Dear Sir:

**Subject: Notice of Stopping-Up and Closing of a Road  
Eagle Rock Way, Maple ON  
Bell File: 905-22-110**

---

We acknowledge receipt and thank you for your correspondence dated February 22, 2022.

Subsequent to review of the abovenoted Application by our local Engineering Department, it has been identified that Bell Canada will require a transfer of easement over these lands to protect existing buried facilities, supply service to the properties, and to maintain service in the area. According to our records, Bell's buried cable runs through the property, parallel to the direction of the roadway as identified in the sketch provided.

Bell Canada would like to confirm that a blanket easement over the lands, or a 3.0m wide corridor to be measured 1.5m on either side of the buried facilities as can be accommodated would satisfy our needs. With respect to the buried plant, it will be necessary for the surveyor to arrange for a cable locate to identify its location.

Bell Canada kindly requests that the easement be granted from the City prior to the sale of these lands into private ownership. Please find attached to this e-mail, Bell's standard Schedule and a sketch showing the approximate location of our facilities.

Since the easement is necessary in order to provide and maintain service to this area, all costs associated with this transaction will be the responsibility of the Owner.

We hope this proposal meets with your approval. We look forward to the City's Solicitor contacting us.

If there are any questions or concerns, please do not hesitate to call.

Yours truly,
