminded Vaughan council in my deputation of Chapter 2 and Map 2 (see attached) of the York Region Official Plan. This section clearly documents that the entire Board of Trade Golf Course lies within the Greenland system. ALL OF IT! Chapter 2 of the official policy further states;

"It is the policy of Council:

- 2.1.1 To protect and enhance the Regional Greenland's System and its functions shown on Map 2 and to control new development and site alteration within the vicinity of the System in accordance with the policies of this Plan.
- 2.1.9 That development and site alteration be prohibited within the Regional Greenland's System and that development and site alteration applications within 120 metres of the Regional Greenland's System shall be accompanied by an environmental impact study."

These policies emphasize the protection of the Greenland system and condemn development within it. THE BOARD OF TRADE GOLF COURSE IS A PART OF THE GREENLAND SYSTEM. **This application clearly and blatantly contradicts the very essence of Chapter 2.**

I demand a timely personal response from York Region and Vaughan Council members, as well as the TRCA as to why and how this application was given the go ahead (in pre-consultation discussions and WITHOUT PUBLIC CONSULTATION) given that it contradicts York Region Policy.

It is beyond me how elected officials are capable of making such inconsistent political decisions with respect to Regional policy. It is also certainly becoming reality that the inevitable outcome to this will one day read;

"VAUGHAN CITY COUNCIL APPROVES DEVELOPMENT ON PROTECTED GREENLAND".

What a tarnish this would be on our city and York Region.

--

Danny Costantini, MD, PhD, FRCPC

York Region Official Plan

Chapter 2 – A Sustainable Natural Environment

The policies of this section are designed to identify, protect, and enhance a linked Greenlands System as a permanent legacy for York Region.

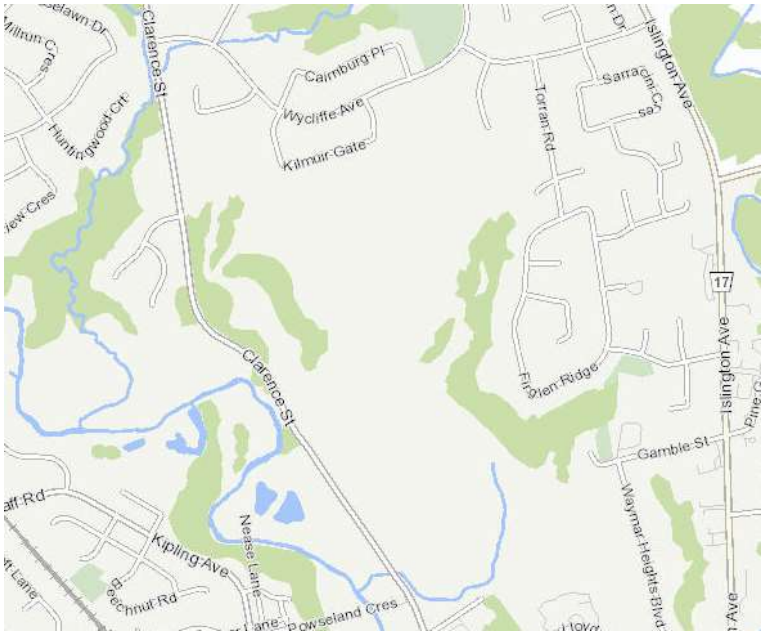
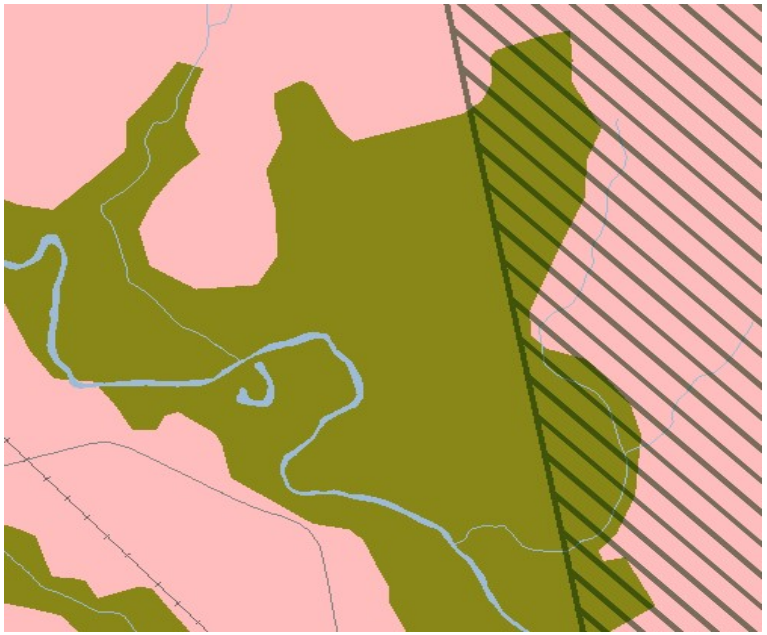
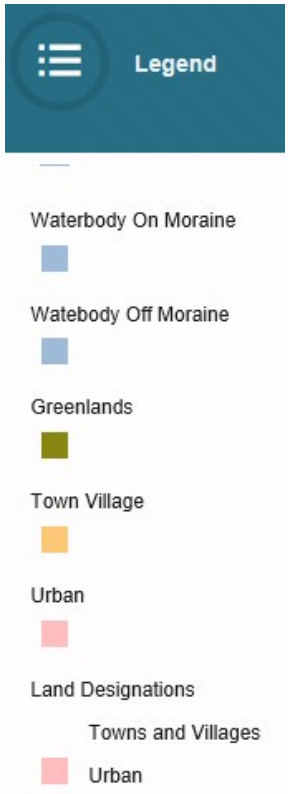
Existing

Controlled Access Highway

Under Construction







The primary function and vision of the Regional Greenlands System, and the policies of Section 2.1 of this Plan, is the protection of natural heritage features in a system of cores connected by corridors and linkages.

It is the policy of Council:

- 2.1.1 To protect and enhance the Regional Greenlands System and its functions shown on Map 2 and to control new development and site alteration within the vicinity of the System in accordance with the policies of this Plan.

- 2.1.9 That development and site alteration be prohibited within the Regional Greenlands System and that development and site alteration applications within 120 metres of the Regional Greenlands System shall be accompanied by an environmental impact study.

Why a Greenlands System?

Urbanization introduces new stresses on the native plants and animals, and many species which could breed and move freely through a natural or agricultural landscape cannot easily persist in an urban landscape. The ability for plants and animals to migrate, disperse and forage among multiple habitats is critical. A connected system of features and linkages provided by the Regional Greenlands System is essential to preserve the Region's biota in perpetuity.

Dear Vaughan City Council Members/Office of the City Clerk,

As concerned property owners we are writing to you to oppose the proposal by the owners of 9630 Islington Avenue to build a 5-storey building with 89 units.

Firstly, this proposal is contrary to the City of Vaughan Official Plan 2010. According to this plan 40% of Vaughan is protected as Natural Areas and Countryside and further more 36% of Vaughan is maintained as Low-rise Community Areas. This development would thus be against the Official plan to maintain Low-rise Community Areas and not in the public interest.

Secondly, this new development would alter the physical character of the neighbourhood. The 5 storey building would be a break in the pattern or continuity of the street; visually incongruous and detrimental to the streetscape of the neighbourhood. It should be noted for the record, all adjacent properties in the neighbourhood are low rise 3-storey buildings.
As one of the owner of the adjacent properties, we purchased our property due to the degree of spaciousness, sunlight and privacy when the neighbourhood was developed. We paid a higher purchase price and higher annual taxes for the enjoyment of these qualities and are entitled to protection as a result of this zoning amendment. Our property values would decrease over time as a result of this 5-storey building.

Thirdly this proposed development includes a rooftop amenity area which will include a sun deck, gym/workout space, eating area, outdoor kitchen, playground area, an athletic running path and a green roof area. This is a breach of the privacy and an intrusion on the residents of all the adjacent properties.

Fourthly, this development will impair the views and visual enjoyment of all the adjacent property residents .City council should strongly consider whether the proposed structure can be reduced in mass or height to minimize the impact on neighbouring homes.

Fifthly, this development proposes to increase the traffic in the neighborhood by approximately 104 cars daily on an already busy intersection. Also the proposal to have the driveway for the building and addition of a private condominium road facing Napa Valley Avenue will negatively alter the traffic flow on the intersection.

Sixth, the noise generated from the rooftop mechanical equipment and vehicles of residents in the development would interfere with the well being and enjoyment for all adjacent property owners.

Seventh, we fail to see a valid reason for an increase in density of residents in the neighbourhood. On the contrary this development will create hardships and will be a detriment to the adjacent property owners and overall to the neighbourhood in terms of quality of life, noise and property values.

Please also consider the subject lands are located in proximity to an area of significant Groundwater Recharge as well as the Toronto Regional Conservation Authority Regulation Limit. The adjacent conservation land should be protected as it forms part of the natural beauty and charm of the neighbourhood.

In conclusion, this zoning law variance is not minor due to the impact on neighbouring properties in the immediate and general area due to loss of sunlight, privacy, views, spacing and openness which will result from the mass, height and bulk of the proposed development.
City council should strongly consider whether the proposed structure can be reduced in mass and height to minimize the impact on neighbouring homes.

Please confirm receipt of this email and include it in the written submission for this zoning amendment as part of the public record.

Additionally, we wish to be notified of the decision of Council in respect to this application.

Sincerely,
Gaurav Mulji

Subject: [External] Proposed plans for Yonge and Steeles area

To Whom It May Concern

Please register my very strong objection to the proposed development plans at the Yonge & Steeles neighbourhood for the following reasons.

1. The proposed density is between double and triple that allowed in the Secondary Plan

2. The proposed height is more than double what is currently allowed in the Secondary Plan

3. The proposals do not enhance the existing neighbourhood

4. The facilities being proposed are only for the benefit of the residents who live in the proposed developments

5. There has been little to no consultation with the community

6. The existing facilities/infrastructure cannot support this large an increase in population

Please be aware that this is a very major issue for most of the community neighbours and must be taken very seriously. These kinds of changes are outlandish, and we must be heard.

Please keep me informed of any actions Council may take on these proposals.

Project No. 1986

July 10, 2020

Todd Coles, City Clerk
Office of the City Clerk
City of Vaughan
2141 Major Mackenzie Drive
Vaughan, Ontario L6A 1T1

Submitted electronically to clerks@vaughan.ca

Dear Mr. Coles

Re: 100 Steeles Avenue West, Public Hearing Presentation, Official Plan Amendment OP.20.001, Zoning By-law Amendment Z.20.004, and 19T-20V001

We are the planning consultants for The Salz Corporation, the owners of lands located at 100 Steeles Avenue West (the "Subject Lands") within the Yonge Steeles Corridor Secondary Plan.

The proposal presents an opportunity to redevelop an under-utilized property and create a mixed-use high-density development in walking distance to the planned Yonge-Steeles subway station.

Proposal

The proposal includes 4 development blocks and a future street network with a north-south public street connecting Steeles Avenue West to the future Royal Palm Road extension. The first block is a commercial block, the second block is a mixed use block featuring two towers of 54 and 49 storeys joined by a shared midrise podium, and the third and fourth blocks are both residential blocks with 18 storey buildings located in the northern half of the subject site. Grade related residential units and new retail and commercial space will provide for an animated and vibrant streetscape. The proposal requires rezoning and subdivision approval and an Official Plan Amendment.

In summary, the proposal provides for the following:

- New north-south public road – Yorkville North Street – connection to Royal Palm Drive Extension
- Linear green space along northern end of site

- Four Blocks with the taller buildings (49 and 54 storeys) located closer to Steeles and the lower buildings at the north towerds the new Royal Palm extension (18 storeys).
- Also a 4-storey commercial building as well as retail at grade along corner of Steeles and the new north-south street.
- There are currently 1,765 dwelling units proposed
- 137,941 sqm. Total Gross Floor Area
    - 13,921 sqm. Non-residential GFA
    - 123,923 sqn. Residential GFA
- Net Density (FSI) of 8.4 times the area of the lot (Gross 6.68 FSI)

Yonge Steeles Corridor Secondary Plan

The subject site is located within the Yonge Steeles Corridor Secondary Plan area which is currently under appeal with the Local Planning Appeal Tribunal.

Mediation is ongoing as part of the appeal process with several landowners, municipalities, and agencies involved.

At this time, the Yonge Steeles Corridor Secondary Plan is not in-effect and we look forward to continuing to work with City staff and other stakeholders to process this proposal in conjunction with the ongoing medication and appeal process for the Yonge Steeles Corridor Secondary Plan.

Conclusion

The applicant met with the representatives of the Spring Farm Ratepayers Association in December 2019 and look forward to listening to the comments at the public meeting in order to consider all comments in the ongoing planning process.

If you have any questions or would like to discuss any of this further, please do not hesitate to contact the undersigned or Daniel Rende of our office at 416-947-9744.

Yours truly,
Bousfields Inc.

Subject: [External] Council Hearing July 13

Dear Mr. Coles,

Please register my objection to the proposed development plans at the Yonge & Steeles neighbourhood because:

1. The proposed density is between double and triple that allowed in the Secondary Plan
2. The proposed height is more than double what is currently allowed in the Secondary Plan
3. There has been little to no consultation with the community
4. The stresses that this great an increase in population in this small an area will place on existing infrastructure is unacceptable.

Please keep me informed of any actions Council may take on these proposals.

Thank you for your attention to this matter.

Subject: [External] Re concerned citizen objection to proposed new development plan.

To Mr. Todd Coles, Mr. Mayor Maurizio Bevilacqua and Mr Alan Shefman

Dear Sirs,

I live in the Thornhill area and am an extremely concerned citizen.

Please register my objection to the proposed development plans at the Yonge & Steeles neighbourhood for a number of important reasons.

1. The proposed density is between double and triple that allowed in the Secondary Plan

2. The proposed height is more than double what is currently allowed in the Secondary Plan

3. There has been no consultation with the community

4. The proposals do not enhance the existing neighbourhood. In fact, the existing infrastructure cannot support this large an increase in population. I am concerned about the amount of congestion this will cause and the significant impact on the local schools and community facilities, including parks, waterparks, libraries, community centres.

This current proposal is a recipe for disaster for the neighbourhood. Please keep me informed of any actions Council may take on these proposals.

Attention: Chair and Members of the Committee of the Whole

Dear Chair and Members of the Committee of the Whole:

Re: **Committee of the Whole Meeting of July 13, 2020**
Agenda Item No. 3(4) – Public Meeting
City of Vaughan Applications OP.20.002 and Z.20.005
Applicant: The Salz Corporation
Property: 100 Steeles Avenue West

We are the solicitors retained on behalf of 390 Steeles West Holdings Inc. ("**SWHI**"), owner of the property municipally known as 390 Steeles Avenue West and 398 Steeles Avenue West Inc. ("**SAWI**"), owner of the property municipally known as 398 Steeles Avenue West, in the City of Vaughan. Both properties are located on the north side of Steeles Avenue West, west of Yonge Street and are located within the boundaries of the Yonge Steeles Corridor Secondary Plan ("**YSCSP**").

The YSCSP was initially adopted by the Council of the City of Vaughan on September 7, 2010 and later amended and adopted by the Council of the City of Vaughan in January of 2016. The YSCSP has been appealed to the LPAT (formerly the OMB) by a number of parties. Both SWHI and SAWI are parties to the appeals of the YSCSP. The LPAT file number is PL111184.

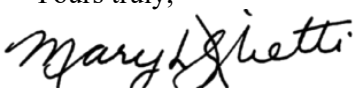
We have had an opportunity to review the application submitted on behalf of the Salz Corporation together with the preliminary report from the Acting Deputy City Manager of Planning and Growth Management and we respectfully submit that the application should not proceed in advance of an LPAT decision regarding the YSCSP. The current application's density at 8.4 times the area of the lot and proposed heights up to 54 storeys is excessive and far exceeds the densities and heights proposed in the Secondary Plan approved by Council and currently before the LPAT.

mcmillan

The YSCSP contemplates that development within the Secondary Plan will proceed in an orderly manner including required and necessary infrastructure. As well, the Secondary Plan encourages landowners to propose development on a comprehensive basis including appropriate phasing strategy that provides for the equitable sharing of costs of public infrastructure among benefitting landowners. In order to ensure comprehensive development and an appropriate level of development within and across the entire Secondary Plan, area it is necessary to first implement an appropriate Secondary Plan. To permit a large development such as the one proposed by the Applicant in advance of the Secondary Plan would undermine any ability of the City to ensure a comprehensive planning vision for this area. It is for this reason that consideration of the application is premature.

On behalf of our clients, we ask that you please kindly provide us with notice of any future meetings concerning this application. Our clients reserve the right to comment further on this development application.

Yours truly,



Mary Flynn-Guglietti

Subject: [External] Proposed Steeles corridor development

Dear Mr. Coles,

Please register my objection to the proposed development plans at the Yonge & Steeles neighbourhood because:

1. There has been little to no consultation with the community. The last time this happened, nobody listened to what the residents wanted with the viva rapidway, diverting along Centre street. That whole scenario was a catch 22, and definitely has not added to the area. At all.

2. The existing facilities/infrastructure cannot support this large an increase in population. Where will the green spaces be? The parks? The schools? The libraries? The community centres? Everything that makes a community feel like HOME?

Please keep me informed of any actions Council may take on these proposals.

Dear Mr. Coles,
I would like to register my strong objection to the proposed development plans in the Yonge & Steeles neighbourhood. First and foremost, the proposed density is between double and triple that allowed in the Secondary Plan. Furthermore, the facilities and infrastructure in Vaughan simply cannot support such a massive increase in population.

I would like to be informed of any actions Council is planning to take on these proposals.

Subject: [External] NO to super condos in Thornhill

Dear Mr. Coles,

Please register my objection to the proposed development plans at the Yonge & Steeles neighbourhood because:

- There has been little to no consultation with the community regarding ruining such a great part of Toronto

- The existing facilities/infrastructure cannot support this large an increase in population (double to triple the allowed occupancy of the secondary plan)

Please keep me informed of any actions Council may take on these proposals.

