Development Planning:

Official Plan: Vaughan Official Plan 2010, Volume 2, Vaughan Mills Centre Secondary Plan ('VMCSP'): "High-Rise Mixed-Use" with a maximum building height of 28 storey.

The Owner is requesting permission to increase the maximum building height of building B2 and the total number of dwelling units for Phase 1 lands (Block A and B) to facilitate a mixed-use development consisting of a 26-storey (Building B1) and 28-storey (Building B2) connected by a 5 and 6-storey podium, having a total of 566 residential units, 688.36 m² of at-grade commercial, approximately 420 m² of community space and 779 underground parking spaces approved through Site Development File DA.19.084.

Development Planning staff has no objection to the proposed variances, as the increases were approved by Council through DA.19.084 on April 20, 2021. A building height increase of 1.45 m for Building B2 (28-storey) is directly associated to the overall floor to ceiling height required for the appropriate programming of the Public Indoor Recreational Space ('PIRS') option being considered by the City which forms part of the community space. Development Planning staff is of the opinion the proposed development conforms to the Vaughan Mills Centre Secondary Plan as this increase in height would not result in Building B2 exceeding 28-storeys.

The additional 27 residential units are being proposed for Phase 1 (Block A and B), however, this is a result from a redistribution of units from Phase 2 (Block C). Notwithstanding the redeployment of units from one building to the other, the entirety of the lands (Phases 1 and 2) would continue to maintain an overall residential GFA of 128,962 m² and 1,467 total units as established through Zoning By-law 1-88, subject to site-specific Exception 9(1472).

The Development Planning Department have reviewed the application and is of the opinion that it is minor in nature, maintains the general intent and purpose of the Official Plan and Zoning By-law, and is desirable for the appropriate development of the land.

The Development Planning Department recommends approval of the application.

Attention: **Christine Vigneault, AMP, ACST**
Secretary Treasurer to the Committee of Adjustment

Re: **Minor Variance Application**
Part Block 1, Plan 65M-3696
8960 Jane Street
Granerola Residences Ltd.

Granerola Residences is the land owner of the subject lands. Please accept this application for minor variance to request an exceedance in the total number of units permitted within Building A and B, and an exceedance in the building height of Building B.

An associated development application for site plan approval has been filed with the City being file D.A.19.084. This report approved by Vaughan Council at the April 13, 2021 Committee of the Whole meeting identified that variances required and recommended their approval. We are currently satisfying conditions issued through the Committee of the Whole approval and should be in a position to register the Site Plan agreement upon the approval of the proposed variances.

Variance 1

Increase the number of units permitted within Phase 1 (Block A & B) from 1125 to 1152.

(an increase of 27 units, representing an increase to the unit count of 2.4%)

Variance 2

Increase the permitted building height of the Block B from 91.5m to 92.95m

(maximum number of storey's is being maintained)

The subject lands are located on the west side of Jane Street, south of Rutherford Road. The subject lands have been approved for development through a Local Planning Appeal Tribunal (LPAT) Decision issued on September 17, 2018. An implementing Zoning Bylaw 033-2019 provided for site specific provisions that govern the lands.

During the processing of the site plan application file, submissions have been made to the municipality to support the 2 variances being requested. The information was reviewed by the City and Region of York to determine compliance with their respective policy documents. It was determined that the variances being sought were minor and in compliance with the Official Plan and maintained the intent of the existing zoning bylaw.

We believe the 2 variances requested meet all 4 tests under the Planning Act and should be supported.

Should you have any questions, please contact me.

Thank you,

Joe Di Giuseppe
Development Manager
