

COMMITTEE OF ADJUSTMENT CITY OF VAUGHAN

Re Files: B-006/21-B-009/21 A117/21-A121/21 167 National Dr Woodbridge

Submission to the Committee respecting the above application by:

Maria Saverino 208 National Drive

I am the owner of one of the houses directly across the street from the subject property.

We are opposed to the above application.

The existing developed residential lots are Estate Lots.

The area was not designed for subdivision homes.

This would change the dynamics of the street, increasing the traffic volume.

It would also remove a lot natural and mature tree canopy on the subject property.

Adding a sanitary line that was previously voted against would also create a lot of inconvenience.

The property is presently approved for only one dwelling.

My request is the committee reject this application.

Respectfully

Maria Saverino