Subject: [External] Condo developments at Steeles and Yonge

Good afternoon gentlemen,

I am writing to express my objection to the existing proposals by the condo developers for the area on the north west corner of Yonge and Steeles.
I am not against development for residential use. What I am against is the blatant disregard by the developers to the guidelines and bylaws that exist in the city of Vaughan, to ensure the welfare of all residents.

I object to massive condo towers
1)whose density is between double and triple that allowed in the Official Secondary Plan guidelines.
2) whose height density is more than double what is currently allowed in the Secondary Plan and
3) whose developers are not planning to make any enhancements to the area to support the increase in density.

I ask you to reconsider what is being proposed here and keep in mind the well-being of the people who elected you!

Thank you,
Susan Birnbaum

Subject: [External] Highrises at Yonge and Steeles...

Surely things have to change in the time of Covid....Do people want to buy places that they will spend 20 mins to get to the top floor. Will they want to book their time to get on an elevator so they can social distance....

Where is the equivalent green space because as we now know....people quarantined in pigeon holes get antsy for fresh air and space....Where is it in their location?

Finally, I suitably cynical that the Vaughan council will accept anything a developer proposes...I am just surprised that council does not approve 75 stories so they get more tax money. And since the provincial government owns the air space above transit hubs...this location can do what it darn well feels like....Who cares how much shadow will be cast on the homes below...Those home owners are just suckers who bought earlier than the condo dwellers.

Who cares where are the dogs will pee? If you look not too far away..[redacted]t World on Yonge just north of Yonge and Steeles...they have a piddly little rubberized child[redacted]ns park and a little green space in the middle of their parking lot. I can assure you...dog o[redacted]ners do not travel far to let their dogs relieve themselves at 11pm at night.

These are my thoughts,

Regards,

Joan Honsberger

Dear Vaughan clerks office

Please register my objection to the proposed development plans at the Yonge & Steeles neighbourhood

1. The proposed density is between double and triple that allowed in the Secondary Plan

2. The proposed height is more than double what is currently allowed in the Secondary Plan

I work near VMC and have been driving the same roads to work over the past 12 years. With all the new building being finizlded (weston road, jane street, creditstone etc) i have noticed about 20 mins adddedd due to the increased traffic. I dont want that same thing to happen around my house. 20,000 more people in springfarm area is a bad idea.

Please keep me informed of any actions Council may take on these proposals.

Subject: [External] lack of due process

To Whom it May Concern,

I have just learned of a proposed construction of 10 condos with up to 54 stories along the north side of Steeles Avenue between Yonge and Hilda.
I am saddened that this proposal is being brought before council during Covid 19 without the proper community consultation which would happen under normal times. Even though I am in favour of economic development which brings business and a prosperity to our community, it must be done in a manner that will best add to the community. Without an increase in local infrastructure - parks, libraries - the Thornhill community will suffer greatly by this increase in population density.

On a personal note - I have an elderly aunt and uncle who live in a retirement home in this exact area, and this will absolutely impact their quality of life.
I also have a special needs 27 year old son, who lives a group home on Crestwood and the proposed height of the buildings which is more than double the currently allowed in the Secondary Plan, will make him feel like he is in a prison. How will he enjoy the parks and going for walks with such an increase in population density? and without sunlight? We elect government officials to protect the vulnerable - have you not learned anything from Covid-19. It appears that once again our individual liberties are being taken away.

Subject: [External] new condo development

Dear Mr. Cole,
It has recently come to my attention that an enormous condo development (20,000 or more additional residents) is planned for the Northwest corner of Yonge and Steeles. Such a development would be contrary to Official plans and create havoc for existing residents of that neighbourhood.
There has been no input from the community and no plans to improve the existing infrastructure of the neighbourhood.
Please urge council members to oppose this aberation of due process.
Sincerely
M. Blum

Subject: Interesting...

If you live in Thornhill, your life is about to change forever.

Imagine if suddenly more than triple the current number of people started using Yorkhill Park, Bathurst Clark Library, Garnett Williams, Sobey's, No-Frills, Walmart, Shoppers, the post office, and every other store, service, clinic, school, park, bus stop, road, and so on that you and your family rely on.

This is not an exaggeration. A group of developers is trying to ram through unprecedented and non-compliant proposals, without public consultation under the cover of COVID.

City Council is being asked to green-light the construction of ten towering condos up to 54 stories along the north side of Steeles Avenue between Yonge and Hilda – with even more developments in

the pipes – that will pack in over 20,000 new people with no addition to local infrastructure.

These condo towers ignore all Official Secondary Plan guidelines that already were raised to allow for high densities to support the Yonge subway extension. They are DOUBLE or TRIPLE the height and density limits of the new guidelines that city planners spent years perfecting to provide smart and sustainable growth.

Unlike every other large development across the GTA, these developers want to build these condos while not providing anything back to the community. No green spaces, no parks, no community centre, no library, no schools, etc. Nothing to accommodate this influx of tens of thousands of new residents or to benefit our existing community.

It is vital that City Council hears from as many residents as possible; if no one writes in, they will assume there are no objections to the project and give these plans a green light.

An open Council hearing is taking place online this Monday night, July 13. The Spring Farm Ratepayers Association asks you to take a few minutes (before Shabbos if possible) to send a short email to Council members to let them know, in your own words, that these controversial developments do not have your support. Please address your email to City Clerk Todd Coles (clerks@vaughan.ca) and CC Mayor Maurizio Bevilacqua (maurizio.bevilacqua@vaughan.ca) and Ward 5 Councillor Alan Shefman (alan.shefman@vaughan.ca). Please BCC springfarmra@gmail.com so they can collect these emails for future reference.

Feel free to draft your own email, or use the following suggestions:

Subject: [External] Fwd: Fwd: [Torontograpevine] Thornhill residents - Urgent Action Needed Immediately

Hi Alan,

Can you please add my email address to the "watch list" with regards to this development?

I've been a Thornhill resident for 31 years, and am worried about the effect that these extremely tall condos will have on the neighborhood.

Aside from the obvious infrastructure issue, at 54 stories tall, these buildings will loom over Thornhill. The 31 story World on Yonge can be seen from Yorkhill Blvd. These would be more than 1.5 times taller, and without the benefit of the ravine on Yonge to provide some physical distance. I can only imagine the effect on the residents of the houses one block north (probably a complete blockage of southerly sunlight in the winter).

Best Regards,

Jeremy Lichtman

If you live in Thornhill, your life is about to change forever.

A group of developers is trying to ram through unprecedented and non-compliant proposals, without public consultation under the cover of COVID. (This is being done very differently than the Promenade condos.)

City Council is being asked to green-light the construction of ten skyscrapers up to 54 stories along the north side of Steeles Avenue between Yonge and Hilda – with even more developments in the pipes – that will pack in over 20,000 new people **with no addition to local infrastructure**.

These condo towers ignore all Official Secondary Plan guidelines that already were raised to allow for high densities to support the Yonge subway extension. They are DOUBLE or TRIPLE the height and density limits of the new guidelines that city planners spent years perfecting to provide smart and sustainable growth. We support high density development as long as it is reasonable and follows the rules.

The city will waive all normal requirements and the developers will not build additional roads, green spaces, parks, libraries, stores, community centres or any amenities to accommodate this influx of tens of thousands of new residents. You can imagine what will happen to our already clogged roads and facilities, including Bathurst, Dufferin, New Westminster, as well as our clinics, parks, stores, libraries, post office, etc.

It is vital that City Council hears from as many residents as possible; if no one writes in, they will assume there are no objections to the project and give these plans a green light.

An open Council hearing is taking place online this Monday night, July 13. The Spring Farm Ratepayers Association asks you to take a few minutes to send a short email to Council members to let them know, in your own words, that these controversial developments do not have your support. Please address your email to City Clerk Todd Coles (clerks@vaughan.ca) and CC Mayor Maurizio Bevilacqua (maurizio.bevilacqua@vaughan.ca) and Ward 5 Councillor Alan Shefman (alan.shefman@vaughan.ca). Subject: [External] New development at Yonge and Hilda

Dear Mr. Shefman and the entire
City Council,

Thank you so much for all that you have done and continue to do for our community.
I have become very upset and distressed over the possible construction of new towers by the Steele's and Hilda area.
I want to register my objection to this development which is being pushed through in our neighbourhood. I am a taxpayer that pays close to $9,000 yearly on my home that I have been living in for 23 years. I live at [redacted] Michael Court in the Melrose development, off of Yorkhill by Hilda.
It is very upsetting for me that this development is being pushed through under the cover of Covid. There is not enough infrastructure to support the additional large population that will be brought into this neighbourhood by the new towers.
As well, the very high size and DENSITY of these building totally goes against ALL official secondary plan guidelines.

Hoping to hear from you soon that these plans have been stopped,

Best ,
Miriam and Stan Rosenzweig

Dear Mr. Coles,

I'm writing to you to request you register my objection to the proposed development plans at the Yonge & Steeles neighbourhood because the proposed density is between double and triple that allowed in the Secondary Plan and the existing facilities/infrastructure cannot support this large increase in population.

Please keep me informed of any actions Council may take on these proposals.

Subject: [External] Steeles Ave. W proposed development

Dear Mr. Coles,

Please register my objection to the proposed development plans at the Yonge and Steeles

I'm quite tired of all the added density in Vaughan. Traffic is ridiculous in the suburbs! This isn't downtown. I don't live south for this reason. People move to suburbs to get away from the congestion. Our roads are not wide enough to accommodate all the condos going up. We don't have enough schools. Most people drive in the suburbs. I have the following concerns:

1. The proposed density is between double and triple that allowed in the Secondary Plan

2. The proposed height is more than double what is currently allowed in the Secondary Plan

3. The proposals do not enhance the existing neighbourhood

4. The facilities being proposed are only for the benefit of the residents who live in the proposed developments

5. There has been little to no consultation with the community

6. The existing facilities/infrastructure cannot support this large an increase in population

Please keep me informed of any actions Council may take on these proposals.

I would appreciate being notified of council's decision.

I agree with the long overdue extension of the Yonge subway and understand the necessity of development in our area.
How much development Is needed? I am not an expert In this field but I do own property on Crestwood Road.

I trust Council will make the decision that is best for all concerned.

Subject: [External] New condos at yonge and steeles west

Dear Mr. Coles,

Please register my objection to the proposed development plans at the Yonge & Steeles neighbourhood because our traffic is already awful, the proposed heights will look out of place and do not comply with what is allowed and there isn't enough community infrastructure for this type of added density. There will already be too many condos at the promenade. You are destroying Thornhill. The new bus lanes and lack of lanes for driving and the length of time it takes to get anywhere makes me seriously contemplate leaving the city of Vaughan. The busses are empty on those routes. The bus stops are ridiculous. No busses run straight from Yonge and highway 7 westbound to Center Street without a long ride through the promenade. Maybe think about your constituents and not the Mayor's friends' bank accounts.
Just like the useless bus lanes, there has been little to no consultation with the community.

Please carefully consider this next bad decision you are about to make allowing these condominiums.

Thank you,

Barbara Altberg

Dear Mr. Coles,

Please register my objection to the proposed development plan at the Yonge and Steeles neighbourhood because there has been little to no consultation with the community and the existing infrastructure cannot support this large increase in population.

Without a clear plan for developing surrounding infrastructure, the proposal will erode current residents' standard of living due to unmanageable traffic and insufficient public resources (parks, libraries, schools,etc.)

As a resident of a quiet street that will be directly affected by this development, I do not support this development because of its negative impact to current residents. Without buy-in from the community, Council should reject the proposal.

Please keep me informed of any actions Council may take on these proposals.

Thank you,

Dear Mr. Coles,

Please register my objection to the proposed development plans at the Yonge & Steeles neighbourhood.

This is going to completely change the feel of our neighborhood in a negative way. The proposed density and height are WAY OVER what's allowed in the Secondary Plan.

It's already impossible to make a left from Steeles onto Hilda going north, and morning traffic heading south is very heavy. I don't want to think about what it will be like if this plan goes through.

No one is going to benefit from these developments aside from the residents of the development. (and the developers of course)

Thornhill is a beautiful place to live - we don't want it to turn into another downtown with highrise buildings and clogged roads.

Please keep me informed of any actions Council may take on these proposals.

Subject: [External] Proposed Condo Development

Mr. Mayor and Members of Vaughan Council,

I am writing to express my opposition to the proposed condo development on the northwest corner of Yonge and Steeles. The increased density will lead to increased traffic in an already strained location. The increased congestion will negatively impact the quality of life of all of the residents who already reside in Thornhill, whether they live west or east of Yonge. And while there will one day be a subway extension to Steeles, since that is only in the planning stage, that time is a long way off. No approvals for development should be given until there is a subway to deal with the increased population density and even then, a development of the proposed size should not be considered.

Sincerely,
Valerie Tate

Dear Mr. Coles,

Please take note of my strong objection to the proposed development plans at the Yonge & Steeles neighborhood.

This will definitely have a negative effect on the existing neighborhood, especially in terms of congestion, where the proposed density is over double that allowed in the Secondary Plan. Traffic in this area is already substantial and will be further exacerbated by the development around the Promenade.

These proposals will Also certainly not enhance aesthetically our neighborhood by these humongous structures, which belong downtown, not in suburbia . This proposal is also more than double what is currently allowed in the Secondary Plan.

In addition, I am sure I am not alone in my concerns as to the direct Impact this development will have on the quality of life of our existing community. Therefore we should be consulted accordingly.

I would appreciate being kept informed of any actions The Council may take on these proposals.

Thank you

Subject: [External] [Newsletter/Marketing] Re: YONGE STEELES DEV - Address Council - Electronic Deputations

In the matter under consideration to redevelop lands at 100 Steeles Avenue West I ask you review the density factors once more.

There is no doubt that increasing the availability of homes is a priority for the Greater Toronto area in particular when considering the expansion of transit corridors. Intensification along those areas will bring the economic benefits needed to fund and make transit more viable. I understand that.

However density factors cannot be overlooked in the process. The height of these towers and number of suites simply cannot be supported by the capacity of roads and transit in the neighborhood even as they are expanded.

While I generally support the development being considered this must be addressed so as not to overburden our neighborhood.

Let's not take 2 steps forward and 2 steps back. I know that you have brain power and the opportunity to make good choices. Please take the time to thoughtfully do so.

To A Good Life!

NEW PROPOSED HIGH RISE BUILDINGS AT YONGE AND STEELES VOICE YOUR OPINION

There is a Vaughan City Council meeting scheduled for July 13 to hear proposed development plans in the Yonge & Steeles area and to hear community opinions.

This is your only opportunity to have Council listen to your views, concerns, and suggestions for improvement.

The City Council Agenda includes (electronic) discussion of these plans is now public and it is important that residents let City Council know how you feel about these proposals BEFORE the July 13th meeting.

If you don't speak up City Council will assume there are no objections and give these plans a green light.

If you haven’t already done so, please take a few minutes to send a short email, in your own words, to the City Clerk by NOON on Friday, July 10 to let Council know your opinion.

You can address your email to City Clerk Todd Coles (clerks@vaughan.ca) and cc Mayor Maurizio Bevilacqua (maurizio.bevilacqua@vaughan.ca) and Ward 5 Councillor Alan Shefman (alan.shefman@vaughan.ca). Please

BCC springfarmra@gmail.com .

You can also address Council through an electronic deputation (5 minutes max) by filling out a deputation form and sending it to Clerk by Friday, July 10 at noon. You can find the deputation form and instructions here.

You can find the Vaughan City Council July 13 Agenda here. Items of interest are items 4 and 5.

Ensure your voice is heard - take action

Subject: [External] Re Vaughan Council meeting on July 13 that will have ramifications beyond Vaughn

To Whom It May Concern

I live just south of Steeles Ave, and therefore I am not on your voting rolls, but I shop regularly in Thornhill, including stores on Steeles Ave. I, and very many other local residents will be extremely negatively impacted by the mega development that is proposed along Steeles Ave., between Hilda and Yonge. As it is now, traffic on Hilda going south in the morning and going north at rush hour in the afternoon is restricted, and this puts an additional strain on the already overburdened north-south traffic on Bathurst and Yonge.

What perhaps is most galling, is that this is being put forward under cover of Covid 19, as non-compliant proposals without public consultation. It not only allows for 20000 new people with no addition to local infrastructure, but it will double or triple the height and density levels of the newest guidelines that have been put in place after years of study by city planners. This is a horrendous example of developers trying to bypass existing rules to the detriment of residents on both sides of Steeles.

What is also of great concern is that developers make outrageous proposals while expecting to throw a proverbial bone to complainers and council by scaling back a bit, while leaving the project essentially intact.

Sincerely yours,

Eli Honig

Dear Mr. Coles,

Please register my objection to the proposed development plans at the Yonge & Steeles neighbourhood because the proposals do not enhance the existing neighbourhood. and the existing facilities/infrastructure cannot support this large an increase in population. This is the first time that I have heard of such a proposal. It is unacceptable.

As it is, the traffic in the area is very congested, there are no parks in the immediate area and no stores in the immediate vicinity. A new school will have to be built because Newtonbrook Secondary School will definitely not be able to accommodate all the additional new students.

Please keep me informed of any actions Council may take on these proposals.

Subject: [External] Proposed development at Steeles and Yonge

I have been informed of a colossal proposed development on the NW corner of Steeles and Yonge where normal zoning rules are being discarded.
As a long-term resident of Thornhill for 32 years, I am very concerned about this development. Putting up several 50 storey towers and not demanding that the developers provide park space, recreational and community facilities is a travesty. All that the citizens near the development get is extra traffic congestion and demands on the local schools, parks etc. The Yonge subway extension may take 20 years to get built, if it ever is done. You've got the priorities wrong.

You have the responsibility to WORK FOR THE CITIZENS OF VAUGHAN and not for the developers. Do your job and bring the developers together to build a world class space which will make it a destination location, not just a bedroom area for millennials.

Subject: [External] development on Steeles between Yonge and Hilda

Dear Sirs,
I am writing to express my concern regarding the proposed development plans in the Yonge and Steeles neighbourhood. The density and the height of the buildings exceed what is allowed in the secondary plan. (What is allowed in the secondary plan is, in the opinion of many residents, too much as well.) In addition, the existing infrastructure and community facilities will not be able to support the increase in population. Lastly, to approve these plans at this time when COVID is commanding the attention of residents is a rather cynical move. I urge you to take a step back until times are again 'normal'. At that time hopefully we will see additional consultation.
Thank you for your attention,

Subject: [External] Concern over NEW PROPOSED HIGH RISE BUILDINGS AT YONGE AND STEELES

Dear Mr./Ms.

