Good evening Council and Committee Members,

Being a long term resident of Vaughan, I have witnessed its growth first hand. I have seen the many wonderful changes most importantly for me: the subway access, the road improvements, schools and libraries. We have everything in Vaughan, including a new hospital!

I am writing today in support of this proposal as I feel it makes better use of these older underutilized properties and supports the density requirements in the area. This location will allow for easy access to the existing rapid transit along highway 7 and the subway system.

I hope the units will be large enough for families and the cost of ownership reasonable. I feel more housing options will provide for an economical entry point to the high cost of home ownership in Woodbridge.

Thank you,

G. Debello
