Subject: [External] Electronic deputation B014/21

Dear COFA,

I am applying to make a deputation on October 28 about our community petition. We have the signatures of 36 houses (and many more individual residents) who oppose the application for severance at 160 Monsheen Drive. The large number of residents who object should be taken into consideration and NOT weighted equally with the handful of homes who support the severance. One of the residents who initially supported the severance has changed her mind to sign our petition as she felt she “was caught off guard” when she was approached. Many residents opposing wrote heartfelt and well-researched letters and those letters should be given sincere and genuine consideration. The residents ARE the community and there is a LOUD and resounding “NO” to severance in Seneca Heights. This should matter.

Please let me know the logistics of what is required in my five minute presentation.

Sincerely ,

Judy Lam