I recently know that there are new proposed high rise buildings at Yonge and Steeles. I am emailing you to express my objection to the plan.

I am really concerned about this plan which will have a great impact on the current residents live here.

First, the proposed high rise will have double even triple density of the original plan. Also, the meeting dates are greatly advanced without enough consultation from the community. In addition, the existing infrastructure cannot support this plan and associated population increase without creating chaos. The Yonge/Steeles is already an chaotic cross section in current situation and with lots traffic accidents. It will be much worse with the proposed plan. Last but not the least, the COVID-19 pandemic has fundamentally changed the way people live, the greatly increased population density is not a preferred way of city living.

Please keep me informed of any actions Council may take on these proposals.

Subject: [External] Objecting to the proposed development

Dear Mr. Coles

I have recently become aware of the proposed new development at the corner of Yonge and Steeles.

It is clear after looking into what has been planned and approved for the area, that this project will have a density of occupants that is way above what has been approved in the city planner guidelines.

As well, there has been no detail of any increase or enhancement in infrastructure or services to support the increase in density.

This plan requires an open and transparent discussion that will involve not only members of the city council but also the residents in the area whose quality of life will be adversely affected if this plan is allowed to proceed without a full and open discussion.

I do hope that you will solicit the input of the existing ratepayer associations in your deliberations.

It would be wise to speak to us and hear what we have to say, because after all, we are the people who voted you into office and who have placed our trust in your ability to represent us and protect our quality of life.

Subject: [External] Objection to proposed high-density residential development on north of Steeles Ave. between Yonge and Hilda

Dear Todd Coles:

I understand that there is a proposal under consideration to redevelop the land on the North side of Steeles Avenue between Yonge Street and Hilda. I understand that the plan initially calls for ten condominium towers which are up to 54 stories tall, with potential for additional towers to follow. The development would add more than 20,000 new residents to the area with little to no increase in the local infrastructure.

I am writing to oppose this redevelopment proposal based on the understanding that the proposed buildings drastically exceed the height and density limits that are currently binding on the area in the city plan.

Violating these limits will no doubt make the area a less pleasant place to live for all who currently live there. One of the truly special aspects of this neighbourhood is that its scale and layout are conducive to wholesome and healthy family life. Thornhill has a small-town feel, and is such, is a wonderful place for its inhabitants to come home to every day. The mental health benefits of such a community cannot be overstated, and neither can the positive contribution to society that people fortunate enough to live there are consequently able to make.

The proposed development can be expected to destabilize and severely damage what is currently excellent situation. The skyscrapers would loom imposingly over the neighbourhood, blocking the sun from many. The increase in traffic volume and noise would bring an increase in stress to the people who currently live in the area. The Garnett Williams Community Centre, the Bathurst Clark Library, the Sobey's plaza, and other pieces of infrastructure would go from being nicely busy to stressfully packed. The precious healthy flow of community life would disappear.

As someone who has enjoyed the benefits of Thornhill for years, I oppose this development which would strip the area of these benefits.

Thank you for considering what I have written here.

Yours truly,

Ronnie Hoffer

Subject: [External] Strong Objection to proposed Development Plans on Steeles near Yonge St.

Dear Mr. Coles,

Please register our strong objection to the proposed development plans at the Yonge & Steeles neighbourhood which totally ignore the density and height restrictions in the Secondary Plan. There has been little consultation with our community where we have lived for 35 years. Traffic is already totally congested in the area and roads are in poor condition, needing constant repair. No infrastructure enhancement has been included so that an increase in population (20,000 new residents) will place a huge burden on schools, community centres, Day Cares, water works and electricity demands, parks, shopping etc. For example, as a Senior I can tell you that I really enjoy the Seniors Fitness programs at the Garnet Williams Community Centre, but I already have to be lucky to get into the programs as there is more demand than supply and acceptance is often based on a lottery. With more residents making demands on the facility, the chances of getting into programs will be greatly reduced. There is no space to offer more programs. We also already have too many car dealerships in the area. How can a developer expect to break the plan which has been to developed to protect the environment and the residents without making sure his plans will not place huge demands on the community and in effect destroy it. .

Please keep me informed of any actions Council may take on these proposals.

Subject: [External] regarding the proposed development on Steeles Avenue

Dear Mr. Coles,

I am writing with grave concerns about the proposed development on the north side of Steeles between Yonge and Hilda.

It is shocking to me that Council would entertain the construction of a development on such an absurd scale without seeking comprehensive feedback from the community. This development will permanently alter life in Thornhill, and it is troubling that our very own public servants want to push this through with such aggressive zeal during this unprecedented pandemic.

Thornhill is our neighbourhood and our community, and our public servants are there to serve the needs of the community - and not the developers who stand to reap massive financial rewards at our expense. All without providing anything of real value back to our community.

I am aware of no studies measuring how this massive development would impact our hospitals, our roads, our libraries, our community centres, our schools, our parks, and our social services. It is clear that this development will do nothing but drain our resources and cause serious deterioration of our quality of life in Thornhill. It is incomprehensible that that Council is so keen to release developers from all regular obligations to build infrastructure to support such a massive development unlike what happened at VMC or even Promenade.

I understand that the City of Toronto has started to raise concerns about this development, and frankly, the fact that Vaughan would even entertain such a preposterous density and scale here is an embarrassment and affront to residents of Thornhill.

I sincerely hope our City will not trash their own approved planning guidelines, and scorn the will of the residents who pay their salaries.

Many area residents are only now learning of the extent of these developers plans to put up condo towers that you would only find downtown in areas with much superior infrastructure. I have no doubt that as more members of the community learn about these plans there will be mounting outrage.

We fully support development and intensification, but not at levels that flout all expert planning standards.

I urge you to put the brakes to this project until full community consultation can take place and more objective research is available on exactly how these projects will impact our roads, schools, parks, libraries, community centres, hospitals, and all other services and infrastructure.

Thank you for your time,

Suri Rosen

Subject: [External] High rise development

Dear Sirs,

I am angry and appalled with the proposed development in the Yonge and Steele's Ave. area. I live in the area and do not support this increased development. I support high density development, however what developers are proposing is unreasonable and does follow the rules.
The existing infrastructure cannot support so large in increase in population that will occur.
The said infra structure is not only controlled by the City of Vaughan but by The City of Toronto. Specifically, the infra structure on what was the northern boundary of the City of North York and how it interfaced with Vaughan's infrastructure at the precise points that the proposed development is being sited at. Traffic at Young and Steele's going North and South ,as well as that at Hilda are at peak hours bottlenecked.
Only by sticking to the Official Plan will the residence of both Vaughan and Toronto be equitably serviced.

Yours truly ,
Sara Fass

Report No. 35, Item 5

180 Steeles Ave. West SFRA Deputation – Height & Density Limits

Vaughan Council Committee of the Whole

July 13, 2020

Brian Gerstein

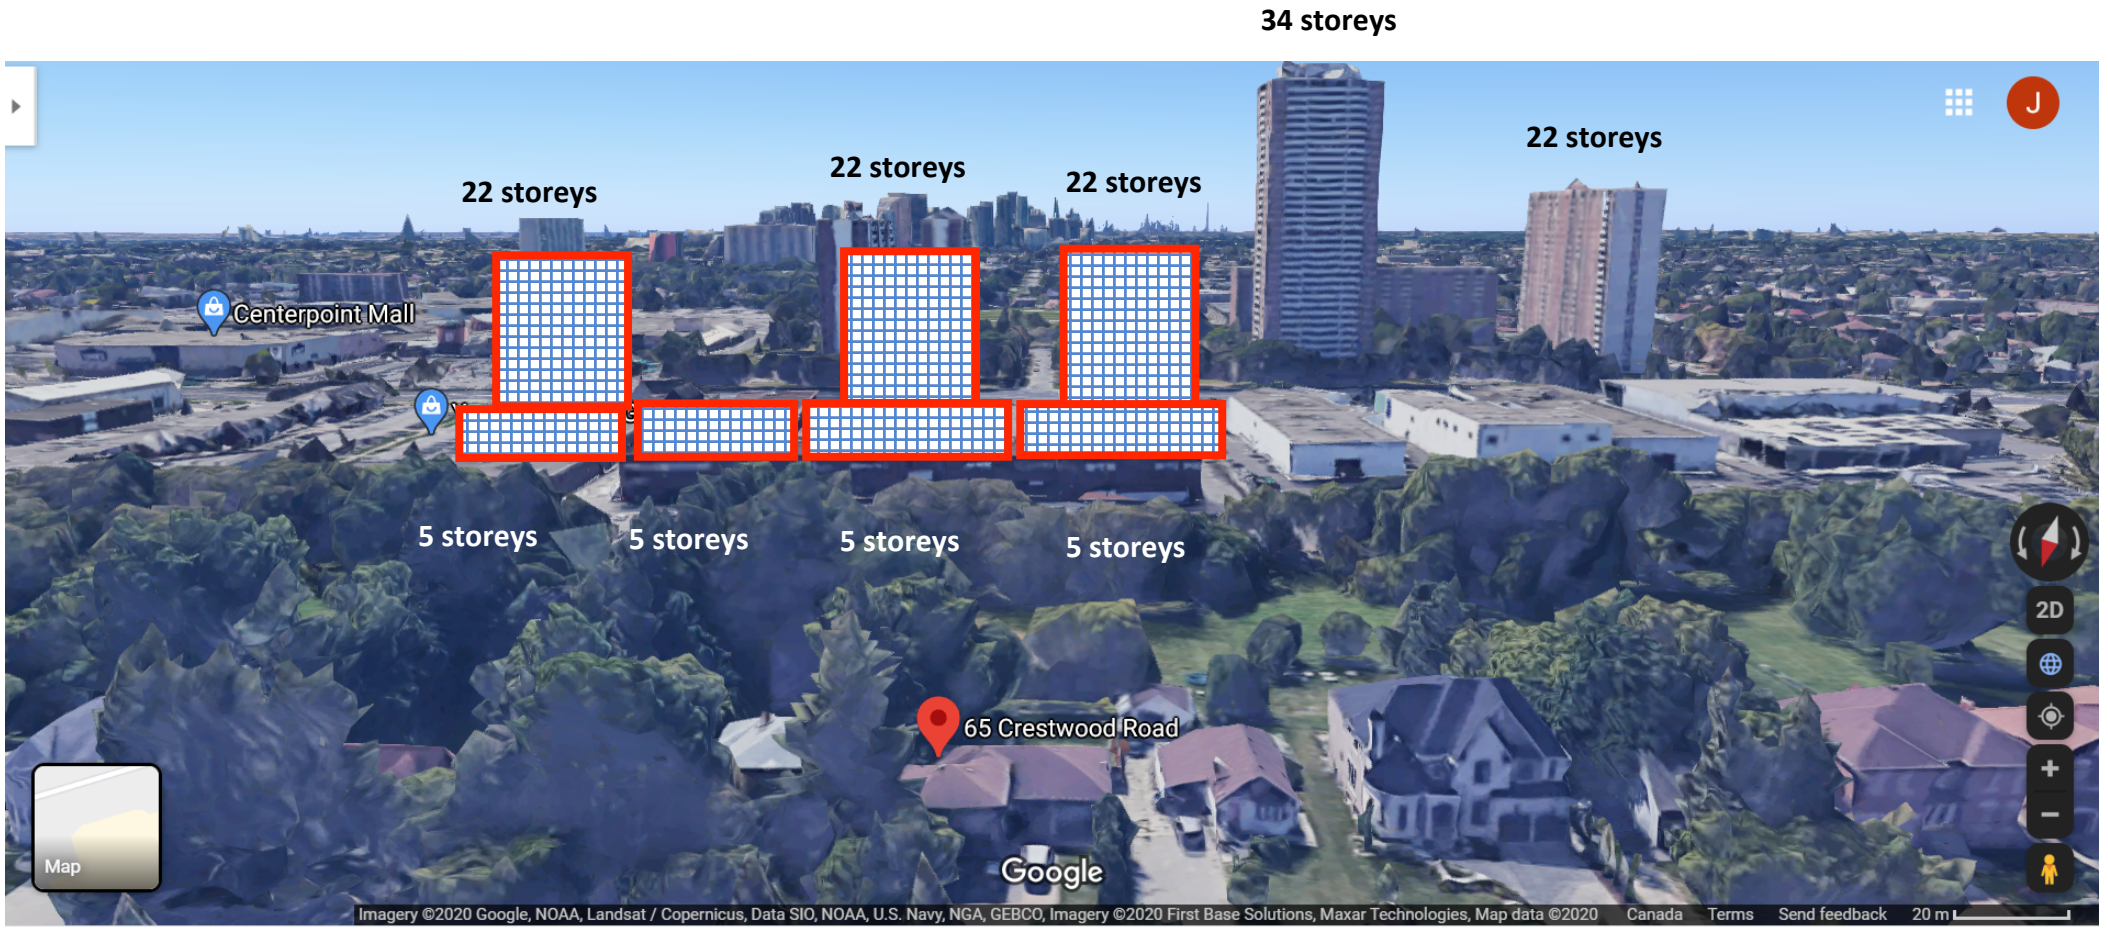
Why Height and Density are critical factors

- Mizrahi plans for 2,080 residential units x 2.7 persons/unit = net 5,616 – a **561% population increase** (not including the 3 other developments)
- Therefore, this impact must be quantified, carefully analyzed, and extra capacity planned for

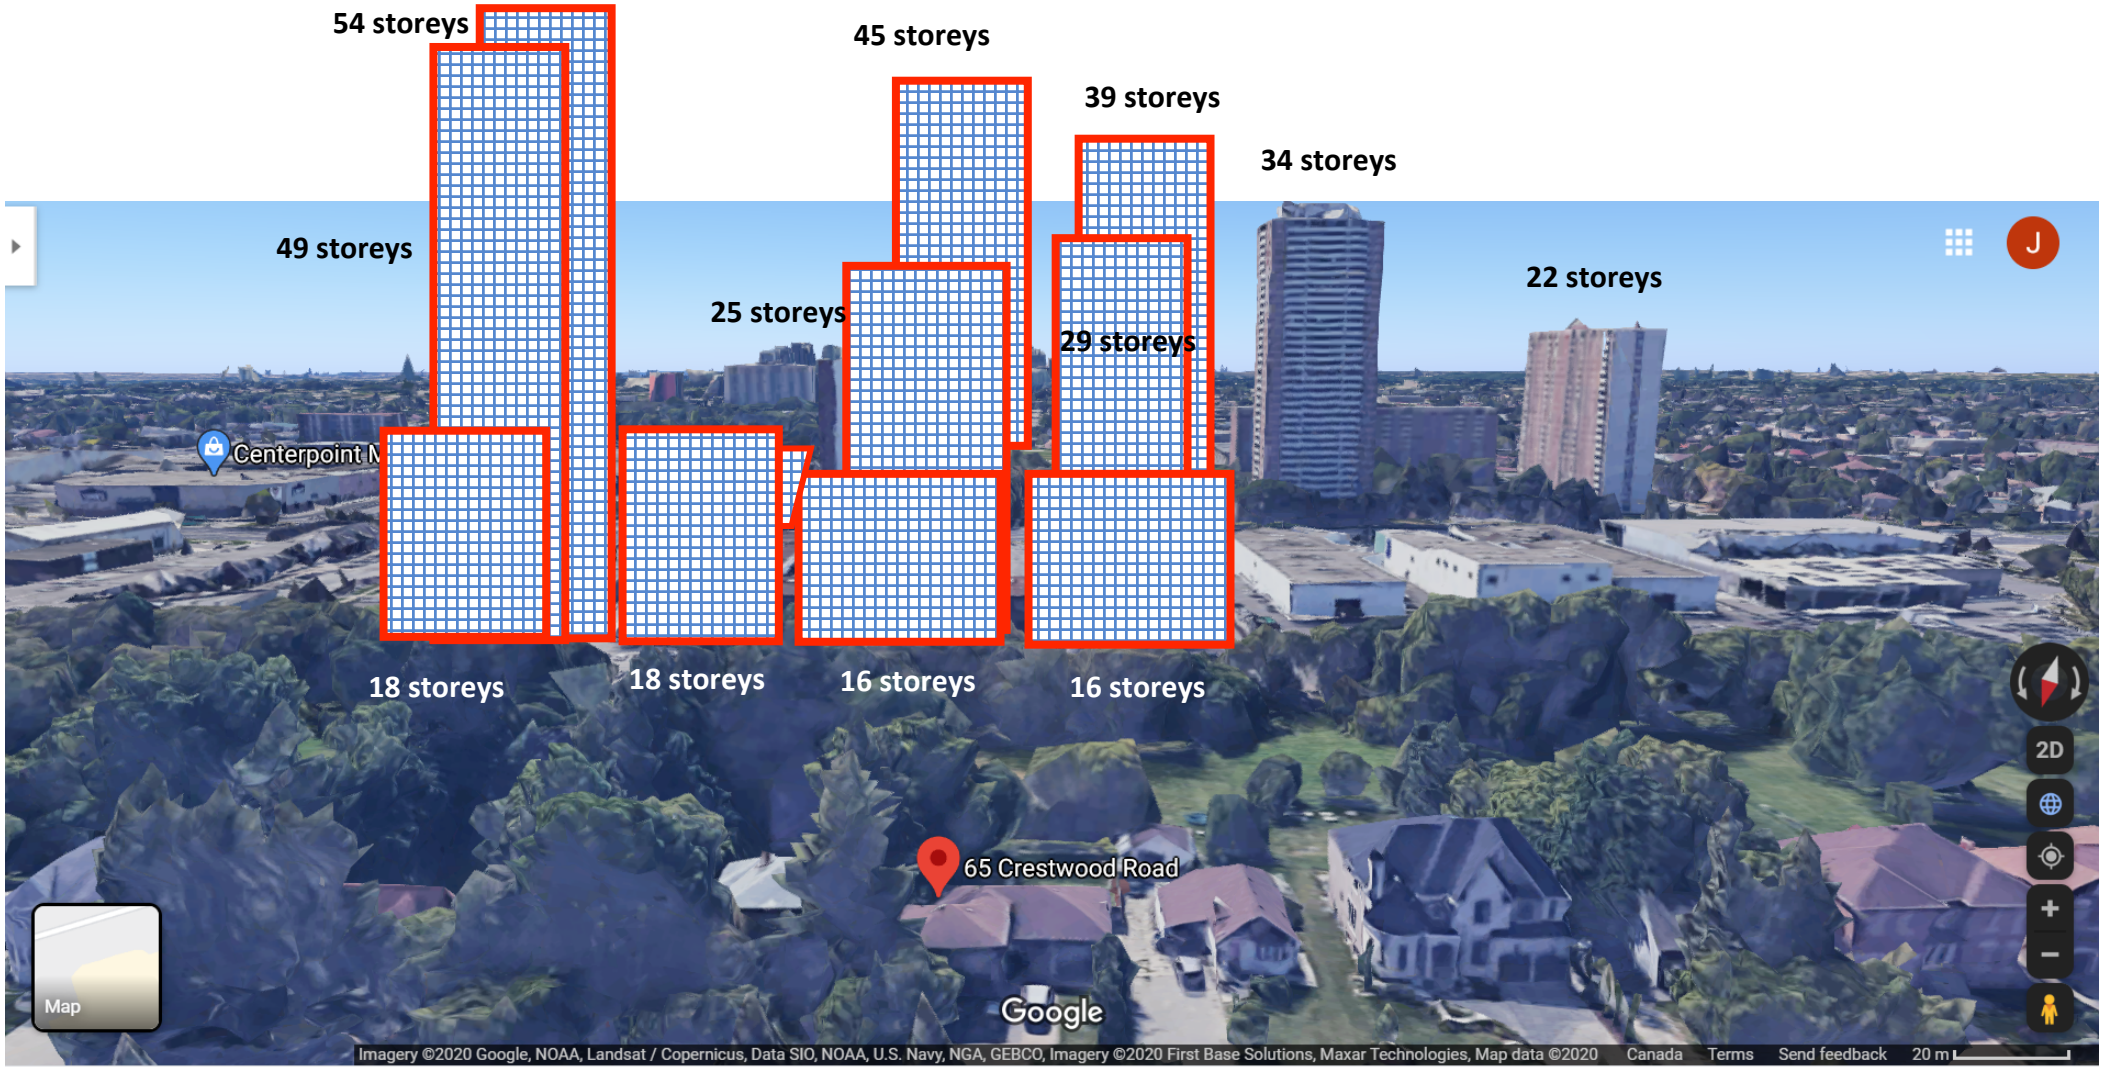
Mizrahi Proposal vs. Secondary Plan limits

	Height (storeys)	Density (FSI)		
YSC Secondary Plan	22	3.5		
Mizrahi Proposed	45	6.46		

View of 180 & 100 Steeles Ave. W from Crestwood Road as per Secondary Plan

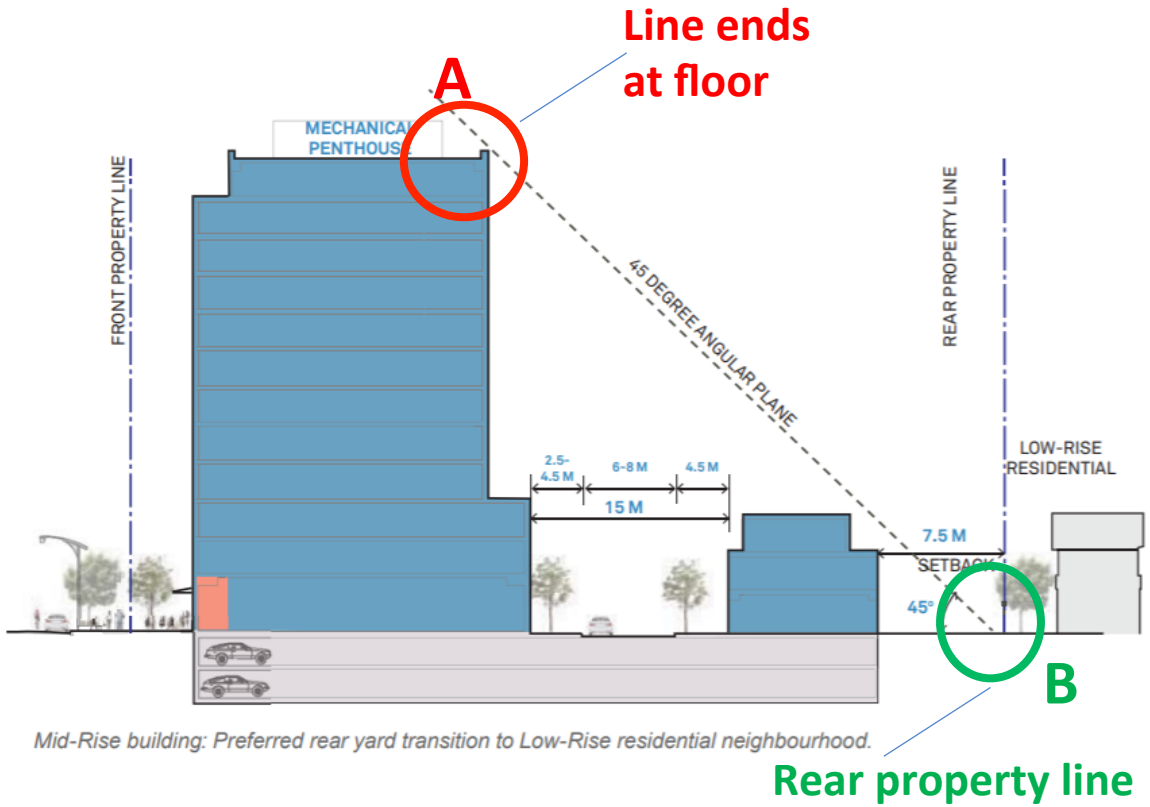


Projected view of 180 & 100 Steeles Ave. W from Crestwood Road



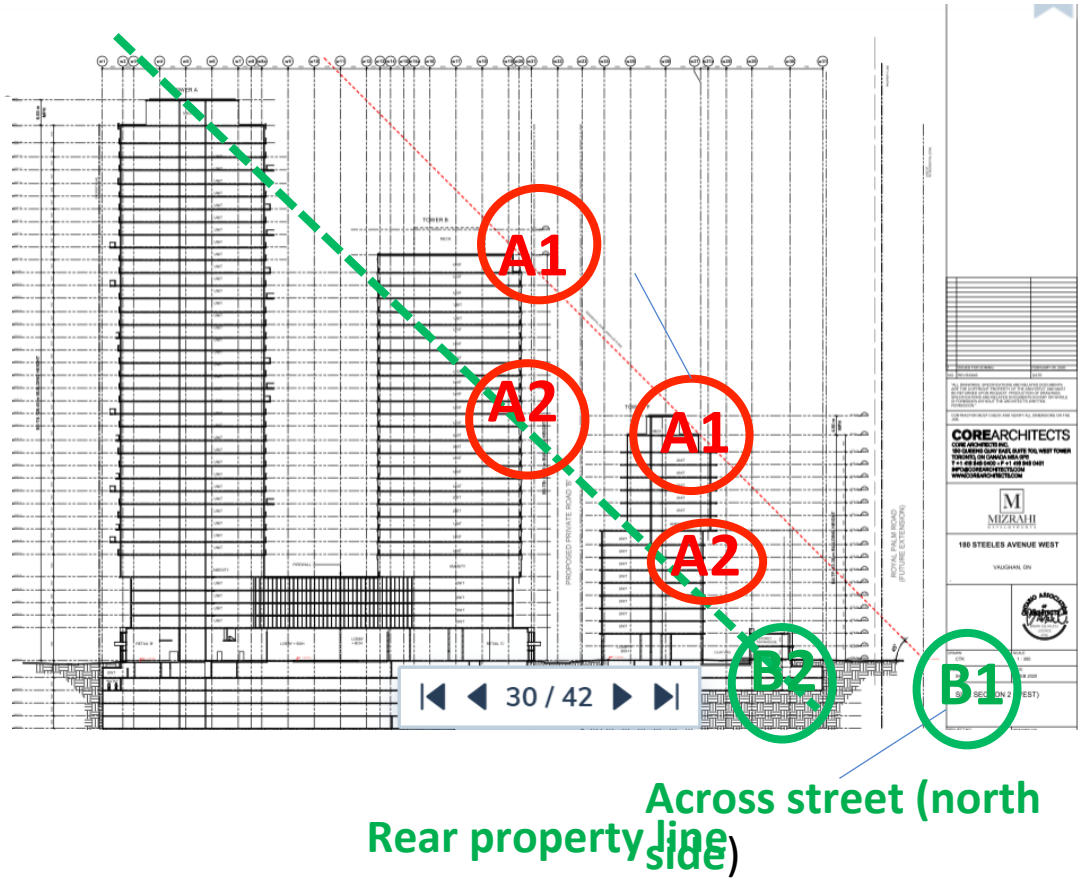
45 Degree Angle Variances – Errors add height

Vaughan Urban Design Guide – Standard No. 5.3.6 Built Form Transitions



Mid-Rise building: Preferred rear yard transition to Low-Rise residential neighbourhood.

Mizrahi Proposal



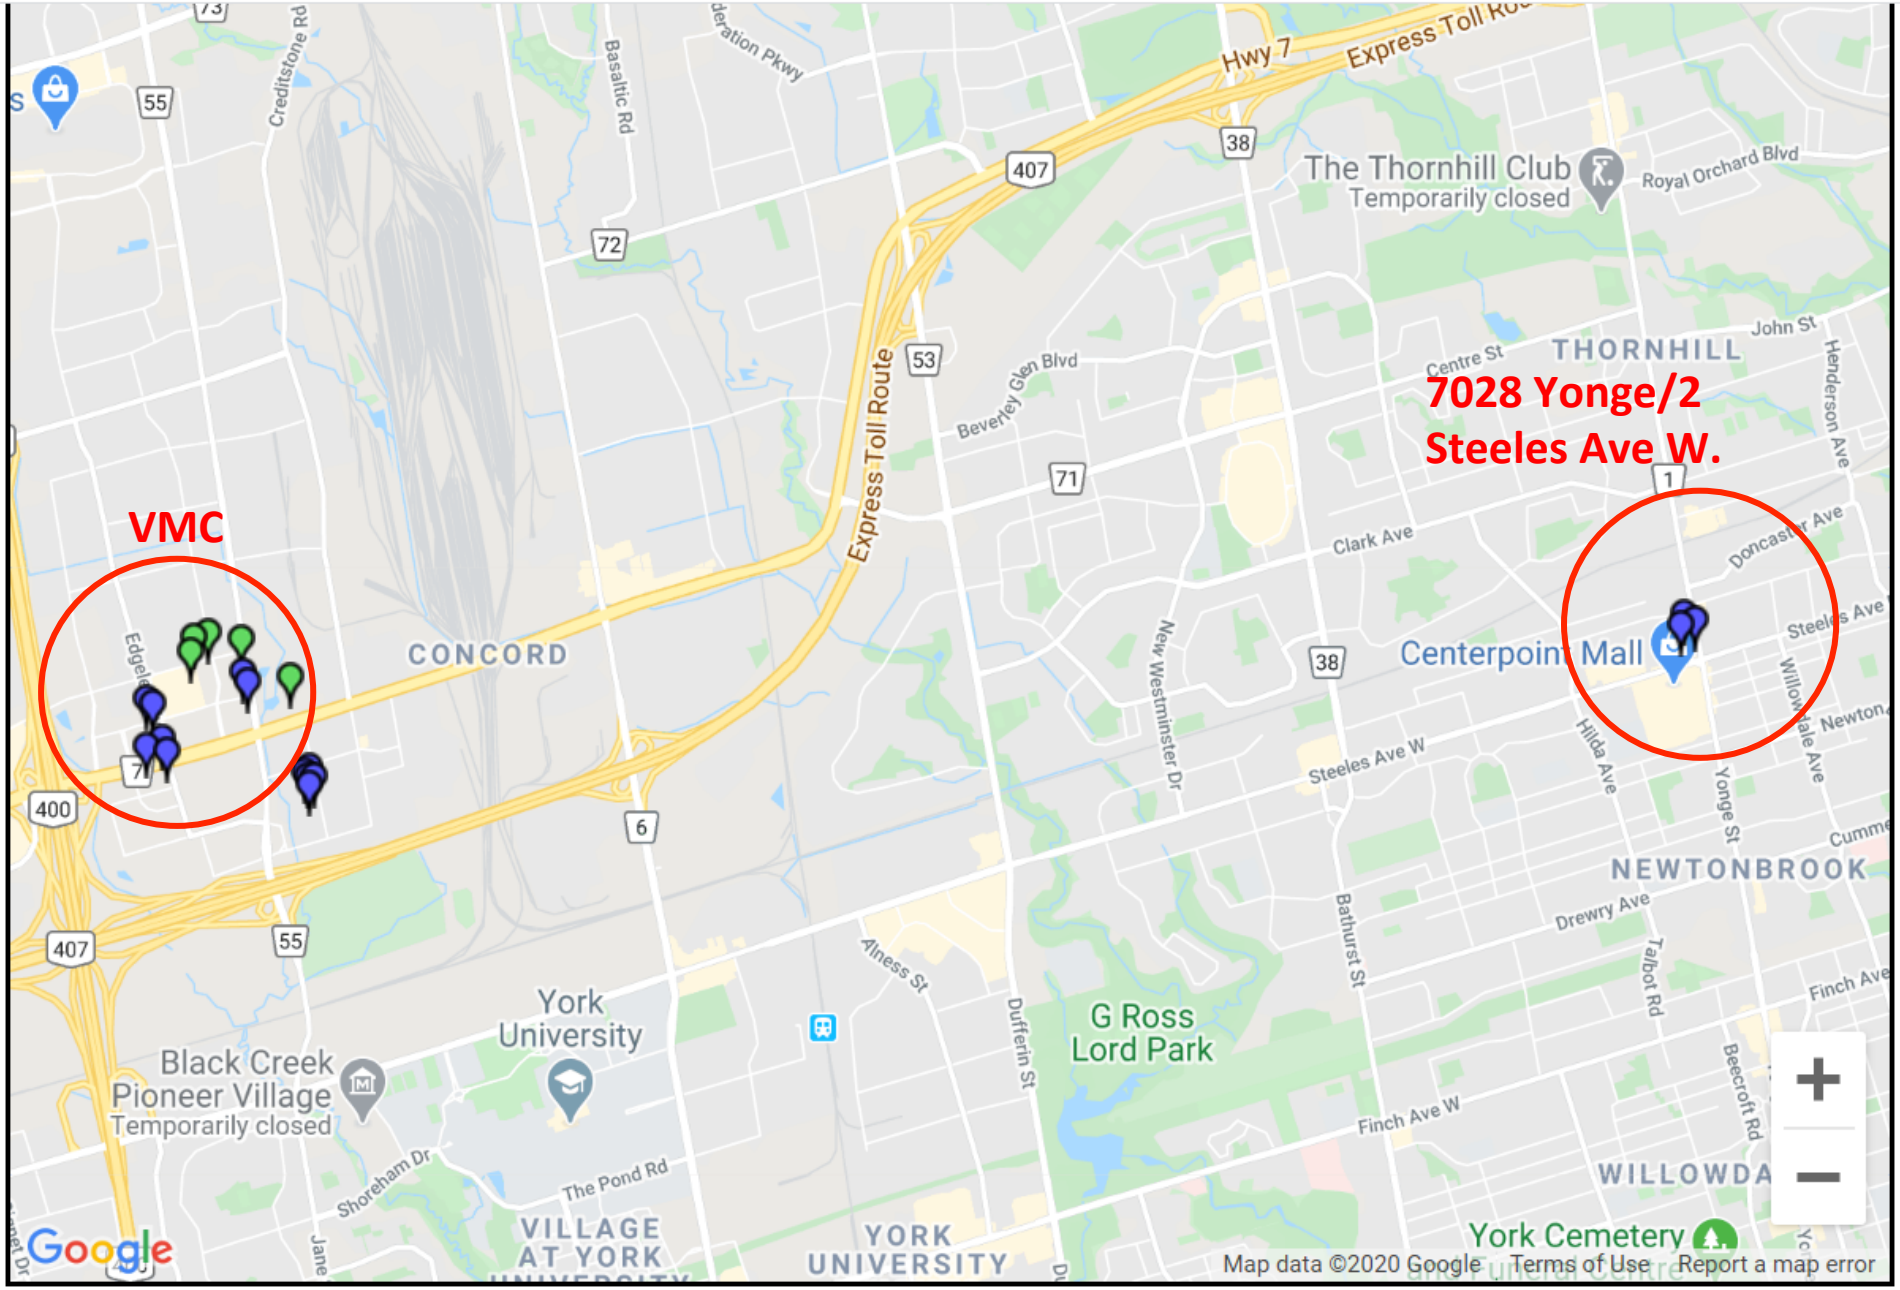
VMC vs. Yonge-Steeles (Primary Centre)

VOP 2010, Volume 1, 2019 Office Consolidation, a. 2.2.5 (p. 34)

“Intensification Areas

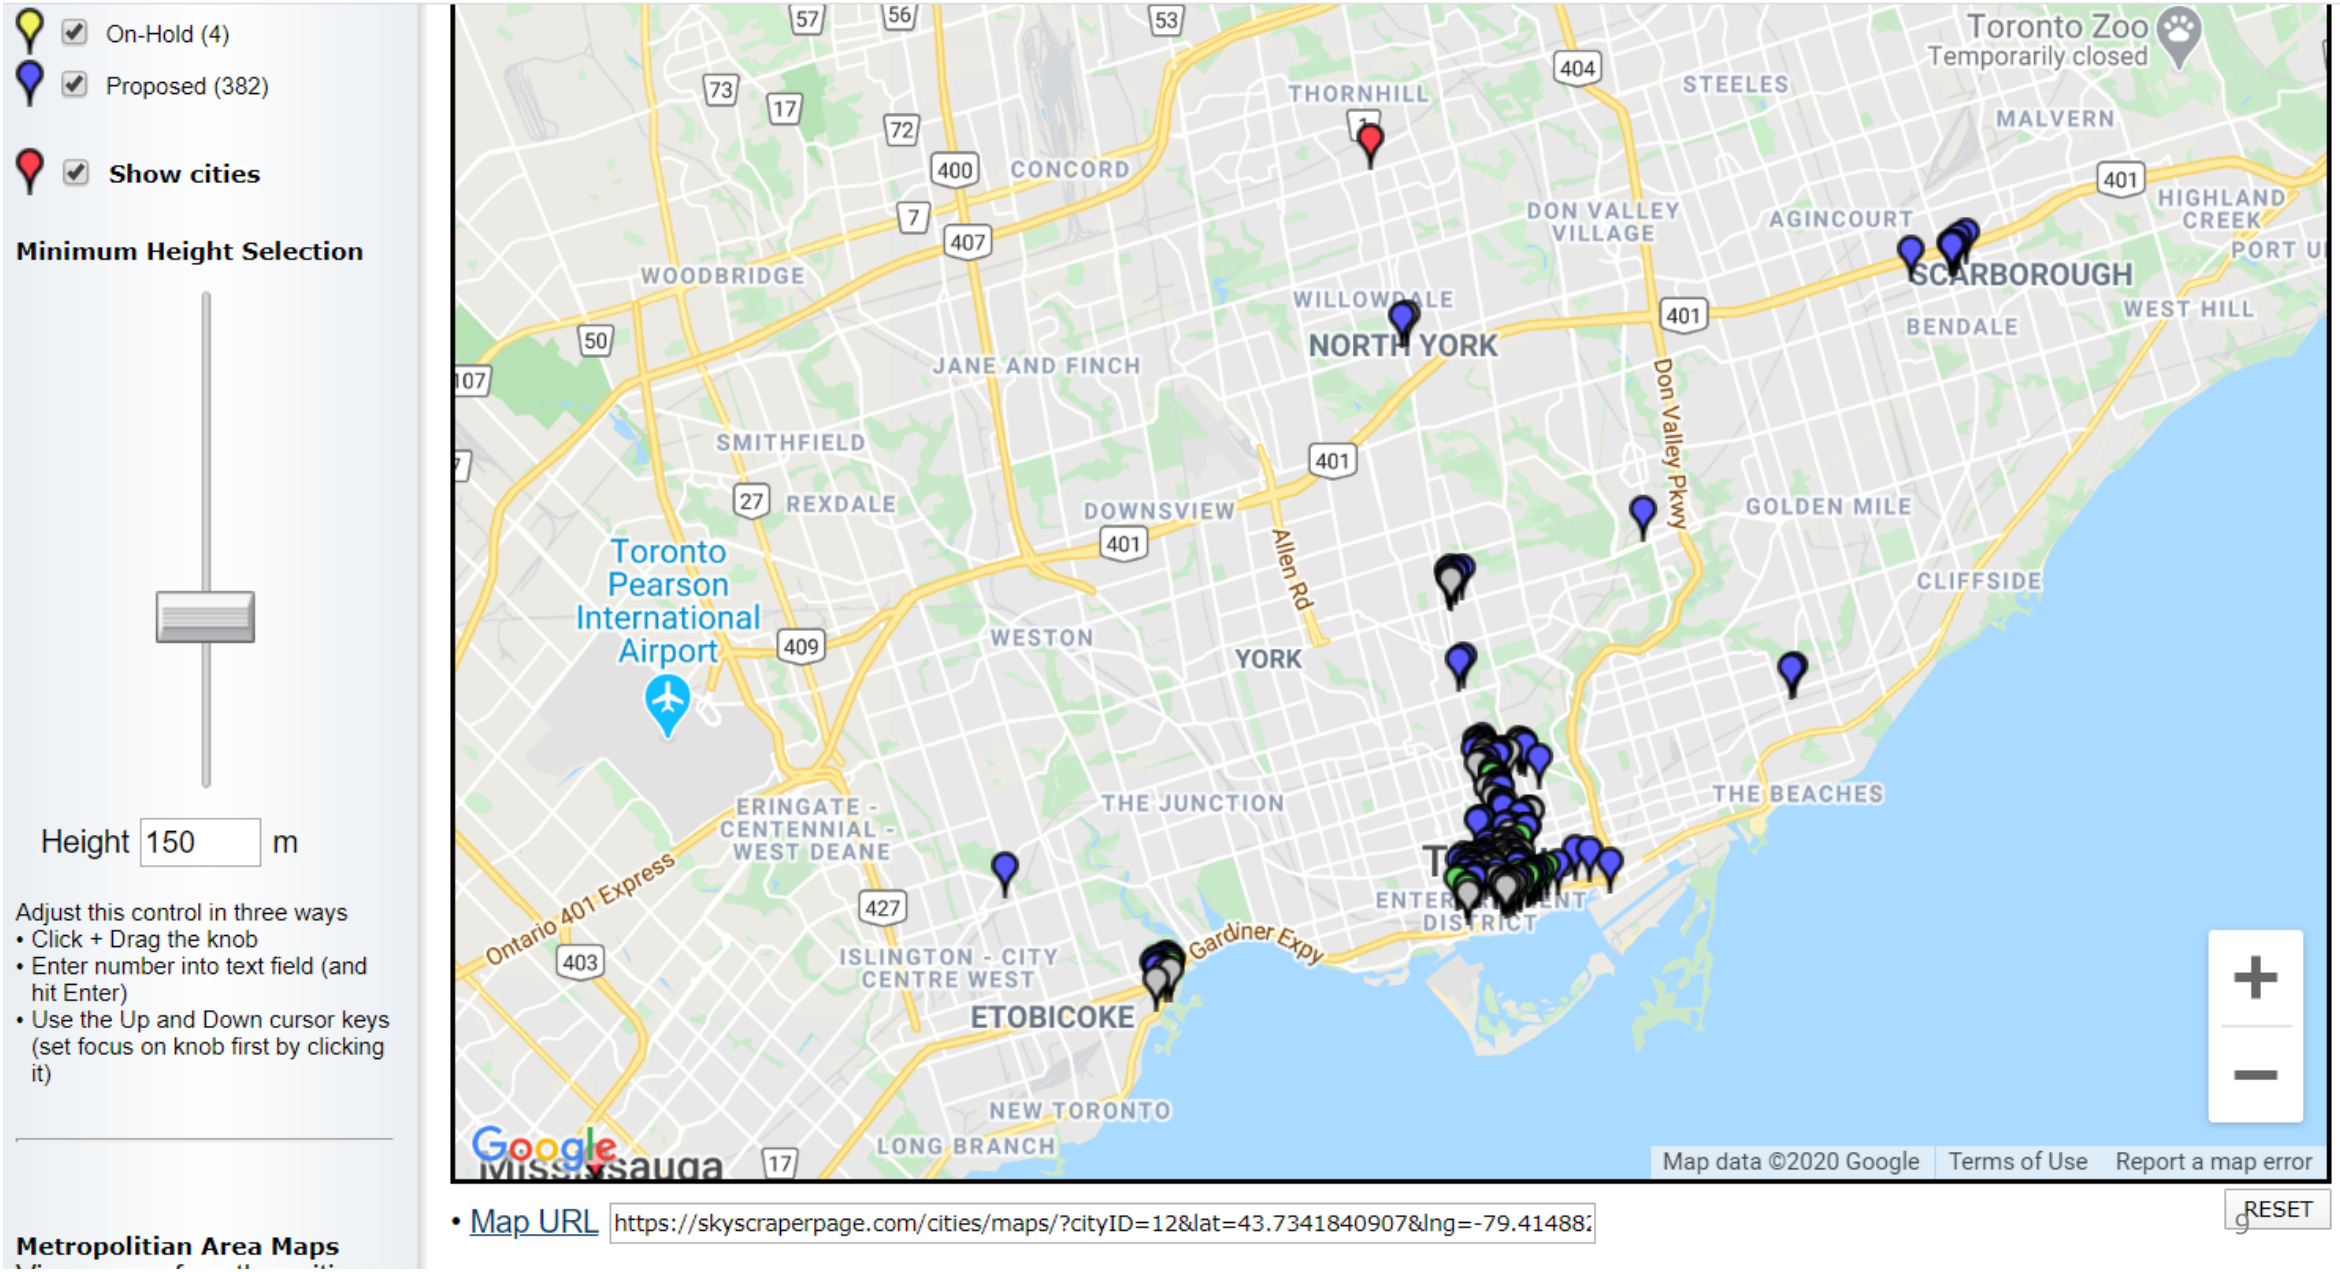
- The Vaughan Metropolitan Centre will be the City’s downtown. It will have the widest range of uses and will have buildings of various sizes, **including the tallest buildings in the City.**
- Primary Centres will accommodate a wide range of uses and **will have tall buildings, as well as lower ones, to facilitate an appropriate transition to neighbouring areas.”**

Comparison of Mizrahi Proposed Height (150m~45 storeys) vs. Vaughan locations



• Map URL https://skyscraperpage.com/cities/maps/?cityID=2797&lat=43.8024056210&lng=-79.474

Mizrahi proposal (150m~45 storeys) compared to City of Toronto



In Conclusion…Yonge-Steeles is not the VMC or Yonge & Bloor

- Council approved a Secondary Plan for Yonge & Steeles in 2010 that factored in a subway station and intensification as a Primary Centre
- Even though under LPAT mediation, the Secondary Plan is reasonable and meets Provincial and City planning objectives
- Mizrahi has not provided any objective evidence to support additional heights and density beyond the approved Secondary Plan
- Even if we were to consider 45 storey height, it is 150% above comparable benchmarks in Vaughan and Toronto;
- **We urge Council to tell Mizrahi to return with a proposal that respects and works within the current Yonge-Steeles Secondary Plan;**
- Otherwise start over with a new Secondary Plan that involves residents

Subject: [External] Proposed Developments at Yonge and Steeles

Dear Mr. Coles,

Please register my strenuous objection to the proposed development plans for the Yonge and Steeles neighborhood which are coming up for review by the council this week.

The proposals are way beyond the secondary plan limits and will destroy our environment much like the Yonge Street corridor in North York which has been turned into a concrete jungle.

The roads in this area of Vaughan are already clogged with traffic and there would be heavy challenges to all aspects of the city's infrastructure.

I am sure that I am not alone in thinking that no new mass developments of high rise buildings which will bring an influx of people into the area, should be planned until we have a more than adequate public transit system.

Buses, on the current overcrowded roads cannot move enough people. We need subway systems. Building bus lanes in the middle of the roads is also NOT a solution – we need to be able to move masses of people to and from work on a daily basis.

The residents of Vaughan have been given no opportunities by the developer to provide feedback about these proposals.

Clearly, they are not concerned about their impact on Vaughan, and their only concern is to exploit our city to their maximum profit and personal gain.

Please keep me informed of any actions Council may take on these proposals.

Subject: [External] objections to proposed development on Steeles Avenue

Dear Mr. Coles:

Please register my strenuous objections to the proposed development plan for the Yonge & Steeles area.

My strenuous objections are based on the following eight stark but unarguable facts:

1. The proposed density is between double and triple what is allowed in the Secondary Plan

2. The proposed height is higher than double what is currently allowed in the Secondary Plan

3. Such unusually high density is only appropriate for the centre of the city, not for a residential area, as the Ontario Municipal Board once used to maintain

4. The proposals do not enhance the existing neighbourhood, but in fact will almost certainly help to destroy the character and local essence of the neighbourhood

5. The proposal will deeply detract from the present character of the neighbourhood in the sense that this is and has always been primary residential

6. The facilities being proposed are only for the benefit of the residents who would occupy the proposed developments

7. Little to no consultation with the community and the local citizens has been attempted, and it certainly seems as if someone is trying to rush these proposals through

8. The existing facilities and the local infrastructure of the community cannot support such an enormous bulge in population, which would be high-handedly imposed on the residents of Thornhill

Please keep me apprised of any actions which Council may decide to proceed with on these untoward and undesirable proposals.

In fact, I am deeply disturbed and distressed that council would even consider this plan, which flies directly in the face of what is in the best interests of the residents.

The mere consideration of such a destructive proposal expresses disregard for what is good for the residents of Thornhill, and seems to work in favour mainly of developers and politicians, not the ordinary people of Thornhill.

Yours sincerely,

Kenneth H. Green

On a personal note I am a senior and have lived most of my adult life in Thornhill My husband and my life will be greatly affected by the huge traffic and number of people shopping, driving , walking etc in this lovely community I call home.
I would be happy to meet with you on Zoom and express to you how you would be damaging my life and all of us in these buildings and we are the ones that have through our tax dollars built Thornhill. Also looking forward my Grandchildren live in this area as well. They will not be able to cross the street , ride their bikes, get safely to school, etc with the road traffic this will cause. We have had to change the right turn light at Hilda and Clark because of safety imagine adding thousandS and thousandS of people going to the shopping centre right across the street. I could go on for hours.
Please PUT OUR SAFTEY BEFORE YOUR DOLLARS BETTER SAFE THAN REALLY SORRY ESPECIALLY WHEN YOU CAN DO SOMETHING NOW. REMEMBER WE COULD BE YOUR MOTHER AND YOUR CHILDREN. Would you do it to them and face the consequences? Think about this long and hard

Dear Mr. Coles,

Please register my objection to the proposed development plans at the Yonge & Steeles neighbourhood.

The proposed density is between double to triple that allowed in the Secondary Plan. There is no way the existing facilities/infrastructure can support such a large increase in population.

I am aghast that City Council is considering moving forward with it.

I ask that the local community be allowed to weigh in on such a dramatic change to our neighbourhood.

Please keep me informed of any actions Council takes on these proposals.

Subject: Re: [External] Proposed Development Plans at Yonge & Steeles Neighborhood.

Dear Sirs,

Further to my earlier email I wish to add that development along Steeles West from the Yonge & Steeles Neighborhood is not a bad thing but it must wait until the infrastructures are built first or at the same time.

Similar to the Vaughan Metropolitan Centre, a subway station should first be built at Yonge & Steeles linking to Finch Subway Station before such huge towers of condominiums should be allowed. Moreover, more business towers like the KGMP Tower at VMC, should be encouraged at the same time to encourage employment opportunities and a higher tax base for more and better facilities for residents in this neighborhood.

Thank you for your kind consideration.

Yours Sincerely,

Thye Wong

Subject: [External] Files OP .19.014, Z.19.038 and 19T-19V007 Regarding COW meeting July 8, 2020

July 12, 2020

Good day Mayor Bevilacqua, members of Vaughan Council and City Staff and copy to the Honourable Minister of the Environment and Climate Change,

On behalf of my parents Nancy and Antonio Antonelli, we are writing to you all to communicate our disappointment with your *performance* Mr. Mayor and that of the Vaughan Council on Wednesday July 8, 2020. I want to stress the word "performance" as it appears to the community as a scripted response to Mr. Mark Flowers' deputation. It appeared the questions were prepared and rehearsed after hearing the deputation from Mr. Flowers. We found it interesting that the lawyer from KVG was not asked one question when he noted the concerns with the report prepared by the City of Vaughan staff.

We have sent various communications to you and the staff about our concerns with the Board of Trade Golf Course Development including the most recent one 24 hours before the COW meeting that asked for the staff specifically to share with us any amendments to the formal plan for development:

"Please share with me the amendments to the development as I was told that the developers have removed the entrance at 241 Wycliffe Avenue. I have been advocating for

my parents on our opposition to this entrance and I would like written confirmation before the COW meeting tomorrow."

On the morning of the COW meeting July 8 at 9:08am. The senior planner from Vaughan stated the following reply:

A revised submission regarding the above referenced applications has not been received to-date. The PLANit website will be updated upon the submission of revised plans and/or reports.

Regards,
Clement Messere, BAA, MCIP, RPP
Senior Planner

Mr. Bevilacqua, you and your staff were ALL aware of the changes noted in Mr. Flowers' deputation as Ms. Linda Jackson stated the following in an email to another resident one day before the reply from Mr. Clement Messere:

From: *"Jackson, Linda" <Linda.Jackson@vaughan.ca>*
Date: *July 7, 2020 at 2:22:04 PM EDT*
Subject: RE: [External] Re: Clubhouse Developments Inc., 20 Lloyd Street (Board of Trade Golf Course), 241 Wycliffe Avenue, 737 and 757 Clarence Street Files OP .19.014, Z.19.038 and 19T-19V007

Good afternoon, Thank you for your email and sharing your concerns concerning the Board of Trade redevelopment project. ***I note that you are requesting that we opposed an access/egress onto Wycliffe Avenue at 241 Wycliffe. I can inform you that the applicant has removed that road and has also agreed to widen the width of the lots backing onto established residential homes in that area. With this change, there will not be any vehicular traffic going through the Wycliffe subdivision as all traffic will exit via Clarence, Gamble, Waymar Heights and Davidson****. This information will be confirmed by the applicant tomorrow evening at the Special Committee of the Whole.*

Linda Jackson
Regional Councillor

Mr. Flowers noted these proposed changes without anything in writing. You and your staff declined peer reviews, and alternative studies based on hearsay! I do not agree nor buy into your narrative about developers and what the possible gifting of 200 acres would mean to the city, this land will be damaged and is already non-developable. I feel you made a poor decision based on bias against our community and what we stand for. We agree that all cities and towns need Developers/Builders to grow and yes, they are an integral part in providing prosperity…but at what cost?

Finally, we all know you acted partiality towards the Developer and we know they will do anything they can to WIN your vote. It is ironic the new information and 200 acres of land was offered to Vaughan and broadcasted on the evening a vote was in order for an ICBL! The developers have hired the best professionals money can buy. Obviously, their legal representative Mr. Flowers knew how to play this political game, you all know so well. You and your team hosted private meetings with the developer and when asked blatantly, you provided me scripted answers yet made a decision on undocumented information. It was very unfair we had to hear new information after 3 hours of the community's deputations. Why didn't you start with the new information to give us all a voice (since you knew all the

information)? This was orchestrated and planned. This act reinforces the corruption and lack of community involvement. You have turned your back on us and our rights, not listened to our voices and this is the foundation of my disappointment.

Your honour Wilkinson, the following was raised by one our community members and I wish to share this with you. This massive development goes against the York Region Official Plan:

> • 2.1.1 To protect and enhance the Regional Greenland's System and its functions shown on Map 2 and to control new development and site alteration within the vicinity of the System in accordance with the policies of this Plan.
>
> • 2.1.9 That development and site alteration be prohibited within the Regional Greenland's System and that development and site alteration applications within 120 metres of the Regional Greenland's System shall be accompanied by an environmental impact study."

These policies emphasize the protection of the Greenland system and condemn development within it. THE BOARD OF TRADE GOLF COURSE IS A PART OF THE GREENLAND SYSTEM. **This application clearly and blatantly contradicts the very essence of Chapter 2.**

The meeting on July 8th was a travesty of the democratic process, reaffirming that the current City administration cannot be trusted due to the lack of transparency in the process.

When Linda Jackson prompted the lawyer representing Clublink Developments Inc, to explain their proposed amendments regarding the road on Wycliffe Ave he stated he would like to make 241 Wycliffe an emergency vehicle access point. This alternate solution is unacceptable and we all know it is just a farce to get an approval. We know that Gamble, Davidson and Clarence will not be able to handle the traffic and it is only a matter of time that the emergency access point is transformed to a ROAD.

As we stated in our deputation, the traffic studies are flawed and no traffic study was conducted on Kiloran and Islington only 200m from the entrance of 241 Wycliffe and 700m from Islington Avenue.

Call to action: We would like to hereby request a formal reply to why the City of Vaughan did not require a peer review or identify why Kiloran and Wycliffe and Kiloran and Islington Avenue was not studied. Since those two streets were omitted from any formal studies regarding this development, why is there a street light proposed in the map on the traffic study conducted by the Developer on Kiloran and Wycliffe Avenue? We also want to reiterate that a new traffic study during COVID is not acceptable.

We want to close with our opposition to the emergency vehicle passageway on 241 Wycliffe. This will damage the landscape of Wycliffe Avenue and create a traffic travesty alongside a massive reduction of land-value for my parent's home on 233 Wycliffe among other homes on the street.

With disappointment,

Monica Antonelli Guido, Nancy and Antonio Antonelli

Subject: [External] The City of Vaughan leads in caring for the Mental Health of the residents - Why not?

Good day Hon. Mayor Bevilacqua and esteemed council members,

I would like to thank you, **Mayor Bevilacqua, Councillors Rosati, Jackson, Racco, Iafrate, Carella** and all other Councillors who shared the sames views in what I see as positives that came out during the special COW meeting on July 8, 2020 which discussed issues related to Board Of Trade golf course development application.

The council members acknowledged the importance of caring for the mental health of the residents, started a dialogue with the applicant's representative to confirm the applicant's promise to donate around 200 acres of green space to the city of Vaughan (free of charge), showed personal interest in being part of a task force to look after the residents' concerns and tried to dig for the root cause of the residents' anger and frustration in relation to the application at hands.

The proposal to transform 200 acres of open green space from private lands to public parks is going to undeniably improve the health (mental and physical) of the residents who live nearby.

If you agree that the health of the current residents who back onto the BOT golf course is of similar importance as well, then please continue to read my email further;

The science of environmental psychology has developed a lot in the past decade and has resulted in lots of researches to guide urban planners on how to make cities healthier and more livable. In Canada, we have experts who have researches in the same field and are already helping municipalities and cities both at the domestic level as well as internationally.

These experts can help shape any proposed development/s in a way that makes it healthier for the current/future residents while still keeping them financially viable for the developer/s. They can also help the city communicate both good and bad news to the residents in a more palatable way and can certainly give some valuable guidance to help resolve conflicts which emerge between the concerned parties. This is needed today more than ever, while the city is

discussing the biggest infill project in the history of Vaughan, which, unfortunately, is being discussed under the unusual circumstances created by COVID-19 pandemic.

If you agree to this, then it might make sense to consider hiring an environmental psychology consultant to review the deputations from the residents, the remarks from the planning staff on mental health and your own responses to the residents during the July 8th COW meeting. The consultant can then advise on what was done well and what can be done in a better way.

As mentioned in the report from staff, the proposed development has a precedence from developments on privately owned open spaces in the past and for sure it is a major concern for the residents who currently live next to the BOT Golf course, in addition it is of the same importance for residents who live next to other similar open green spaces such as **Maple Downs Golf & Country Club (Ward 1), The Eagles Nest Golf Club (Ward 4)** and **The Thornhill Club (Ward 5) and others** who might go through the same in the future and who would want to see the city of Vaughan handling proposed developments on such open green spaces with sufficient care.

I have contacts of consultants which I can forward to you and I'd volunteer to be part of a task force if you think this would be useful.

Thanking you for reading my email and looking forward for your support on this matter.

Best regards,

Well done Monica. Unfortunately this Council will not listen to a single word we say.
It's the price we, the residents, pay because of lack of interest and lack of common sense at election time. We elect and re-elect the same worn out people. This seems to give them the licence to do as they please as if the City was thris little kingdom.
I just wish the residents, the voters of this great city (no thanks to our politicians) will one day wake up and turf the whole lot.
None of them can be trusted.

When Linda Jackson prompted the lawyer representing Clublink Developments Inc, to explain their proposed amendments regarding the road on Wycliffe Ave he stated he would like to make 241 Wycliffe an emergency vehicle access point. This alternate solution is unacceptable and we all know it is just a farce to get an approval. We know that Gamble, Davidson and Clarence will not be able to handle the traffic and it is only a

matter of time that the emergency access point is transformed to a ROAD.

As we stated in our deputation, the traffic studies are flawed and no traffic study was conducted on Kiloran and Islington only 200m from the entrance of 241 Wycliffe and 700m from Islington Avenue.

Call to action: We would like to hereby request a formal reply to why the City of Vaughan did not require a peer review or identify why Kiloran and Wycliffe and Kiloran and Islington Avenue was not studied. Since those two streets were omitted from any formal studies regarding this development, why is there a street light proposed in the map on the traffic study conducted by the Developer on Kiloran and Wycliffe Avenue? We also want to reiterate that a new traffic study during COVID is not acceptable.

We want to close with our opposition to the emergency vehicle passageway on 241 Wycliffe. This will damage the landscape of Wycliffe Avenue and create a traffic travesty alongside a massive reduction of land-value for my parent's home on 233 Wycliffe among other homes on the street.

With disappointment,
Monica Antonelli Guido, Nancy and Antonio Antonelli

COMMUNICATION – C135
Council – July 15, 2020
Special Committee of the Whole
Report No. 33, Item 1

July 13, 2020

Dear Mayor and Council Members,

Regarding July 8th 2020 Virtual COW meeting Vaughan Council Refusing to adopt an Interim Control Bylaw for the Board of Trade Golf Course,

A majority of community members voiced their unwavering opposition to the proposal to add up 12000 new homes on the Board of Trade Golf Course. This despite Council's questionable decision to hold this meeting during a global pandemic. The virtual medium from which this exercise in democracy was utilized was anything but democratic. With many of our elected representatives choosing to not look the community in the eye when they made a decision to change their lives forever. The members of Council, staff in senior leadership positions relevant to this proposal, as well as the lawyers for both the applicant and Keep Vaughan Green should have been able to safely social distance themselves using overflow rooms and space in the viewing gallery to ensure that no more than 10 people where in the same room at the same time. Council's decision to move the meeting from a re-scheduled Fall date to a July date should not have occurred as making a decision on the ICBL virtually did not resemble the structure and process of a regular Committee of the Whole meeting. A motion should be made to review the ICBL once Vaughan can resume normal functioning. The community has grounds to appeal Council's decision as our elected representatives represented us at diminished capacity relying heavily on the recommendations of unelected City of Vaughan staff.

The decision to hold a virtual Committee of a Whole meeting during a pandemic limited civic engagement and in our view is an exercise of bad faith towards members of our community given the consideration that staff has shown their bias in maintaining a more consistent dialogue with the applicant than the community.

This electronic meeting of the COW took away the right of a great number of citizens to fully and adequately participate in the decision-making process that

will impact their lives for many generations to come. Those citizens who were able to view the livestream had to suffer the many electronic glitches that occurred. At one point the community's legal counsel had difficulty communicating his position to staff. After all the telephone deputations, the only person that was questioned repeatedly and at length was Mr. Flowers, the attorney for the applicant who coincidentally was the last person to give his deputation. Mr. Flowers was conveniently kept on line and was given much more than 5 minutes of time to state the applicant's case. Why wasn't the same courtesy given to Mr. Donnelly? Once again it appears City staff and this Council has seemingly tipped the scales in the applicant' s favour. This is particularly problematic as Regional Councillor Mario Ferri has direct conflict with this proposal and has regular communication with City Staff.

The Mayor claims that he wants to hear from the citizens of Vaughan and yet he continues to stifle their voices. Even after Council was told that its staff report on the merits of the ICBL was riddled with grossly over-estimated costs to conduct studies that assess the community impact. Council sided with the staff report without proper due diligence and oversight by Councillor Tony Carella, the Mayor Maurizio Bevilacqua and all Regional Councillors.

Stating that an ICBL is not necessary, too expensive and too time consuming is simply not good enough. An ICBL is the only protection this community has from an applicant with the means to impact the daily livelihood of everyday citizens of Vaughan. It allows for legally binding and a comprehensive review of community impact that would add an unbiased and credible review of the applicant's proposal. This council has refused to adopt an ICBL and has demonstrated that it will not be present to ensure the protection of our property, and existing infrastructure systems.

Listed below are concerns that must be addressed in a new application in order for a Planning amendment to be approved. An ICBL must be accepted by this council in order for this application for rezoning to be considered. Refusal to accept an ICBL will leave the City of Vaughan and the community in a prostate to a myriad of unintended consequences that may incur unforeseen costs, and irreparable damage to a reputation of stewardship Natural Heritage Systems in Vaughan. I expect direct responses to the concerns listed below from Ward 2 Councillor Tony Carella, Regional Councillor Gino Rosati, Regional Councillor and Former Mayor Linda Jackson and Mayor Maurizio Bevilacqua. We are disturbed by the level of access that Deputy Mayor Mario Ferri has to the planning department as he is in a position of conflict with regards to this proposal.

The proposal overreaches in its intention as it demonstrates an irresponsible increase in the density that is inconsistent with the mature character and traffic flow of our community.

The following concerns must be addressed to ensure that this development satisfies the City's and Communities best interests in the preservation of Natural Heritage Systems and Infrastructure.

Concern 1- Linkage of Proposal into Existing Water Supply Servicing Infrastructure

An application to our existing water supply system is unacceptable to this community considering the City's lackadaisical approach to managing our current water supply. Given the city's recent poor track record of efficiently administering a system of water infrastructure the current residents do not feel confident that this current proposal will be without impact considering mature infrastructure will be faced with demands of increased loads.

In 2019 Vaughan Director of Internal Audit noted that over the course of 2 years only 1 of 18 recommendations made in a 2017 report were satisfied with regards to the City's drinking water. This is unacceptable and a failure of the Council and City Staff to exercise their due diligence to monitor the health and safety of residents in Vaughan.

To add insult to injury in 2019, a $ 210 Million dollar lawsuit was issued to Mayor Bevilacqua and this council alleging that surplus water money was misappropriated to serve budget deficits and sole source contracts related to the Vaughan Hospital. This misappropriation of taxpayer's dollars may not meet the threshold of embezzlement is a prime example of how this council acts in bad faith towards community members. Why was surplus money reallocated instead of being used to regulate and monitor Vaughan's drinking water? This community requests an Interim Control By-law to assess factors such as water pressure and drinkability before an infill development of up to 1200 new residents is accommodated into the existing infrastructure.

If the City of Vaughan, Mayor, Council members and staff continue to be negligent in satisfying basic recommendations with regards to drinking water they cannot move forward with this proposal. Adopting an Interim Control By-law that

assesses this proposal's impact to drinking water of residents could mitigate any unforeseen risks to public health.

Concern 2- Linkage of Proposal into Existing Sanitary Servicing Infrastructure

The current proposal seeks to add 60L/s of sanitary services to Vaughan's existing sewage system on Clarence Road. In addition, this infrastructure is situated next to the Humber River within the boundaries of the floodplain. Recently in Toronto we have seen residents impacted by severe weather with sewage coming through their basements. It is our concern that cracks in existing and aged infrastructure may occur due to the increased load which may result in spillover into community dwelling existing on the flood plain and a degradation of the water quality of the Humber River.

Adopting an Interim Control By-law that assesses this proposal's impact on the functionality of existing wastewater infrastructure could mitigate any unforeseen damage that may be created by the applicant's proposal. It is essential that the risk the City is taking on by incorporating this development into current infrastructure comes with conditions that would have the applicant pay the expenses for any damages caused by their proposal. Findings from an ICBL would give the City evidence with which they may approach the applicant for reparation should the infrastructure additions made affect existing homes and city water utilities.

Concern 3- The establishment of a Storm Water Management Pond too close to a road in a TRCA flood plain.

Currently the subject lands on the North End of the Board of Trade Golf Course drain naturally through a water course that drains into the West Humber River. This water course travels through an NHN enhancement feature that is >0.5 ha. The depression in the land made by this creek on the north end is apparent and will be filled to accommodate the applicant's proposal. The majority of the water on the North End of the Golf Course drains through this creek. The applicant is developing on the Board of Trade Golf Course knowing full well of this fact and have included current water flows into their proposed application. An Interim Control Bylaw must be adopted to ensure that residents within the new application are not adversely affected by the applicant's decision to build homes on unsuitable land. It is also imperative that a geo-hydrologist that is impartial assess the

presence and role that natural aquifers play on the subject lands to facilitate effective natural drainage. It remains uncertain if the North end of the Board of Trade Golf Course is suitable for development unless geo-hydrologists work on behalf of the community to ensure that properties old and new are protected from flooding once sudden removal of natural drainage systems of the Board of Trade Golf Course occurs.

The creation of Storm Water Management Ponds next to Clarence Street and the Humber River will no doubt increase the chance that damage due to flooding will occur along Clarence Street. This possibility must be put under scrutiny as council's decision to approve this development on unsuitable land will impact more than just the localized community but every citizen of Vaughan downstream of this proposal. The applicant cites that it will give back ⅔ of the land it owns when the development is created. What really is the value for that land if it is consistently flooded. It seems transferring part of the privately owned parkland into City ownership could introduce unforeseen liability for the City of Vaughan. It is essential that an Interim Control Bylaw is adopted to complete impartial studies that ensure that flooding risk is mitigated as much as possible to maximize the land- use and protect the assets of both the City and its citizens.

This proposal may significantly increase the flooding risk within our homes and community. Adopting an Interim Control By-law that assesses this proposal's impact on drainage of water and flood risk reduction could protect the assets of both our City and its citizens.

Concern 4- Development Behaviour of Builders in York region.

Over the course of our 30+ years in Vaughan we have witnessed more and more the irresponsible and destructive manner in which builders handle land they are building upon. This includes the creation of dust clouds, discarded construction materials, degraded soil quality and the creation of towering landfill mounds just to list a few. Development is not a temporary convenience; it is a lasting inconvenience. What is left behind after a development is completed is unregulated and not policed by municipalities in York Region. The community is fearful of the lasting impacts of homebuilder's irresponsible behaviour. They also fear the use of heavy machinery to bully, intimidate and generate noise to purposefully slight residents. This has happened in Ward 2.

The social media account Rescue Rainbow Creek_ West_ Inc. has shown some pretty disturbing footage of deplorable activity conducted by homebuilders.

In one video, heavy machinery is directed to push landfill directly within 5 meters of a resident's fence. Video shows a dump truck dumping an entire load of landfill to the point that it is practically spilling over into the resident's property as a large mound continues to grow. The mound ends up towering over the house of a resident. At one point, residents called Bylaw officials to enforce the bad behaviour and nothing was done to address the matter.

We will not tolerate being bullied by a builder's use of heavy machinery to bully, intimidate and be accosted by their staff. This project should not be approved if it requires the creation of mounds close to a resident's property. The City thus far has not demonstrated in the instances I have seen, the will to protect citizens from the reckless behaviour of builders. For this reason, the buffer between the new residences and our property should be at least 20 meters. There is a natural depression in the land directly behind our homes between lots 56 and 55. We expect that this land remains unfilled and that no heavy machinery comes within 20 meters of our property line. Also, directly behind our property (lot 57) are remnants of a farm house that once stood between lot 57 and 56. Some of the items buried under the ground include a large iron stove that was uncovered in a Phase 2 Archaeological assessment. The removal of these artifacts will involve the use of heavy machinery. Given what we have witnessed and the law enforcement's unwillingness to address concerns about land-owners using heavy machinery to bully residents; we request that the subject lands immediately behind our property remain unaltered.

We ask this because Councillor Tony Carella has proven to have ineffectively addressed the concerns of citizens who immediately abut the development project site on Campania Court.

For a development proposal to be accepted, stronger bylaws and increased fines should be adopted to ensure that heavy machinery is not used irresponsibly. The bylaw should also include a provision that prevents the practice of leaving behind large landfill mounds after projects are completed.

Concern 5 - Bias towards Developers and Culture of Fear Amongst City Staff

Two years ago, staff advised City Council that an ICBL was not necessary because the applicant withdrew its application. City staff had a full two years to complete the necessary studies that KVG had asked for. For two full years, there has been little to no cooperation between KVG and City staff through no fault of KVG.

It is apparent there has been no meaningful conversations about the ICBL. The inclusion of dissenting ideas of Planning staff in the City of Vaughan is seemingly not rewarded. This is particularly concerning because the Deputy Mayor is in direct conflict with this proposed development. This is also particularly concerning because Mayor Bevilacqua was given a paid position as the Vice Chair of Versabank, a bank which primarily deals with land development financing. Was he granted this position in exchange for support for the sale of the Toronto Board of Trade Golf Course?

The Mayor has recently received further scrutiny from the integrity Commissioner for endorsing a Toronto-based developer's appointment to the Italian Senate even though he was affiliated with a party that promoted the closure of Mosques and backed an aggressive anti-immigration policy. It places doubt as to whether Mayor Bevilacqua values an inclusive and democratic society he claims to uphold. When pandering to the private interests, time and time again, this council has fallen to troubles that could have been easily avoided. It is time to listen to citizens. With all these things considered at the July 8th COW meeting, Mayor Bevilacqua had the nerve to imply that our opposition is based solely on the grounds of NIMBYism. This community has legitimate concerns about the impacts of development activities on their personal property and City assets. Council's bias is clear as we have been only granted 10 days to compile concerns, send notice and advocate for a meeting to address community concerns in the midst of pandemic closures.

In 2016 an Internal Audit showed that the City of Vaughan staff are reluctant to speak up about injustices they see. City Staff anonymously submitted grievances stating that they dealt with issues of hiring irregularities, discrimination, favouritism and harassment. Also, complaints showed a misappropriation of finances and related business integrity, conflict of interest and vendor issues. Reports such as these undermine the trust that Vaughan citizens have in the current planning staff to protect the community they are paid to serve. Given all of this, when staff recommends against an ICBL the credibility of their opinion should be placed under heavy scrutiny.

Adopting an Interim Control Bylaw allows for conducting impartial and unbiased studies and is an exercise of restoring community trust. On July 8, the citizens of Vaughan were hoping that City Council would restore some semblance of trust and integrity from their elected officials. Once again, Vaughan citizens were disappointed and felt somewhat betrayed by their representatives at City

Council. The lack of trust that exists between City Council and its citizens has widened even more. We are more skeptical about Council's inability and unwillingness to represent the best interests of hard -working, law-abiding taxpayers of Vaughan.

We are not against development but it has to be done properly with the best information available to us and most importantly the citizens must be engaged in a meaningful manner in the planning of such a large in-fill development project. Developers come and go but the citizens of Vaughan have to live with the effects of such ill-advised planning. Our infrastructure can hardly accommodate the traffic that presently exists. Day after day, the citizens have to face and drive through this gridlock. This particular development will only exasperate an already bad situation. The traffic volume increase not only undermines the local ecosystem but will have a lasting impact on community's health and well-being.

Mayor Bevilacqua stated that a large portion of land would be gifted to the city if the developers get what they want. The City of Vaughan would use this land as green space for all citizens to enjoy. The land that will be given to the City by the developer cannot be built upon. It is not a gift but an admission that the land they had erroneously purchased is not suitable to build upon. The increase in density in this most recent application is not an attempt to diversify housing options but a way to maximize profits within the limited space that this infill opportunity provides.

The applicant made an expensive mistake in purchasing this property. The citizens of Vaughan do not intend to pay for that mistake for generations. The citizens of Vaughan welcome their proposal but are in opposition to it because the subject lands may be unsuitable for the scale of residential development they seek to embark upon. This proposal has the potential to damage Vaughan's assets as well as citizen's property, and will forever change the dynamics of the ecological functions that the golf course currently serves wildlife.

Such projects need to be studied more thoroughly hence the urgent need for an ICBL. The old adage states that an ounce of prevention is worth a pound of cure. By working together and really listening to the concerns of ordinary citizens, City Council can do it right and not stumble down the path of the unknown.

The July 8th livestream of the COW meeting was an affront to this community. It was not about transparency, openness and fairness. This meeting was a hollowing out and silencing our democratic right to dissent. I expect correspondence with direct answers regarding these concerns before the July 15th meeting. The citizens of Vaughan demand to be heard. We all expect answers to these many questions.

Thank you for your attention to these matters.

To: Clerks@vaughan.ca; Messere, Clement <Clement.Messere@vaughan.ca>
Subject: [External] Fwd: DEPUTATION - Clubhouse Developments Inc.

Attn: Office of the City Clerk:

My name is Darendra Mark Persaud and i reside at 138 Wycliffe Ave, Woodbridge ON L4L 3P2 647-2427698. I am strongly against this proposed development.

This is to confirm that myself and my family that reside at 138 Wycliffe Ave are strongly opposed to the proposal that would subject Wycliffe and Kiloran Avenue to additional traffic from the proposed new development. There are already long delays during rush hour along Kiloran avenue, exiting onto Islington Ave. More traffic will only lead to greater congestion and make our streets far less safe than they already are.
I can speak first hand as I have a stop sign in front of my house and 90% plus of existing traffic do not obey the stop sign and it is difficult to get in and out as it is.. I can only imagine how much worse it would get if this development moves forward. Again I reiterate I am strongly opposed to this initiative moving forward.

Regards,

Darendra Mark Persaud

Subject: [External] July 15 2020, Council Meeting Item 3 SPECIAL COMMITTEE OF THE WHOLE REPORT NO. 33

Good evening Mr. Coles

Please post this communications as it relates to Item 3 of the July 15 Council Meeting.

Good evening Mayor and Members of Council

I have received many emails from residents since the outcome of the July 8 Special Committee of the Whole meeting regarding the proposed Clubhouse Development. As a result of the decision of Council, there is a deep sense of disappointment, betrayal, resentment, disrespect, bias, anger and shock at the manner in which they

were treated. Should Council's decision be upheld on Wednesday July 15th, these sentiments will be become deep seated and long lasting. Aside from Councillor Carella and Councillor Iafrate support on July 8th, Council failed to support an established community of long time residents.

To start, many deputants registered to speak conveying well thought out concerns about the effects that the proposed development will have on their community. Their lawyer, who is paid by these same residents with hard earned personal funds, pointed out several inaccuracies in the staff report. This all fell on deaf ears as Members of Council chose not to direct any questions to the deputants or their lawyer and focused select questions to the applicant's lawyer, all of which failed to fully address any of their concerns. This was very disrespectful after the community waited 2 years to have their request for an ICBL addressed only to be ignored and sidelined on July 8th. Instead, Council engaged only with the applicant which in my opinion digressed into fear mongering of the ICBL request and a irrelevant "Happy Talk" about a potential park and an emergency access.

Several Members of Council, including the Mayor were intent on changing the narrative from the legitimate concerns of the community to a new narrative of an emergency exit and the dedication of park land to the city, neither of which addresses the serious issues articulated by the community. It became apparent that Council has already made their decision to support the applicant at the expense of community concerns.

What came out of the July 8th decision of Council was vague and left many questions unanswered. Such as;

1. The staff report suggested peer reviews of the applicant's reports, yet peer reviews were not part of the July 8 decision
2. There was talk of a task force involving residents and ratepayer groups, yet there was no mention of a task force in the July 8 decision
3. There was talk of the applicant resubmitting revisions, yet there was no scope or timing of those revisions
4. The applicant is requesting that the proposed development be part of the Woodbridge Secondary Plan, yet there is no timing or framework for conducting this review and allow for public input
5. Several flaws in the staff report and the traffic study were identified but not addressed
6. The lack of public transit infrastructure to support the proposed development was not addressed
7. Public health concerns such as mental health were raised but not addressed

I could mention many more concerns that were raised and not addressed. In the absence of and ICBL, Council has an obligation to this community to layout a plan and timing to address the numerous concerns. It is still widely preferred to use the frame work of an ICBL as the correct mechanism to address these concerns and more. Council has nothing to lose and everything to gain by adopting the request of

the community to implement an ICBL.

There is still an opportunity to do so at the July 15th Council meeting and restore confidence in the community that Council is working in the interest of an established community and long-time residents. The application before you is deeply flawed, especially in the area of transportation, environmental sustainability and the long term impact on the surrounding area.

Sincerely
Richard T. Lorello

[redacted] [External] Official Plan Amendment File: OP.19.011, Zoning By-Law Amendment File: Z.19.033

Dear Sir/Madam,

in regards to the above mentioned Notice of public hearing, I received a mail notifying me that the public hearing is going to be held next week.

I, Paul Antolin, the owner of residential house with address [redacted] Riverside Drive, Woodbridge, ON L4L 2L3, wanted to express my concern about the request from Naiman Consulting for above mentioned amendment.

Please be advised that such an amendment not only overpopulates the area by changing less than 6 residential houses to over 70 townhouse units, but more importantly will overlook our properties on Riverside Drive by changing single dwelling two-storey houses to 5 storey buildings! I am shocked why the city of Vaughan would even considered such an amendment in a narrow street in this area, which is also very close to east Humber River!

We would need to know:

- Who the developers and owners are
- What is the exact height of the buildings and if they are going to overlook my property.
- Would there be any green areas or the whole land will be turned into buildings
- How come there is no objection to cutting over30 trees and plants in the existing lands?
- Why there is no setback from the conservation area shown in the official plan?

I would really appreciate it if the city of Vaughan officials, specially those who care about the environment and the health of next generation, put stop on such an unnecessary change.

We were informed that there has been so many comments from TRCA which were not answered yet! Therefore we may have to discuss this with our city councillor and then take this to media.

Please update me via email of all the upcoming discussions re this issue. Thanks.

Best regards,

Paul Antolin

****** KINDLY PROVIDE A COPY OF THIS EMAIL TO THE MAYOR AND EACH MEMBER OF COUNCIL ******

Dear Mayor and Members of Council:

The Committee of the Whole on Wednesday, July 8th/20 was an exercise in futility.
Despite all the eloquent deputations, communications, evidence and facts presented, the Committee's decision to outright reject an Interim Control Bylaw shows just how out of touch this Council is with the voices of the residents of this City.

A development of this magnitude should not be rushed because it is not an average, typical project and the process requires due diligence and equitable consideration.

The proposed infill community of approximately 1200 units will add about 3,000 additional vehichles within a well-established residential area, which was not built for such capacity. The devastating effects will spill over onto other surrounding neighbourhoods as well. Where is the logic of building communities while destroying existing ones?

Furthermore, a proposed access to the infill community is situated within two residential properties on Wycliffe Avenue. This opening cannot be allowed under any circumstances! It is evident that homeowners agree that the mere mention of this access is offensive and repulsive.

Please, we continue to urge you to implement an Interim Control Bylaw to

allow the necessary time to study all important aspects of this undertaking. Let's get it right before it's too late.

Thank you.

Franca Stirpe

COMMUNICATION – C140
Council – July 15, 2020
Special Committee of the Whole
Report No. 33, Item 1

Tuesday July 14th, 2020

Good Morning Mayor, City Council and Staff

I am in utter shock of the blatant disregard from the mayor, city council and staff regarding the Board of Trade Development and the opposition for an Interim Control Bylaw. I participated in the deputations last week and could not believe the mayor's rhetoric about the 2/3 of the land being given back to the residents, which was merely a distraction of what the main concerns are. There was zero discussion of any substance or evidence to substantiate the legitimate concerns of the residents regarding health, traffic, and environmental and cultural concerns. It was great to see the support from Councillor Iafrate and Councillor Carella, but the fact that the other councillors are not hearing the residents is disheartening. There is still an opportunity at the July 15th Council meeting to restore confidence in the community and work for the interests of the residents.

Thank you for your time,

Rosalee Bello

			increased biodiversity, reducing heat Island effect (cooling summer temperatures), maintaining health and wellbeing (through direct connections to nature) to name a few environmental considerations. A full sustainable impact analysis should be completed prior to any municipal approvals are given."
Maurice Simeoni	Richmond Hill, Canada	2018-03-03	"We need to be mindful of greenspace and the sprawl of urban development for the sake of profit and greed. It's NOT about providing much needed affordable housing. Keep the lands green although the golf course in itself has limited use except for those who can afford to golf."
Elisa Moretto-Howard	Toronto, Canada	2018-03-04	"There are only but a few green spaces left in Vaughan...I have witnessed so many changes over the last 38 years that I have lived here. From sprawling farms and parks...we now have too much traffic, pollution, disturbance of environmental space for migratory animals....this development must be stopped. I thought Canada's goal was to try slow down global warming....why would Vaughan politicians think that the residents would want to contribute to global warming? This insanity must stop....the amount of high rises and homes being developed in Vaughan is astronomical and the roads are unable to sustain these negative changes....KEEP VAUGHAN GREEN! Let's try and create a sustainable future for our children!"
Genevieve Gee	Woodbridge, Canada	2018-03-04	"I regularly drive up Clarence instead of down Islington or Kipling so I can "go the nice way" replacing that beautiful space with homes is a terrible idea. Also - if we ever get another bad hurricane again those homes will be washed out. There's a reason there s a golf course on those lands"
Laura De Faveri	Vaughan, Canada	2018-03-05	"The area is already overdeveloped. Traffic on Islington (one lane) is horrific during rush hour. This would add even more vehicles to an already congested area. Not to mention the devastating effect that a development like this would have on the beautiful wildlife in the area. We cannot lose this green space!"
Olin Damiani	Toronto, Canada	2018-03-05	"What's next... Boyd Park??? Seems like the Mayor and City Council want to pave over every square foot of Vaughan."
Teresa Colangelo	Newmarket, Canada	2018-03-05	"What green space will be left for the future generations to enjoy?"
Kathryn Lloyd	Aurora, Canada	2018-03-05	"It's important to protect this urban oasis for all, humans and wildlife alike! It's the habitat for all sorts of wildlife, including many species that are at risk - the Bank Swallow, Eastern Wood-Pewee and endangered bat species, to name a few. To destroy 100 acres by building homes is unthinkable!"
Carlos Costa	Bradford West Gwillimbury, Canada	2018-03-05	"I support the cause!"

Name	Location	Date	Comment
Vera Mannica	Woodbridge, Canada	2018-03-05	"Toronto Region Conservation Authority - nothing but crickets.....Funded by hard working tax payers; are you just going to let the developers bulldozers, bull doze what you stand for?? Its an election year .....who's supporting "honest development" practices?"
Mark Magdr	Toronto, Canada	2018-03-06	"Stop greedy developers!"
Mimma Martinella	Vaughan, Canada	2018-03-06	"Mimma martinella"
Lauretta Santarossa	Toronto, Ontario, Canada	2018-03-06	"Keep the space green for all the people!"
Maria Capizzo	Toronto, Canada	2018-03-06	"Keep the space green for our grandchildren and their children!"
Seong Choe	Woodbridge, Canada	2018-03-06	"Let’s keep Woodbridge green. Let’s keep people united"
theresia arci	Woodbridge Ontario, Canada	2018-03-06	"My property backs on to proposed development. Must retain valuable green spaces!"
Nives Tessarotto	Woodbridge, Canada	2018-03-06	"We have enough houses and development in Woodbridge ... stop being so greedy to just make money on every inch of land! Enough already !!! Leave some green space with trees so we can all breathe !"
Sonja Cadman	Hamilton, Canada	2018-03-06	"Leave the green space for both people and animals to enjoy. Too much development going on"
george elia	Woodbridge, Canada	2018-03-06	"620 more houses with at least 1200 more cars, more congestion. Taking away more green space and moving toward a concrete jungle. Enough development already, Woodbridge still has beauty- leave it alone ."
Maria Strazzeri	Woodbridge, Canada	2018-03-06	"Leave this historic and memorable golf course alone. The Board of Trade has been around for decades and is well known all over. The green space on both sides of Clarence is the most peaceful and beautiful space. Just drive through Clarence or even walk and see the beauty and nature. You don’t find roads like this just anywhere. Birds chirping, deers crossing through, just amazing. Builders can pick on another Golf course, a newer one that has no history. Or better yet go find another area to build your glamorous homes. This area is already luxurious with the golf course and Boyd park surroundings. Let it be."
Theresa Di Marco	Woodbridge, Canada	2018-03-06	"As a resident on Wycliffe Ave. for 35 years we have the privilege of living in this beautiful area and having the golf course in our backyard. Any season the view is spectacular. Watching deers crossing by the greens and hearing the birds chirp has made our back yard a true resort experience. Cities fight for green space when developing on every corner and here we are in the most greenest areas of Woodbridge only to hear developers want to ruin it. Let the green space stay. The four seasons brings such joy and pleasure to our Canadian lives. Snow falling on the grounds, trees budding and blooming in the spring, summer greens and hearing the golfers

Name	Location	Date	Comment
			enjoy their day, and then fall with those endless colours of changing leaves. Hearing the Woodbridge Fest, seeing the downtown lights glittering through the trees, watching airplanes head towards the airport, No developer can ever replace this. Please respect all of us local and tax paying residents and move your development ideas somewhere else."
Andrea Lutzeier	Etobicoke, Canada	2018-03-06	"The re-development of beautiful historic golf courses for personal financial gain of real estate developers must be stopped. Read articles on the true future intentions of Rai Sahi, chairman and CEO of ClubLinks, (who also owns Glen Abbey Golf Club in Oakville, ON). Sahi isn't surprised that his proposal to close the Glen Abbey and redevelop it sparked local protests, but he says he's determined to proceed, no matter how long it takes. Sahi said the resistance in Oakville is similar to opposition ClubLink encountered in Aurora, Ont., after the company unveiled a proposal in 2014 to redevelop its smaller Highland Gate golf course in a joint venture with a local homebuilder. "It went through the same thing—had to go through the Ontario Municipal Board and all of that. It is now approved," Sahi said. We need to work together as a community, speak out and attend all meetings to help preserve and keep Vaughan green."
Manuela Pol-Bodetto	Woodbridge, Canada	2018-03-07	"Driving up Clarence is like driving up a mountain road in another country. And yet it's NOT in another country; it's right here in our beautiful country, our beautiful backyard, our beautiful nature. To the developers who want to spoil this beauty, would you were it YOUR backyard surroundings?"

Larry Rips	Vaughan, Canada	2018-03-07	"We are losing too many open spaces in the name of the almighty dollar."
Christina Laurendi	Woodbridge, Canada	2018-03-07	"Absolutely sick that this corrupt mayor, whose pockets are deeply lined by big builder money, has allowed these developers to destroy our little gem of a city. Woodbridge has become so congested and looks ill-planned, with hideous new townhomes and condos peering into the yards of many original subdivision homes in the area. STOP BUILDING - it's destroying the quality, uniqueness and desirability of our town!!"
Bonnie Lee Alford	Port St Lucie, Florida, US	2018-03-07	"Please stay true to the Heritage of this protected space. We are losing far too much of our majestic natural spaces, which can never be recovered, to Corporate greed. Richard Lorello	Kleinburg, Canada	2018-03-07	"We are witnessing a steady erosion of all of our environmentally sensitve green space in Vaughan. Its time to step up and say NO!"
Paola Cabral	Brampton, Canada	2018-03-07	"Paola"
Megan Fitch	US	2018-03-07	"I love pigs"
Margit Sampogna	Woodbridge, Canada	2018-03-07	"As a resident of Woodbridge for 35 years I have watched Woodbridge become a concrete jungle.Our leaders are destroying the environment we live in.This has to stop,we will continue to fight to save our green space."
FRANCIS Castelino	Brampton, Canada	2018-03-08	"Country Club has two of the best courses in Ontario. Keep them and dont build."
Lincoln Garraway	Brampton, Canada	2018-03-08	"This green space is needed."
Maureen Bayliss	Tottenham, Canada	2018-03-08	"This space also acts as a flood plain, and nothing should be built on it, as it will eventually cause flooding elsewhere when the water it now sponges up has no where to go."
Gerardo Contardi	Woodbridge, Canada	2018-03-08	"No to development of the country club"
Terry Ho	Mississauga, Canada	2018-03-08	"Great green space"
Tania Deighan	Vaughan, Canada	2018-03-08	"It would be sad to see such a beautiful green space turn into MORE development."
Adele McDougall	Woodbridge, Canada	2018-03-08	"Adele McDougall"
Carmela Corrado	Carlisle, Pennsylvania, US	2018-03-08	"A wonderful and beautiful green space that should not be touched and left for what it should be a golf course."
Frank Laugelli	Vaughan, Canada	2018-03-08	"The Golf course is part of the character of Woodbridge it’s like building Central Park innNew York plus you want to cut down beautiful grown trees while I’ve been waiting 2 years for the city to come and replace a tree in front of my house that’s contemned"
HEATHER SEMPER	Carrying Place, Canada	2018-03-08	"It is a gem of green space in a area that is being people densified at an alarming rate. Where will the coywolves go when development invades their space in the golf course? And it's Clarence St. It drives me crazy when the writer get's these things wrong. So, leave a beautiful calming space alone. Find somewhere else in Woodbridge to develop; like the article says - the traffic there is horrendous."
Dan Dominico	Toronto, Canada	2018-03-08	"I'll add my voice and it says NO to developing the green space at "The Board""
Kathy Dominico	Toronto, Canada	2018-03-08	"Absolutely 'NO' to development!!"
John Davis	Fenwick, Canada	2018-03-08	"keep developing and eventually we will have no green space - The Country Club is steep in history."

Umberto Ippoliti	Woodbridge, Canada	2018-03-27	"Noise pollution,air pollution,environmental/ecological destruction!This mature community does't need/deserve!Many of us worked and I repeat,worked a lifetime to be able to own a home in the community!"
Milan S	Woodbridge, Canada	2018-03-27	"Preserve the beauty of the Vaughan / Woodbridge lands.. it's like that of no other."
Luciana Pecchia	Vaughan, Canada	2018-03-28	"I don't think that should build there. Keep it the way it is"
kumanan Thambi	Vaughan, Canada	2018-03-29	"we need our nature, don't destroy them"
Furio Liberatore	Maple, Canada	2018-03-30	"It's amazing how no land is sacred anymore. Developers and city staff will use the excuse that the province implemented the places to grow act and intensification is the reason for these types of applications. The places to grow act specifically states that "By identifying where development can occur, the growth plan will complement the recently approved Greenbelt Plan that protects valuable agricultural lands and natural systems". Intensification should only occur when an area can support the influx of residents. It is clear that this area can not support 1000 homes. There is a lack of infrastructure (roads, buses, subway) the quality of life is slowly eroading. Traffic is increasing travel times to and from work which is taking time away from families. Green space is disappearing and

Name	Location	Date	Comment
			we can only blame Vaughan council. They continuously vote for theses types of developments instead to taking these opportunities to inhance the agricultural features of these types of lands as stated in the Oak Ridges Mo"
Alexandra Rossi	Vaughan, Canada	2018-03-30	"It is important to have green spaces our community."
John c	Woodbridge, Canada	2018-03-30	"Keep it green! :) this city has enough condos and subdivisions."
Joyce Roiatti	Vaughan, Canada	2018-03-30	"Cannot leave well enough alone. Where does it stop, taxpayers have no say in the community development. Greed leads the way; no respect for any natural environment without a building sitting on it."
Jacques Moreau	St-Bruno, Canada	2018-03-31	"Ytere is a need to protect some green space in our country."
JoAnne spizzirri	Vaughan, Canada	2018-03-31	"This is heartbreaking. That area is beautiful. Let’s keep it that way."
Anthony Vecchiarelli	Woodbridge, Canada	2018-03-31	"On 21 March 2018 there was a TREMENDOUS showing of solidarity by the more than 350+ citizens who attended the Greater Woodbridge Rate Payers Association (GWRA) community meeting to " STOP THE DEVELOPMENT (DESTRUCTION) " of the Board of Trade Gold Course (BTGC). The Vaughan Citizen (29 March) was completely on point with their front page headline “Residents BLAST developer over proposed makeover.” Moreover, they accurately characterized the evening when they wrote “It wasn’t hard to read the mood of the room last week as more than 300 angry residents let the developer (RGF Real Estate Fund L.P – aka - Clubhouse Developments Inc.*) know what they thought of its plan to redevelop the BTGC). Fellow citizens you are likely to agree we are under siege from all sides – developers are authorized to stuff whatever they want, where ever they want, whenever they want - all levels of government office and politicians have effectively abandoned us - corporate and political greed/graft rule unabated"
Sandro Vanin	Woodbridge, Canada	2018-04-03	"I think we should ask our mayor where he stands on this issue??????maurizio.bevilacqua@vaughan.ca How about our MPP???? Lets all ask what the Ontario Liberals think? sdelduca.mpp.co@liberal.ola.orgHow about our MPP???? Lets all ask what the Federal Liberals think?francesco.sorbara@parl.gc.ca"
Cristina Grieco	Vaughan, Canada	2018-04-03	"I've lived in this area my whole life and it is really sad what they are trying to do to it."
Michael Caccamo	Vaughan, Canada	2018-04-06	"Absolutely not!"
Thomas Franco	Vaughan, Canada	2018-04-09	"I say no to the development of the Country Club Golf Course."
Paola Maria Stefania Crocetti	Vaughan, Canada	2018-04-10	"Fight to save Vaughan’s green space we owe it to future generations"
D. Vecchiarelli	Maple, Canada	2018-04-16	"The golf course would be just fine where it is if they would only stop adding the housing!"

Name	Location	Date	Comment
Elise Cachia	Toronto, Canada	2018-04-17	"I play golf there for thirty years and it is the only one in the city . Please leave it the way it is ."
Coco Papoi	Vaughan, Canada	2018-04-17	"The Mayor and some of the City Council members are destroying this city one green space at a time. What makes me really sad is that they have the full support from the Region and the TRCA. What a shame."
Liliana Friello	Woodbridge, Canada	2018-04-28	"I strongly oppose any redevelopment of the Board of Trade golf course lands."
Karen Brock	Oakville, Canada	2018-04-29	"Protect greenspaces and watersheds in our communities. Intensification has its place in built areas close to transit. Don't let urban sprawl claim the natural spaces that we value...and NEED to be healthy."
Letizia Di Raimo	Woodbridge, Canada	2018-04-30	"Save our green spaces for future generations to enjoy"
Sally Dockery	Woodbridge, Canada	2018-05-01	"We need green space for people to enjoy life. There is already too much developement in Vaughan"
Bob Ebrahimzadeh	Vaughan, Canada	2018-05-01	"I'm signing because I benefit from the beauty this green space in an area that is already overwrought with traffic congestion and urban sprawl. It seems the developers have had the run of Woodbridge/Vaughan for too long in their quest for profits at the expense of smart planning and this focus needs to be re-adjusted with regard to the country club."
Zoha ghazal	Vaughan, Canada	2018-05-03	"NO NO NO to the development of the country club golf ♀# course"
Elizabeth. Hayes	Halton Hills, Canada	2018-05-04	"I was fortunate to play this course on August 2017. It is by far one of the best golf courses in the country."
Elizabeth. Hayes	Halton Hills, Canada	2018-05-04	"Long before I ever swung a golf club I was appreciative of the beauty of a wonderful space. Golf Courses add value to the city in the quality of life of all residents."
Theresa Di Marco	Woodbridge, Canada	2018-05-04	"Theresa Di Marco"
Cynthia Flood	Newmarket, Canada	2018-05-05	"The destruction of a golf course happened here in Newmarket recently. I join the citizens of Vaughan in protesting the destruction of The Country Club course."
Randy Widdis	Marion, Florida, US	2018-05-05	"This corridor is threatening my land as well."
Benito di biase Di biase	Woodbridge, Canada	2018-05-09	"Don’t take take away what may be the last green “lung” of this part of the city!!!! Better things to do with our taxes!!!!"
Vince D'Addese	North York, Canada	2018-05-09	"I thought our government was supposed to be PROTECTING the environment. One of the last green scapes left in Vaughan. This is a joke. Shame on all the politicians."

Name	Location	Date	Comment
Sandra D'Addese	Vaughan, Canada	2018-05-09	"No to town homes"
Jacy Knight	Mississauga, Canada	2018-05-10	"if you can't keep the golf club and grounds turn them into a forever greenspace and park."
Amanda Kavanaugh	Toronto, Canada	2018-05-11	"We need our nature to put the oxygen in the air we rely on, a golf course provides that and some. Stop letting the rich people do more damage to the planet and make more money they don't need."
Roger Heny	Calgary, Canada	2018-05-11	"What is wrong with having some green areas in the neighborhood.... please support this petition"
Jennifer James	Port Credit, Canada	2018-05-18	"As a former Clarence St resident for 25 years I was shocked to hear about the possible destruction of the beautiful golf club space. Once again greed seems to be taking the lead in Woodbridge “planning”. Shame shame ! John MacDonald"
Genny Lees	Woodbridge, Canada	2018-06-01	"Protect our green space! Its on a flood plane - have people forgotten about Hurricane Hazel?!?"
Lucie Kroeplin	Palgrave, Canada	2018-06-04	"It won’t be Woodbridge anymore without all those mature trees on the beautiful winding road and let’s think about the fresh air and the animals whose habitats will be lost, particularly the endangered species."
lidia battaglin	woodbridge, Canada	2018-06-05	"It is vital to keep all 'green' spaces to be enjoyed by us and our future generations. The beauty of the present 'golf course' lands add so much to our Community. Let's fight to ensure that it is not destroyed."
Nicole McQueen	Toronto, Canada	2018-07-09	"My sister lives in this community"
Michelle Cavaleri	Vaughan, Canada	2018-07-11	"Woodbridge needs more greenery! Too many homes will result in too much congestion! It is a beautiful space, we need to keep it as a STAPLE."
Maggie Cavaleri	Vaughan, Canada	2018-07-11	"I'm signing because the golf course is a staple of Woodbridge. This land is so beautiful and it would be sad to see it dissappear. "They pave paradise and put up a parking lot." - Joni Mitchell"
Matthew Tersigni	Vaughan, Canada	2018-07-17	"The Country Club bring business to Vaughan. The Country Club also helps Vaughan maintain the culture of family and friendship citizens in Vaughan love so much."
Susan Sigrist	Vaughan, Canada	2018-07-25	"Vaughan must protect its remaining natural heritage. What a shame, and a disgrace if this were to happen."
Lori De. Giusti	Caledon, Canada	2018-07-25	"We need to keep places green, there are enough homes here already."
Amy Hanada-Nagahara	Toronto, Canada	2018-07-26	"Joining my friend, Rosemary M. from my old neighbourhood in the Borough/City of York in supporting this green petition."
Annalisa Moser	Toronto, Canada	2018-08-07	"Strongly oppose development of the Country Club. We need to think long-term! Preserving our community and green space is

Name	Location	Date	Comment
			more important than developers and politicians who just see the short-term gain $$."
Frank Miele	Vaughan, Ontario, Canada	2018-08-30	"KVG must convince the Provincial Government to convert the course into a Provincial Park!"
Vivian Riva	Toronto, Canada	2018-10-03	"We need to honour and protect green space. Less development more nature!"
Giancarlo Cece	Toronto, Canada	2019-06-17	"I am signing because green space is important."
Daniel Smedley	Woodbridge, Canada	2019-06-17	"We need this green space in Vaughan"
Dolores Eramo	Woodbridge, Canada	2019-06-19	"We have enough gridlock and congestion in Vaughan and need to maintain the little green space we have left!"
Mike Janacek	Whitby, Canada	2019-06-24	"I support green space and oppose urban sprawl"
Giorgio Abbruscato	Vaughan, Canada	2020-01-06	"Realistically Islington's two lane bottle neck is bad enough for the traffic in Woodbridge; the proposed development of a third of the Country Club's green-space into urban housing is unimaginable. There is enough congestion as it is in Vaughan."
Raymond Valentin	Union city, New Jersey, US	2020-01-27	"Respect Protect Preserve"
Olga Nikulenko	Canada	2020-02-17	"Laws exist to enforce them, and not be rewritten to the wishes of a wealthy developer.In Canada, there is a lot of land in need of development, but not this magnificent green place."
Olga Nikulenko	Canada	2020-02-17	"Laws exist to enforce them, and not be rewritten to the wishes of a wealthy developer.In Canada, there is a lot of land in need of development, but not this magnificent green place."
Franca Stirpe	Vaughan, Ontario, Canada	2020-02-25	"When is enough, enough?"
Rose Palma	Vaughan, Canada	2020-02-27	"I moved to this area specifically because I love the golf course and the Beautiful surroundings around it. I also don't want thousands of people moving into that area and congesting everything."
Richard Lorello	Kleinburg, Canada	2020-02-28	"If there was ever a time for the community to come together.....it's now!"
Maria Strazzeri	Woodbridge, Canada	2020-03-01	"Please save the green space in this well established area. This area is not for development. It's in the heart of Woodbridge and a part of our heritage. Many of us have been in this area for 30-40 years or more. Isn't HWY 7 enough with all those condos going up? New Development is usually on the outside or north of our cities, why even consider ruining such a peaceful and wonderful place we like to call our home....Woodbridge ##"
Anna Levenson	Toronto, Ontario, Canada	2020-03-03	"Totally against it!"

Name	Location	Date	Comment
Enzo Cristello	Canada	2020-03-03	"Enzo"
Mark Dolimount	Woodbridge, Ontario, Canada	2020-03-05	"Somethings just need to be saved."
Judith Hannigan	Halifax, Canada	2020-03-06	"This space should be converted back to Humber conservation area rather than development."
Lindsay Kemble	Maple, Ontario, Canada	2020-03-08	"This area needs to stay as is, or even better as mentioned by others, let's make it a conservation area. These areas are vital to our health and well being and for our environment. Let's think about the future generations!"
Marco Grossi	Bolton, Canada	2020-03-23	"Love the course, there enough homes!"
James Harris	Newmarket, Canada	2020-03-26	"Been playing country club all my life"
Alessia Caputo	Woodbridge, Canada	2020-04-23	"Stop trying to develop Woodbridge more than it already is. Precious wildlife rely on areas like this and will be slain all for another condo. This will create more congestion, and with an older aged population nearby, become an unpleasant place to live. Stop this."
Nicole Squadrilla	Vaughan, Canada	2020-04-23	"We NEED this stunning green space!"
David Marchesan	Guelph, Canada	2020-04-26	"The development of the land is bad for the environment"
Carlo Mirabelli	Woodbridge, Canada	2020-05-05	"Signing for Slyvia Hope it works this time ☺"
Evan Sharma	Vaughan, Canada	2020-05-30	"I believe in keeping nature"
Robert Karunaratne	Richmond Hill, Canada	2020-05-30	"Over building"
Isabella Elia	Caledon, Canada	2020-05-30	"Isabella Elia"
Paul Naccarato	Woodbridge, Canada	2020-07-06	"We need to keep the Green Space. York Region and all of Ontario need to stop developing green spaces like Golf courses. The local government officials need to stop thinking that Green only represents short term money gains and start believing that Green should be for Preserving Mother Earth and a better way of life in the long term. If this gets approved, then what's next, Boyd Park? Woodbridge will never be the same...."
sarah massaro	Maple, Canada	2020-07-07	"GO SONIA ! SAY NO !"
John Basciano	Vaughan, Canada	2020-07-07	"We don’t need more housing"
Eric Gold	Toronto, Canada	2020-07-07	"We need to keep golf around Vaughan"
Angie Gebhardt	Toronto, Canada	2020-07-08	"By all means keep the golf course (although a park would be nice), but more importantly, keep the trees where they are. The last thing we need in downtown Woodbridge is more development. Enough

Name	Location	Date	Comment
			is enough. We need our green space to provide oxygen. We don't need more concrete."
Barb Newman	Barrie, Canada	2020-07-08	"I grew up in that area ...is there nothing sacred anymore that such precious green space must sucum to the almighty buck for developers. If the area can't be maintained as a golf course for financial reasons Which is totally understandable in this day , why can't it be turned into a big park?"
Anna Bellicoso	Maple, Canada	2020-07-08	"Anna Bellicoso"
Raff Di	vaughan, Canada	2020-07-09	"We need a HALT on all development in this area."
Donna Peca	Woodbridge, Canada	2020-07-10	"I believe that a beautiful golf course shouldn’t be destroyed by money hungry builders"
Gillian Vivona	Canada	2020-07-10	"Gillian Vivona"
Adam Alaimo	Bolton, Canada	2020-07-11	"Consider another option: with lack of green space and forested area, why not turn it into a forested area/natural space with trail access? Apparently natural spaces are hard to come by, and I hear trees are pretty darn good for people and the environment. :)"
Mary Palozzi	Toronto, Canada	2020-07-11	"We don’t want it here"
Gabrielle Bruno	Vaughan, Canada	2020-07-11	"I am signing because Woodbridge has already been destroyed enough by urbanization! It has become a haven for condo after condo, including Ontario Housing projects. This will further destroy the natural habitat of many animals and the minimal green space that is left. Shame on you Maurizio Bevilaqua!"
Lucy Capretta	Vaughan, Canada	2020-07-11	"Keep Vaughan green! Vaughan is already a concrete jungle! If it can’t remain a golf club then the city should consider turning it into a park to preserve wildlife and provide a space of peace and serenity for residents."
Daniel Smedley	Woodbridge, Canada	2020-07-11	"We need this green space for future generations to enjoy"
A Donatucci	Vaughan, Canada	2020-07-12	"For my kids future and to secure the "soul" of Woodbridge and her strong sense of community for generations to come....."
Jake Tanada	Toronto, Canada	2020-07-13	"Golf courses are a waste of space."
Rose Auciello	Toronto, Canada	2020-07-13	"Green space is important."
Robert MacNeil	Toronto, Canada	2020-07-13	"Green spaces... even golf courses, are too valuable. It could be converted to other green space use."
Rachel Press	Toronto, Canada	2020-07-13	"Green is better than development."
